**J. F. THOMPSON**  
Parkdale, Ore.

### Many See Ice Cuts

The ice cuts of the Columbia River Highway have been a main scenic attraction of the mid-Columbia the past week, and the deep canyons of solid ice remain practically intact. The rains that have prevailed the past few days have had practically no appreciable effect in lessening the size. If anything the precipitation has further

congealed the snow and sleet deposits. Numerous local motorists have visited the ice gorges, and bus lines report that their business has been increased by sightseers from here traveling down as far as Multnomah Falls.

Twelve fine one-acre lots in a tract at the west edge of town on May Street. City Area. m23

## RESULTS OF PUBLIC TRUCK WEIGHINGS

(By Geo. C. Gladden)

Ever since the governor's special committee submitted a proposition to the special session of the legislature in December and this proposition, with a few changes, was incorporated into a state law, there has been much confusion and misunderstanding resulting in much criticism of the traffic department of the state because of certain arrests made for the violation of that law.

Most of the confusion arose out of the uncertainty as to weights of certain makes of trucks, especially dump trucks.

The traffic division of the police department of the city of Portland acting under the department of public works held on March 9 on the O. W. R. & N. scales, a public weighing of the better known dump jobs to determine just what 3 1/2-ton truck would be able to comply with the law and still carry four yards of gravel, and also what trucks, even though they put on the maximum tire width, manufactured, would be confined to the excessive weight of a 3 1/2-yard load.

The official weights as obtained by the officers are as follows:

Riker, 3 1/2-ton, 4-yard body, 12 inches width of tires, 16,180 pounds load on rear wheels and 9,980 pounds light weight; Mack 3 1/2-ton, 4-yard body, 14 inches width of tires, 15,910 pounds load on rear wheels and 6,250 pounds light weight; Pierce 5-ton, 4-yard body, 12 inches width of tires, 16,490 pounds load on rear wheels and 6,420 pounds light weight; White 5-ton, 4-yard body, 14 inches width of tires, 16,920 pounds weight on rear wheels and 5,430 pounds light weight; Packard 4-ton, 4-yard body, 12 inches width of tires, 15,210 pounds weight on rear wheels and 5,790 pounds light weight; Sterling 3 1/2-ton, 4-yard body, 12 inches width of tires, 17,170 pounds weight on rear wheels and 6,580 pounds light weight.

The results of this public weighing will be extremely interesting to the various truck operators throughout the state as well as the city, as it will give them a different idea as to what they can carry on the different make of trucks.

### Shrine Club Elects

The Hood River Shrine club at its annual meeting Monday night named officers for the ensuing year as follows: Geo. H. McMullin, president; Dr. H. D. W. Pineo, vice president; H. O. Kresse, secretary, and Harold Hershner, treasurer. A luncheon at The Pleasant followed the meeting. The club plans social activities the coming summer.

We have a complete line of these products at our show room and cordially invite your inspection. Watch for our advertising date of demonstration of the famous Samson Tractor to be held soon. Yours for better service.

**WILLIAMS-KENAN MOTOR CO.**

## BOWLING NEWS

Hood River women continued their unbroken string of bowling victories by a second win over Spokane women in their return telegraph match last Wednesday. The local ladies scored 2249 to Spokane's 2312, thereby winning by the narrow margin of 87 pins. In the first match, a week previous, the Hood Riverites won, 2172 to 2125. This makes four straight victories for the White Diamonds, as the local women's team is known. Individual totals were as follows: Mrs. DeWitt, 490; Mrs. Kingdon, 425; Mrs. Burke, 504; Mrs. House, 451; Mrs. Mellon, 489; Mrs. Mortimer, 378; Mrs. Childs, 361; Mrs. Smith, 371. Scores of the high five each game, only, were counted.

The White Diamonds have challenged any team of the Mercantile League to a match, under a handicap of 25 pins per woman, per game.

In the City League match rolled here Sunday afternoon, the Blue Diamonds were beaten out by a narrow margin, dropping the first and last games by a close score, to the Zellerbach boys. The match was the closest and most interesting yet shot here, no game being settled till the last frame. For the locals, Green, Annala, and House rolled well. Detailed scores:

Hood River—			
House	217	204	225
Annala	201	158	201
Green	197	204	168
Shay	147	146	172
Goodwin	152	195	176
Totals	914	908	943
Zellerbach—			
Geary	186	154	186
Monson	170	178	224
Elsasser	190	193	152
Ever	204	145	238
Perry	190	153	201
Totals	940	863	1001

This game drops Hood River into fourth place, but only by a one game margin, and with 12 more games to shoot, nine home, the locals figure to get back up in the standing.

