Odell High School Notes

(Marie Fletcher)

Assembly will be held this week with the junior class in charge of the program.

The Parent-Teacher Association will hold its regular meeting Friday.

A St. Patrick's party will be given for the debaters March 17 with the student body in charge.

The student body is looking over samples of plays. They will give a play some time in April.

The final triangle of this district of the Oregon High School Debating League was held in The Dalles between the high schools of Prineville, Odell and Wasco Monday afternoon and evening.

One series was held at 3 p. m. and the other at 7 p. m. The series of contests was won by Prineville, with Odell high school in second place. The ill treatment and lack of courtesy to the Odell speakers in the afternoon series on the part of the student body of The Dalles high school, a supposedly neutral school, may form the basis for a protest of the afternoon series by Odell high school. Odell should be proud of her debate team, for had they not been hooded and jeered and otherwise ill treated they would have carried home the honors of the contest.

In the face of this treatment each debater stood his ground and demonstrated the very best of ability. However, it is better to lose by playing fair than to win through other means.

PINE GROVE

V. Winchell, who was ill with flu at Dr. McVay's, returned home last week.

Miss Jessie Turney returned from Bend last Friday.

A. was asked to cooperate in giving the dance and the support of the community is requested in making the party enjoyable affair. Formal announcement of the dance will be made soon.

TROUT LAKE

At the entertainment and social at the church on the evening of February 22, Rev. Stillman, of White Salmon, gave a very interesting talk largely upon the early history of the country, and defining the principles the American Legion stands for. The part furnished by the school children showed a great deal of study and drilling. Martha and George Washington looked and acted their parts well. Lunch was served by the ladies and about \$21 was added to the funds of the Ladies' Aid.

The Trout Lake Holstein-Friesian Association balanced on the corners and swung their partners at Frodo's hall Saturday night until about time to go home to milk. Lunch was served, followed by a short program. Wm.

Elmer, president of the association, gave a short talk on the aims and purposes of the organization.

Wm. Coate has been confined to the house with a cold, as have Rev. Reed, and quite a number of others lately.

We are glad to hear that Mrs. Souther is about again. Miss Breedlove, who has been staying a short time with her, returned to her home in White Salmon Monday.

WHITE SALMON

(From the Enterprise)

Ira E. Hyde, local apple broker, who has shipped about 100 carloads of apples to Steinhart & Kelly, New York this season, leaves tomorrow for New York City to look after shipments of apples to that firm. He expects to be away about three weeks, and will stop near Chicago to visit his mother.

At Trout Lake, Thursday, February 23, a well attended road meeting was held in the church. About 75 taxpayers were present to consider different methods of road improvement, purposely to cooperate with Forestry service in their offer of assistance of \$40,000 to \$50,000, conditional on decision from Washington, D. C.

The creamery plant at Trout Lake has been purchased by a number of White Salmon business men who expect to resume operations of the once famous butter factory in the very near future. Plans have not yet been fully worked out but no time is to be lost according to Geo. A. Read, one of the new owners of the plant.

Large quantities of ice have been stored in the creamery ice house the past week.

About three miles of wire fence will have to be rebuilt by A. E. Glader around his orchards this spring resulting from damage by the heavy snows of the past three months. Small trees and berry bushes also suffered on Burdoin mountain, says Mr. Glader, who was in town last Saturday.

Mr. Glader states that he has decided to grow larger apples in his orchard as he is convinced that it will pay greater returns than the usual large tonnage of smaller sizes. He also believes in storing fruit here rather than consigning and rolling fruit early in the season to be held in eastern storage houses until sold. He not only believes that the fruit will keep better here but that much money would be saved by the growers. Plans are now under way for the erection of a frost-proof storage building on his orchards.

State Traffic Officer Salzman, whose headquarters will be The Dalles the coming motoring season, was here Monday to discuss traffic problems with local automobile men. He was guest of honor at a luncheon at the Hotel Oregon attended by 15 motor car dealers and citizens.

Mr. Salzman, while here, advanced a new theory of motor car licensing. He declared that license plates, the cost of which should not exceed \$10, should be sold for use during the life of the car. He declared that these plates should bear the specifications of the make, its motor and make. Transfers of automobiles, he declared, should be made by deed, similar to that passing in real estate transfers. Mr. Salzman would have users of automobiles pay a heavy tax, however, on their consumption of gasoline.
