This is illustrative of the everyday comments we gather from patrons about the

ROYAL WORCESTER CORSETS

If you knew as we know, the Style, the Quality, the Workmanship which are sewn in every seam, it would be unnecessary for us to even "hint" about the name "ROYAL WORCESTER."

For when buying it would be your foregone conclusion to say "ROYAL WORCESTER, please."

Minor & Co., Heppner

OBITUARY.

Minnie A. Nicholson was born at Ripon, Wis., on July 19, 1861. When a child one year of age, her parents moved to Madelia, Minn., where she lived until her marriage to Dr. A. P. Culbertson, Oct. 23, 1885, and then removed to Brookings Co., South Dakota, where they settled. Previous to her marriage she was engaged in teaching. Her first school was taught when she was but fourteen years of age. To Dr. and Mrs. Culbertson three children have been born, two of these dying in infancy. Miss Lucile, their surviving daughter, is now engaged as a teacher in the Heppner High school.

Mrs. Culbertson was a great worker in the Degree of Honor, and helped in the organization of the grand lodge of that order in South Dakota, and was its Grand Recorder up to the time of leaving that state to go Michigan where she and her family resided for the past sixteen years. She was also a member of the Order of Eastern Star, in which she took much interest.

Funeral services were held at the Federated church in Heppner on last Saturday morning, conducted by Rev. W. T. Goulder, pastor of the M. E. church, South. The services were simple and appropriate, attended by members of the Degree of Honor and Order of Eastern Star of Heppner and many of the newly made friends of the deceased. The floral offerings were beautiful mementoes of the esteem in which the deceased came to be held by our people, and were likewise appropriate emblems of a beautiful character that has taken its departure to the home beyond, and fitting expressions of the deep sympathy to the father and daughter left behind.

Mrs. Culbertson had been an invalid for some time, suffering the effects of a very severe case pneumonia, her ailment baffling the best of medical attention. The change of climate proved only temporarily beneficial, and she peacefully passed from this life at their home in Heppner on Thursday morning last.

High School Notes.

Monday was the red letter day in the history of H. H. S. That was the day of the opening of the new building. Work was taken up without the excitement and confusion which is supposed to accompany such a change. Everyone is more than pleased with the new building and it must be inspected to be best appreciated.

First literary program will be given Friday, the 31st. The committee has worked up a program appropriate to the date and it is hoped that many of the parents and friends will take this opportunity of coming up to inspect our new house.

We are sorry that it was necessary to cancel the Fossil game. We had looked forward to this game, with the hope of bringing home the prize Fossil bacon. It is to be hoped that basketball will receive some much needed attention now. We have the material for a good five and the prospects for several good games.

Julia Perry, '17 has been absent from school for several days on account of a sprained ankle.

That was some feed the Seniors pulled off in the Chem. laboratory Tuesday, but they do not seem to like the idea of cleaning up. Let us hope that they will not have to be reminded of this most pleasant duty next time. "But above all things don't be old-maidish."

Announcement.

Messrs. Lowell Twichell and Chas. Wright desire to announce to the public of Heppner and vicinity that they have associated themselves together for the purpose of engaging in the butcher business at Heppner. During the coming week they will open for business in the shop just north of Minor & Co., the business to be conducted under the name of People's Cash Market. Everything will be first class, and the public of this vicinity is invited to call and see us.

The creamery is beginning to receive much cream from around Heppner, Ione and Lexington. There is no reason why it should not all come here. The transportation is less than to Portland and we have a first class business enterprise. There is also a growing demand for the butter, which is being asked for in territory formerly supplied by Portland, Pendleton and Walla Walla.—Hermiston Herald.

A correspondent wants to know when to use "shall" and "should." Never use "shall" when you should use "should" and never use "should" when you should use "shall." In short we should always say "should" whenever we should and never should say "shall" when we should say "should." Is that plain enough?
