 THURSDAY, JAN. 10, 1906.

The banquet of the Commercial club developed the fact that when occasion demands Hood River can produce oranges as well as big red apples.

The predictions made by the speakers at the banquet of the Commercial club of the enormous apple crop which Hood River is expected to have in a few years, while seemingly exaggerated are not at all improbable. At the present rate of increase in the yield of apples and in the development of land many years would not have to elapse before it would be a reality.

The cold weather which has been prevailing at Hood River extends pretty generally all over the coast and California has been affected as well as Oregon. Even the faraway Philippines has not escaped and reports from there are to the effect that the natives are shivering in a temperature of 55 degrees and without clothing to protect them.

The retirement of Mayor A. S. Blowers as chief executive of the city was the occasion for congratulations both by him and the councilmen. His term of office has been one of harmonious relations with that body and has been the means of accomplishing much in the way of improvement and better government for the city. His retirement cannot therefore be anything but satisfactory and gratifying as he has served the city well and conscientiously.

If report is authentic it is possible that Hood River may be honored by having one of her citizens elected to the presidency of the State Horticultural society. While we are not flashing for honors of this nature we know that there is plenty of material here from which to select an executive for the society. However, we will not feel downcast if a Hood River man is not chosen and will help the man who is and the society to further the cause of the Oregon apple.

The appeal of Editor Glinder for the return of his calf which has strayed away from its bed and board is couched in language that must move the heart of the most exacting. He fears that it is roaming in the environments of Blingen, which town is not any too well disposed toward White Salmon or its residents and chattels. After reading the appeal however, we are of the opinion that even the hard hearted Blingenite will be touched and the calf returned.

In its efforts to place the matter of county division before the people of Hood River and the other sections embraced in the proposed new county the Commercial club has been most generously aided by its residents. Many have volunteered to do what they could to assist it and scarcely anybody refused when called on. This is most gratifying to the club and shows a commendatory spirit for progressiveness that has brought it and is still bringing results to Hood River. The saying of Nelson that "England expects every man to do his duty" has been exemplified by the great majority of the residents of Hood River and no more better thing could have been done.

While many residents of Hood River are not aware of the fact they have been getting an extra mail service from Portland for about two weeks. Some time ago the postal authorities in Portland began sending a closed pouch of mail from that city to Hood River and have also been taking one from here. This is proving a great convenience to business men here on account of the fact that it is giving them a mail to Portland that can, as a rule, be relied on. The fact that it was done without any solicitation on the part of towns which the local train reaches speaks well for the vigilance of the postoffice department in looking to the betterment of the mail service.

BIG SHOWING FOR COUNTY DIVISION

The committee having charge of the petitions which are being circulated in the interest of county division report most gratifying results. On 23 petitions which have been returned there are over 650 signatures and 30 petitions yet remain to be heard from. The committee is now engaged in the work of calling in the petitions and requests that those that are still out be brought or forwarded at once to H. F. Davidson, president of the Commercial club, or A. D. Moe, its secretary. It is most important that these petitions be returned not later than Saturday, January 12th.

In its effort to get the new county the club has been offered assistance from unexpected sources and its members feel quite confident that the matter will be successful or at least be given every consideration at the hands of the legislature. Some strong influences are at work in its behalf and with the assistance which is being volunteered on all sides feel much encouraged. It is anticipated that the petitions will aggregate from 1,000 to 1,200 names in addition to a request for the county from all the large manufacturing and fruit growing companies in the district of the proposed new county.

Many members of the legislature are said to be predisposed in favor of the movement and it is thought that a strong demonstration of the rightful necessity for a division will insure the passage of the bill.

The merry day for the doctors is the day after Christmas.

SHOTS HERE AND THERE

Only two questions in the negro disarmament matter—first, whether being commander-in-chief means anything, and second, whether Colonel Roosevelt or Captain Forsaker is commander-in-chief?

Panama canal workers, the president announces, are to be given badges. Two had the contractors cannot be knighted, but perhaps that will follow the institution of the order.

Looks as though the Indians were getting the graft hunger. Here are the Okeas of Oklahoma, who have dissolved their tribal form of government, and have elected a white man to look after their business.

French waiters, it seems receive \$75,000,000 a year in tips. Is it any wonder then, that when they come here, they are often mistaken for the nobility?

The U. S. senate is not an idle body. When it has no other business to attract attention, it can always fall back on the Smoot case.

Before the present session of congress is over, the president may be glad he declined a third term right at the start.

Although Senator Forsaker said that nothing a man can do with a view of furthering his ambition for the presidency, will make him an available candidate, he is not overlooking any bets.

Naturally, that shortage of coal in the West is a valid excuse for boosting the price in the East.

London is agitated over the question of what England will do in case of war between the United States and Japan. That's easy. England will stand around and give advice to both sides.

Dispatches from Paris announce that the Comtesse de Pin has taken to driving a cab in that city. That's one way for the Comtesse de Pin to get ahead.

Indiana ranks fourth as a canning state, although the amount of canned literature she is turning out would seem to outstrip her to the first place.

A New York Rochelle, N. Y. man who was once kind to a rich man in distress, has just received \$500,000. If there are any more rich men lying around in distress we should like to be notified.

A writer in the Outing magazine, says that boxing develops the lungs more than any other exercise. The lung development however, takes place between boxing matches.

Really Mr. Carnegie need not worry because an income tax will make him rich. All taxes seem to have a tendency to do that.

A member of the Texas legislature has resigned because he "cannot conscientiously vote for Bailey." If all the anti-Bailey members are going to act that way about it how is it to help the "patriot" who is after the senator's seat?

John D. Rockefeller and such captains of industry lived under a monarchy, they would be noblemen or knights," says an admiring contemporary. Mr. Rockefeller would be grand commander of the Knights of the Golden Fleece.

The United States government is quoted abroad as determined not to allow its strength as against Cuba's weakness, to cause any sort of interference with the latter's right and independence. Besides we haven't any use for a canal across Cuba.

Mayor Schmitz, of San Francisco, displays the greatest courage and eagerness to perish for his beloved city, and right in the faces of the Japanese too. Also the mayor is willing to drop all court discussions and let bygones be bygones so far as graft talk is concerned.

Now that the Christmas rush is over, Senator Hansbrough may be willing to revise his opinion that we are threatened with national nervous prostration.

War department has barred white hoaxes from the army. Hope dissemination doesn't extend to red headed girls.

A Vienna doctor has succeeded in transplanting a human eye. That's all, but can be made one third gross where two grow before?

Roosevelt believes Chinese labor is worth a trial on the isthmus. Well, it may be that chop suey will prove an antidote for the climate.

J. J. Hill proposes that the railroads spend a billion a year for the next five years increasing equipment. The railroad presidents are not all sneaking at once, we regret to observe.

Senator Forsaker must have a "mighty hankering" for the negro vote. Jim, old boy, don't mind, you'll lose the white man's respect by lighting Roosevelt who is square to every one.

The treasurer of Pennsylvania recently received \$100 for the con-

King of All Cough Medicines.
 Mr. E. G. Case, a mail carrier of Canton Center, Conn., who has been in the U. S. Service for about sixteen years, says: "We have tried many cough medicines for cough, but Chamberlain's Cough Remedy is king of all and one to be relied upon every time. We also find it the best remedy for coughs and colds, giving certain results and leaving no bad after effects." For sale by Keir & Cass.
