

Camels are made for Men who Think for Themselves

Such folks know real quality—and DEMAND it. They prefer Camels because Camels give them the smoothest, mellowest smoke they can buy—because they love the mild, rich flavor of choicest tobaccos, perfectly blended—and because Camels leave NO CIGARETTEY AFTERTASTE.

Like every man who does his own thinking, you want fine tobacco in your cigarettes. You'll find it in Camels.

And, mind you, no flashy package just for show. No extra wrappers! No costly frills! These things don't improve the smoke any more than premiums or coupons.

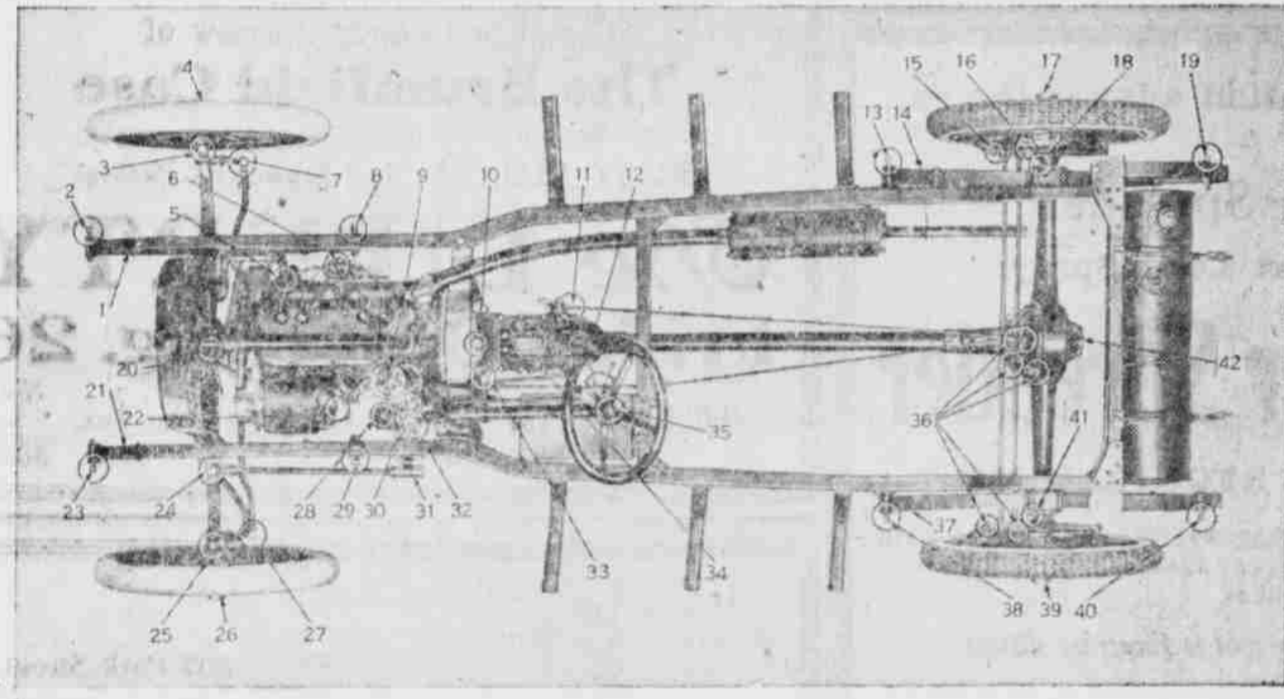

But QUALITY! Listen! That's CAMELS!

Camel

R. J. REYNOLDS Tobacco Co. Winston-Salem, N. C.

DODGE CORRECT LUBRICATION CHART

Engine—9. Daily, or every 100 miles, use Zerolene No. 3 (former designation Medium). Pour fresh oil in the crankcase through filler pipe until oil level gauge on crankcase registers "full." Avoid overfilling. Best results will be obtained if the oil level is maintained between "half full" and "full" marks on the gauge. To get a correct reading of the oil level gauge, the automobile should be approximately level and the engine not running. When engine is running, the oil pressure indicator on dash should show pressure which will vary with the speed and temperature of the engine. If no pressure is registered, the indication is lack of oil in crankcase, oil pump not working properly, or some obstruction or break in oil passages. The engine should immediately be stopped and the trouble located and remedied.

Transmission—34. Every 500 miles remove cover to transmission case and add sufficient fresh Zerolene Transmission Lubricant "B" to completely cover the reverse idler gear. When transmission case is empty, two quarts of lubricant are required to bring to proper level. Every 2,000 miles remove drain plug from bottom of case and allow all old oil to drain. Then remove cover and wash all gears, shafts and interior of case with Pearl Oil (kerosene). When transmission is clean and thoroughly drained, replace drain plug and fill to correct level with Zerolene Transmission Lubricant "B."

