# "You've GOT To Earn MORE"

It isn't a question alone of whether you want a better salary—it's a hard condition of life that you must face to protect yourself and those dependent upon you.

You can't stand still—if you don't want to go backward, you must go forward—that is, you've got to earn more.

Earning more means holding a better position—Independence, happiness, and a chance to provide for the future.

Thousands upon thousands who once held low, poorly paid positions now earn high salaries as a result of letting the INTERNATIONAL CORRESPONDENCE SCHOOLS show them how to accomplish the change. During last year about 4,000 students voluntarily reported increases in salary amounting to over two million dollars! Every month an average of 300 men voluntarily report to us advancement in position and earnings. Why not make YOUR start this month?

### HOW TO DO IT

Simply mark on the coupon the position you wish to secure, then tear out and mail the coupon to the International Correspondence Schools. This puts you under no obligation whatever but allows our experts to adapt a course to your individual needs and circumstances.

You've got to earn more money. The I. C. S. will help you. Will you take the start today?

### The Sleep of Gold

(By Mayor F. W. Barber)

Will its sleep of gold yet be the undoing of the United States?

Will history repeat itself and our worship of Mammon become the means of our national disintegration?

Will the peoples of America—rich, grasping, indifferent to safety—become the serfs of a conquering nation.

It is food for serious thought—food which should be dissected and consumed without loss of time.

A book has been widely circulated throughout the Japanese empire calculated to inflame the little brown men against the people of the United States and pave the way for the waging of a conquering war against this country. It is creating wild and deadly enthusiasm throughout the empire.

The United States is pictured as a nation of money grasping weaklings incapable of self defense, a people devoid of national pride or honor, a nation the conquering of which would be but idle pastime for the fanatical hordes of the mikado.

The book describes in detail the methods of an alliance with Mexico, the destruction of the Panama Canal and a simultaneous invasion of this country from the seashores and across the Rio Grande.

This book is not the fantastic creation of an idle brain. It is a stern reality and must be faced if we would maintain our national entity.

In much it is ridiculously overdrawn and warped from all semblance of truth—designed so in order to enflame the masses, but in other respects candor compels us to admit that it is only true.

We are a nation of money grabbers and gold is our god.

We are periling our national safety in our creed for more gold.

We are sinking our patriotism in the mire of indifference.

We are a nation without the means of self defense.

We are facing the wearing of the yoke of a nation of unbelievers, a nation of blood thirsty fanatics.

We are walking blindly in the jaws of destruction, without a thought of the ignominy of submission, without a conception of the horrors that face the future of the women of our race.

We are virtually sleeping in the jaws of death.

Japan, with its millions of veteran troops, can conquer us today with ease. A Japanese-Mexican alliance can crush us to earth.

This is not the day of David and Goliath. It is a day, when big guns and disciplined and seasoned troops win the battle.

It is a day of death to the weak and victory to the strong.

It is the day for us to forget our greed for gold and think of our security of tomorrow.

It should be the day of protection for our women and children.

It is time for united action in defense of home and country.

MANDOLIN FOR SALE—at a reasonable price, apply at Journal office, Ione, Oregon. 16-25
