IRRIGATION FOR YOUNG FRUIT TREES

By Gordon G. Brown

The writer has observed many places in the valley where young trees set in the old orchard are not receiving proper care. To begin with it is recognized that to establish a young tree where an old one was removed is difficult. There are various reasons for this, the chief factor being depleted fertility. Obviously, therefore, every possible care should be taken if the young trees are to grow in a satisfactory manner. This means plenty of cultivation and irrigation. In many cases, young trees are to grow in a satisfactory manner. This means plenty of cultivation and irrigation. In many cases, young trees are set in an orchard where alfalfa, clover or grass is growing. While such a practice is satisfactory so far as the old trees are concerned, harm is sure to result if such crops are allowed to encroach upon the young trees. Clean cultivation at frequent intervals must be given such. This probably means a shovel and hoe and in some cases a pick-axe. The busy orchardist may consider that he can ill afford the time to do such work but unless this is done there is little chance that satisfactory growth will result. Furthermore, irrigation should be ample. Trees allowed to dry out will not only fail to make proper growth but are also much more subject to winter injury. This was well demonstrated two years ago. The writer submits that the investment of sixty to seventy cents in a tree as initial cost is too much to lose. Furthermore, with the best of care seven or eight years will be necessary before the tree comes into bearing. At best, it will take a long time. Do not prolong this period of development or sustain failure because of neglect.

Incidentally the season for irrigation is at hand. This should start right away. If the soil dries out it will take much greater effort to maintain uniform moisture than where there is a fairly moist soil to start with. In a dry soil, air must be expelled before water can get in, whereas with moist soil cohesion between water particles facilitates this practice.

STUDEBAKER MAIL CAR VISITS HERE

A Studebaker Special 6 roadster en route from Spokane to Los Angeles on an endurance run, passed through Hood River at 9:30 last Thursday morning. M. Cameron, local Studebaker distributor, and numerous motor enthusiasts greeted the car as it headed through town over the highway. The car carries mails. It was expected to arrive in the southern metropolis Friday night. If the experiment is successful a motor mail service may follow. The machine was piloted day and night.

Summons

In the Justice Court for the Hood River District, Hood River County, Oregon.

C. A. Elliott, doing business as Elliott-Overland Co., Plaintiff, vs. L. H. Beaudrie, Defendant.

To L. H. Beaudrie, Oakland, California, Defendant:

In the name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled action on or before the last day of consecutive weeks from the date of the first publication of this summons, and if you fail to do so answer, for want thereof, the plaintiff will take judgment against you for the sum of \$25.00 with 6 per cent interest from May 31, 1920, until paid, together with costs and disbursements in this action, and for a decree of the Court ordering C. H. Bryan, garnishee, to release certain personal property attached in this action, and for the issuance of a writ of execution and order of sale of said personal property attached herein, to-wit: One 3-horse power Z engine.

You are hereby served by publication of this summons and order of attachment by virtue of an order of the Hon. A. W. Othank, Justice of the Peace for the District of Hood River, Hood River County, Oregon, duly made, granted and entered on the 19th day of April, 1921, for service of this summons and order of attachment upon you by publication thereof, and in accordance therewith, and order prescribes that the time for publication thereof shall be six consecutive weeks in the Hood River Glacier, a newspaper of general circulation published in Hood River County, Oregon, and the 21st day of April, 1921, as the date of the first publication of this summons, and you are hereby further notified that said date is and will be the date of the first publication of this summons.

Dated April 19, 1921.

C. D. Nickelsen, Attorney for Plaintiff, Hood River, Oregon. a21j2

FROM REMOTEST PARTS OF GLOBE

Tanlac Elements Come From Many Lands Far Away From Here

The ingredients from which the celebrated medicine Tanlac is made, come from remote sections of the earth and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio, and Walkerville, Canada.

The Alps, Apennines, Pyrenees, Russian-Asia, Brazil, West Indies, Rocky Mountains, Asia Minor, Persia, India, Mexico, Columbia and Peru are among the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac which, according to recent reports, is now having the largest sale of any medicine of its kind in the world; over 29,000,000 bottles having been sold in six years.

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 50,000 bottles. Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs, bark and flowers are received in their rough state from all parts of the globe until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labeled and shipped out to tens of thousands of druggists throughout the United States and Canada to supply a demand never before equalled by this, or any other medicine.—Adv.

Cascade Span Plans Being Drawn

Preliminary plans and formalities in connection with the building of the proposed Oregon-Washington Vehicle Bridge across the Columbia river at Cascade Locks are being completed, according to the United States engineers of the first district. A temporary permit for the bridge has been granted, it is said.

SLOW DEATH

Aches, pains, nervousness, difficulty in urinating, often mean serious disorders. The world's standard remedy for kidney, liver, bladder and uric acid troubles—

GOLD MEDAL HAARLEM OIL CAPSULES

bring quick relief and often ward off deadly diseases. Known as the national remedy of Holland for more than 200 years. Ask druggists, in three sizes. Look for the name Gold Medal on every box and accept no imitation.

In the matter of the Estate of A. M. Cuning, Deceased.

Notice is hereby given to all persons interested, that J. H. Hazlett, Administrator of the above mentioned estate, has filed in the County Court of Hood River County, Oregon, his Final Account, and the County Court has appointed Friday, June 10th, 1921, at the hour of ten o'clock, A. M., as the day and hour for hearing objections to said account, and the settlement thereof and the closing of said estate.

On the above mentioned day and hour, any heir, creditor or other person interested in said estate, may file his objections to said Final Account or to any particular item thereof, specifying the particulars of such objections.

Dated May 10th, 1921.
J. H. Hazlett, Administrator. m12j2

Notice to Creditors

In the County Court of the State of Oregon, for Hood River County.

In the matter of the estate of Louis Plog, deceased.

Notice is hereby given that the undersigned has been duly appointed, by the County Court of Hood River County, Oregon, administrator of the estate of Louis Plog, deceased, and has qualified as such. All persons having any claims against above named estate are required to present the same, properly verified as by law required, to the undersigned, at the office of John Baker, Attorney at Law, in the Brooks Building, Hood River, Oregon, within six months from the date of this notice.

Dated this 24th day of May, 1921.
John E. Plog, Administrator of the Estate of Louis Plog, Deceased. m26j25