Gear Drag Link, 24; Distributor Shaft, 6. On later models where parts enumerated are equipped with some form of grease gun connection in place of grease gun, lubrication is effected by means of grease gun supplied with cap. General Lubrication. Daily, or every 100 miles, use squirt can to apply Zerolene No. 3 to all joints and small working parts not otherwise lubricated, such as spark and throttle connections, 39, brake clevis pins, 11, 15, 16, 36, steering wheel, 35, pedal shafts, 33, etc. Care should be taken that oil holes and passages are free from dirt so that clean oil may reach the surfaces to be lubricated.

ALLEGED SPEEDER IS ASSESSED \$35 FINE

Howard C. Mellvain, of Portland, whose father is connected with the Kern Construction Co. in paving work on the Highway just east of here, was fined \$35 Friday by Justice of the Peace Onthank on a charge of reckless driving. Speed officer claimed that the young man, traveling out of Cascade Locks Thursday night reached a speed of 65 miles.

"I am also going to place you on probation," said Mr. Onthank in assessing the fine. "I have considered revoking your driver's license but I will merely suspend it for this time. Any further offense will cause you automatically to lose your license."

Young Mellvain's father, H. C. Mellvain, Sr., was fined \$5 last week for an alleged speed of 35 miles an hour. Frank Sproul, who is a locksmith and who operates a bicycle and lawn mower repair shop on the Heights, says it "never rains but it pours." Mr. Sproul worked with an old model motorcycle until he had it running. He mounted for a ride. Almost immediately he was in the coils of traffic officers, who charged him with reckless operation of the machine, the lack of a driver's license, making too much noise, and with having no license plates. He was taken before City Recorder Howe, who assessed a fine of \$5.

The city charge over, the amateur motorcyclist was escorted to Justice of the Peace Onthank. The latter permitted Mr. Sproul to go free with the warning that he must buy licenses and otherwise comply with the law.

E. L. McCarty left a truck standing backed against a curbing here one day last week with the motor running. Two young women passed, one of them wearing a white dress and the other a pink costume. The machine bucked just as the young women passed the exhaust pipe. Their dresses were covered with a smudge of soot.

Traffic Officer Wood witnessed the incident. McCarty was charged with permitting an automobile to remain unattended with the motor running. Other offenders of traffic laws the past week were reported by Officers Murray and Wood as follows: W. L. Hanson, Portland, speeding; P. Thomas, Hood River, permitting minor to drive; Walther-Williams, The Dalles, speeding 26 miles; J. E. Elkar and A. M. Ferguson, both of Pendleton, speed 50 miles; H. F. Madden, Portland, speeding 36 miles.

A jury in the case of C. H. Bostwick, driver for a motor bus company operating between here and Portland, returned a verdict of guilty last week of the court of Judge Onthank. A fine of \$25 was assessed. The defense represented by J. J. Fitzgerald, attempted to show that traffic officers are especially harsh with motor bus drivers. District Attorney Baker represented the state.

EDWARD LINGREN IS COLUMBIA VICTIM

Edward Z. Lingren, aged 30 years and native of North Dakota, succumbed Sunday afternoon when he stepped into a deep hole while swimming on a beach of the Columbia river just east of Wyeth. Members of a family picnic party were on the beach when Mr. Lingren was heard to call for help. His body sank immediately. This occurred about 2:30. At 6:30 the body was recovered by means of a grappling hook dragged over the deep pool.

FRANZ PRAISES B. C. FOR HER COURTESIES

While the motorist from the states entering Canada has to conform to certain rules of road laws, according to E. A. Franz, just back with Mrs. Franz from a trip to Victoria, Vancouver and other Canadian points, he is impressed as soon as he crosses the border by the courtesies shown by officials and the general public.

"Motorists in Canada," says Mr. Franz, "get a reception that they will not soon forget. They treat you fine over there, and they are drawing crowds of Americans. I saw cars from every state, I believe."

"We went to Seattle and thence to Port Angeles, ferrying over to Victoria. We motored north on Vancouver Island to Nanaimo. This Vancouver Island country is about as beautiful as any I have ever seen. From Nanaimo we took a steamer to Vancouver. From the latter point we spent several days motoring in various directions."

"While the region about Vancouver is very delightful, because of the numerous fingers of the Sound and the forested ravines, I do not think it the equal of our own Columbia Gorge. The English laurel, filling all the woods there with its vivid green is appealing."

"While we were at Victoria the races were on. We attended on Ladies Day. They were all there, too, from the society belles to the washerwomen, and I sincerely believe that everylast one of them laid a bet. Betting on the races is permitted there. Lines of women surged around every bookmaker's booth."

