Hall's Catarrh Medicine

Those who are in a "run-down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions.

HALL'S CATARRH MEDICINE is a Combined Treatment, both local and internal, and has been successful in the treatment of Catarrh for over forty years. Sold by all druggists.

TO OUR FRIENDS

We are truly appreciative of the way our many friends responded to our special inducements, made for the purpose of raising needed money—we are thus able to take care of our obligations without borrowing money, and you received the interest.

There are quite a few who have not taken advantage of the liberal offer and are in arrears, whose paper will automatically stop with this issue unless the subscription is renewed or other satisfactory arrangements made. We regret to do this, but two reasons compel: Postoffice regulations require "paid in advance," and some refuse to pay the overdue accounts; so it must be "in advance" to all. From now on the Tribune will start when paid for and stop at expiration. You will like this better as you get used to it.

The blue pencil will tell the story, and all in arrears have been so notified. Saturday night, Jan. 31, at 7:00 o'clock, the extra special reduction ends and the rate goes back to \$1.75 per year.

Mr. and Mrs. McAdoo.

The bill setting aside the Clear Lake water sheds permanently to the people of Oregon was introduced in the senate Tuesday by Senator Joseph of Multnomah county. This bill and its consequences are of paramount interest to every citizen of the Willamette valley, because this immense body of pure water and the unknown horse power therefrom is to be saved to the people. Write Senator Garland or Representatives Swan or Tucker for a copy.

Senator Borah and aides on his 'fault-finding' committee refuse to o. k. appointment of Attorney General Stone to the U. S. supreme court by President Coolidge. Since the president must stand or fall with the men he chooses as his subordinates, why should Borah be so careful? He would not be responsible, besides his republicanism is not too pure.

Sunday's Portland papers said Gov. Pierce had the whiphand at the legislature, and then carried a story from Tom Kay leashing the governor unmercifully, and saying he had the governor "sliding." Just how much of the political bunk coming from Salem can be believed is quite a puzzle.

When that fish hatchery on Roaring River gets to going strong, it will be just one more spot of interest in Linn county to Oregonians and the visitors within our borders. This hatchery will be one of the lar-

gest and most up-to-date in the state, if not the whole country.

Spring is upon us and farmers on well drained land are plowing most every day, thus getting their ground in shape for seeding at the proper time. Where else in all the United States can you beat Oregon?

Two contests were staged by the hostess and a vocal duet was rendered by Mrs. Crenshaw and Mrs. Goar, the latter also presiding at the piano.

State Law-Makers

(Continued from page 1.)

have appeared. One of the most important is the Oakes-Swan measure, which would place a tax on bus and truck lines for the maintenance of highways. The measure was drawn up under the direction of railroad attorneys.

The measure promises to precipitate a hot fight in the session. Bus and truck lines representatives are on hand to fight for the life of their business.

Camp Ground Law Offered.

Centralization of control of all state traffic officers under one chief, to be selected by the secretary of state, authorizing increases in the salaries of the chief inspector and operatives, and improvement and regulation of sanitary conditions in public camp grounds, were proposed in two bills prepared by Senator Maglady.

A memorial to congress urging federal aid in the development of Pacific coast ports adjacent to large timber holdings in order to make these accessible to markets, was passed by both houses.

Legislative Brevities.

Rumor has it that there is to be another "oleomargarine" bill brought to the session by the farmers' and dairymen's organizations.

A bill introduced in the senate would create a board of automobile machinist examiners to be composed of three members.

Women as well as men will be compelled to obtain hunting and fishing licenses under an amendment the house game commission will propose in a bill.

The board of control and the budget commission would be consolidated under house bill No. 132, introduced by Kilham, Multnomah county.

Establishment of a state tuberculosis hospital east of the Cascade mountains would be a question to be voted on by the people at the general election of November, 1926, if a bill introduced by Senator Upton is passed.

Three bills, designed to protect farmers against trespassers, particularly tourists who invade their premises for articles of food, have been introduced by Senator Sam Brown of Marion county.

To lay a toll on tax exempt securities at some points during their lifetime and make them pay their contribution to the public weal is the purpose of house bill 76, introduced by Representative German. The bill provides that inheritance taxes shall be laid upon tax exempts when they are bequeathed in estates from their former owner to another. Mr. German has had legal advice and believes the law will sustain his bill.

Former Scioite Good Asset

The value of small industries to a community is well illustrated in a report of the business of the Dallas Creamery covering a period of about nine months. The creamery during that time has had an output of 63,963 pounds of butter and has distributed approximately \$40,000 among the farmers of that vicinity in payment for butterfat and produce of all kinds.

E. A. Wagner, manager of the creamery, went from here to Dallas about nine months ago, after operating a creamery here for a year, leaving because the patronage did not warrant his remaining, and our people lost a valuable asset that has been secured by Dallas. Mr. Wagner paid to the producers here during that year more than \$26,000, which no other small concern has approached, and Scio and community are the losers.

At the present time, Mr. Wagner says, 95 per cent of his home merchants are selling his butter, showing they are loyal to a home product. He makes nearly 7000 pounds

of butter per month, which is also sold in Scio, Jefferson, Stayton and Portland.

Mr. Hickey Surprised

Mr. and Mrs. Paul A. Lardon entertained a party of friends Tuesday evening with a surprise dinner party for Mr. Claude Hickey, in honor of his birthday.

A large birthday cake adorned the center of the table, around which were seated Mr. and Mrs. Joe Wesley, Mr. and Mrs. Ethel Arnold, Mr. and Mrs. Edwin Holland, Mr. and Mrs. John Sticha, Thomas Large, John Kelly, Claude Hickey, and the hosts. After dinner cards and music were enjoyed. High scores were awarded to Mrs. John Sticha and Thomas Large, the consolations going to Mrs. Edwin Holland and Mr. Hickey.

Entertained Husbands

Mrs. W. F. Gill, Mrs. John Wesley, Mrs. C. W. Bragg and Mrs. Fred T. Bilyeu were hostesses to the members of the bridge club and their husbands at the Gill home last Friday night. A six o'clock dinner was followed by the evening at bridge. Mr. and Mrs. E. D. Myers were awarded ladies' and gentlemen's high scores and Mr. and Mrs. R. L. Hixson, the low scores. Mrs. A. W. Hagey and Miss Eulalia Lindsay, house guest of Mrs. Paul Lardon, were invited guests.

"Do you think the American people have a sense of humor?" "Yes," answered Senator Sorghum. "Every once in awhile somebody comes along that seems to have been elected because he amused the folks."

Henry Stepanek, who is working for the S. P. Co., spent Sunday at his home here.