Mr. and Mrs. Franz, who were accompanied on the Canadian tour by Mr. and Mrs. G. G. Jennings of Seattle, returned by way of Westminister and Blaine, Wash. While we were getting our clearance papers all straightened out at the Blaine border crossing," says Mr. Franz, "a car drove up behind us. The driver noted our Oregon license. 'Oh yes,' he cried, 'you have to come over to Washington to get some good roads, don't you?' It kind of miffed me, and I began to tell him about the Columbia River Highway. He replied that he had heard a good deal of that road and was certainly going to come over soon to see it. Then he introduced himself to me as Samuel Hill. I recognized him at once and immediately called him a big bluffer. He roared his Sam Hill laugh and we enjoyed the incident."

TRANSFERS OF REAL ESTATE

(By Hood River Abstract & Inv. Co.) Chas. F. Batchelder to C. D. Hinrichs, tract 60 ft by 200 ft in blk 7 in Riverside Park Add. Fred L. Rose and wife to county, right of way for road purposes, Mt. Mrs. Schetky to Sail for Orient

Mrs. G. L. Schetky, who with her little daughter has been here spending the summer with her mother, Mrs. Nancy McDonald, will leave next Tuesday for San Francisco, where on September 5 she and her daughter will sail aboard a United States transport for Shanghai to join Lieutenant Schetky who is now stationed with the Oriental division of the navy. Lieutenant Schetky, who was formerly stationed at San Francisco aboard the U. S. S. Boston, was transferred to the Orient last spring. He has been at Vladivostok the past several months aboard the U. S. S. New Orleans.

"We expect to be at Shanghai for two or three months," says Mrs. Schetky, "and then we will be sent to Manila for a longer stay."

Hunger, the Best Sauce

Sauce is used to create an appetite or relish for the food. The right way is to look to your digestion. When you have good digestion you are certain to relish your food. Chamberlain's Tablets improve the digestion, create a healthy appetite and cause a gentle movement of the bowels. Will saw your wood anywhere in city. Andrews & Sutherland. Tel. 1771, 2117

Apple Harvest IS NEAR! Are you prepared to take proper care of your crop? Let us help you with the IDEAL GRADER. Our grader has stood the test of six years of actual usage by growers. Constant improvements have been made each year. They have grown more popular each year, and not only in our own Northwestern districts but apple growing communities of foreign countries have ordered them. It will pay you to investigate the 1921 IDEAL GRADER. It has numerous attractive new features. It can be adjusted while actual sizing is in operation. Two little screws do the work. Our new sorting table is worth your observation. The harvest is near, and growers should place their orders at once. We can also supply you with Bryant Clamp Trucks and Standard Roller Conveyors. Ideal Fruit and Nursery Co. Tel. 5832

SINNOTT CALLS FOR EXAMINATIONS

Congressman Nick Sinnott will make his 1922 appointments to the Naval Academy at Annapolis and the Military Academy at West Point by means of a competitive examination. This examination will be held for Mr. Sinnott by the U. S. Civil Service Commission on October 29, 1921, in Baker, Bend, La Grande, Klamath Falls, Ontario, Pendleton and The Dalles. Appointments will be made by the congressman according to grades made by the candidates taking the examination, as reported to him by the examiners of the Civil Service Commission. The Second District of Oregon will have three vacancies at the Naval Academy, three principalships and nine alternateships; and one principalship and two alternateships at the Military Academy during 1922. The official examinations to Annapolis are held during February and April, 1922, and for West Point March 7, 1922. Mr. Sinnott has set the date for the competitive examinations far ahead in order that those successful therein may have plenty of time to prepare for the official examinations. Any young man of the required age who is a bona fide resident of the Second District of Oregon is eligible to take the examination. Full particulars regarding same may be had by writing to Hon. N. J. Sinnott, Room 347 House of Representatives, Washington, D. C. Highest cash price paid for your used furniture, stoves and rugs. Call McClain at E. A. Franz Co.

WATER MASTER'S DUTIES ARE BROAD

The duties of water master, which office is now filled in this county by A. C. Staten, are very broad. The officer, appointed by the state engineer in collaboration with the county court, operates under authority of the state engineer. He regulates distribution of waters of a stream among different irrigation concerns. He is authorized to prevent waste. In case of apprehension of parties who are guilty of violating water laws, the water master has power of arresting them. Regulation of ditches and reservoirs are in his hands. He can require rotation of waters, in order to secure a more effective use of an irrigation system.

Dust Traps Tire Thieves

Traffic Officer Murray believes he will apprehend the thieves who entered the garages of Chas. S. Bove and T. Sato, of the Upper Valley, recently, stealing extra tires and accessories, through finger prints left on the rear of Mr. Bove's machine. A heavy film of dust covered the polished body, and the print of the thief's entire palm was left perfectly. Mr. Bove drove his automobile here and photographs were made of the finger prints by Fred Donnerberg.