Sunday the probable pennant winners of the year, the Hadley & Silver team, will be guests of the Hood River team on the local alleys. An added attraction will be a special match between the M. J. I. mercantile team and a local team, probably from the American Legion boys. This match will be rolled simultaneously with the league game.

Individual averages of local men in the City League, including Sunday's games are: Goodwin, 190; House, 184; Shay, 179; Annala, 176; Green, 176.

## GUN CLUB NEWS

In spite of the fact that last Sunday was a rainy day, a number of the local shooters came out for a try at the elusive tar hawks, and to compete in the first semi-monthly prize shoot. A good crowd of interested spectators encouraged the boys to do their best, which resulted in the following scores for the three classes:

Class A—Shooting at 25 birds, Vogt broke 23, percentage 92; Fred Rand, 23, 92; Dumbolton, 22, 88; Marshall, 22, 88; Frank, 21, 84; Wooley, 21, 84; Loughery, 21, 84; Davoser, 21, 84; Button, 20, 80; Foreman, 19, 76.

Class B—25 birds, Haviland, 19, 76; Alexander, 18, 72; Murphy, 15, 60; Poe, 15, 60; Bishop, 15, 60; Creson, 11, 44; Peters, 9, 36.

Class C—25 birds, Wittenberg, 11, 44; D. E. Rand, 9, 36; C. Rand, 7, 28; Boyd, 3, 12; Howard, 2, 8.

In the contest for the merchandise prizes in Class C, given for last Sunday only, Hal Wittenberg, the youngest member of the club, won the first prize, a \$2 jack knife donated by E. A. Franz Co., and D. E. Rand was winner of the second prize, a pair of gloves donated by J. G. Vogt. The Vogt championship belt was captured from Foreman by Fred Rand, who won it with a straight run of 19 birds.

Next Sunday the ten high men of the club will meet ten men from the McMillinville Rod & Gun club in a shooting match at the local traps, the losing team to pay expenses. This promises to be a case of "dog eat dog," and is more than likely to be an advertising match.

### Heavy Demand for Closed Cars

An unusual inquiry is being made as to Ford closed cars, according to Carroll Mansfield, of the Dickson Motor Co. It is predicted that of the total number of Ford cars sold this year nearly half will be closed cars. Folks readily see the advantage of the closed car over the open car and the difference in price is only small. Many people have the mistaken idea, according to Dickson Motor Co., that the closed car is not the car for summer weather. However, ventilation is more adequate in the closed than in the open models inasmuch as in addition to other ventilating features the bottom half of the windshield is adjustable, whereas those of the touring cars and roadsters are stationary.

## RILEY AROUSES THE FOLK OF CINCINNATI

Frank Branch Riley, who recently delivered his lecture on the lure of the northwest at Cincinnati, left with the people there an irresistible desire to see the scenic wonderland, according to a letter just received by Judge A. J. Derby from his sister, Mrs. E. F. Allison, of Bellamy, Ala. Mrs. Allison enclosed a letter she had just received from Miss Luara F. Leving, who had heard Mr. Riley when he addressed the Cincinnati Business Women's Club and the Junior Chamber of Commerce. Miss Leving declares that the lecture was a real treat. She states that the chairman of the meeting announced that the 1923 National Federation Convention would be held in Portland and that she felt sure that all would determine to make the trip to the northwest when Mr. Riley had finished his talk.

"It made me resolve to go out there some day," said Miss Leving. "His lecture stirred up Cincinnati. Mr. Riley is a witty Irishman, very eloquent and magnetic. His pictures of forests, lakes and great highways, cities and mountains are wonderful."

### Card of Thanks

We wish to express our sincere thanks to the many friends and neighbors for the kind sympathy, services, and floral offerings, extended during the sickness, death and burial of our beloved husband and father.

Mrs. W. H. Hicks and Children.

# TRASH! TRASH!

It will soon be time to clean up the Winter's accumulation of ashes and tin cans, etc.

We make a specialty of this kind of work. All calls will be promptly attended to.

We also do Moving, Light Hauling and Baggage Transportation.

### Dr. Diamond Here

Dr. Lora H. Diamond, field manager and organizer of the Child Conservation League of America, has arrived here with plans to form local mothers into circles for the study and betterment of child life. Dr. Diamond states that her organization is active in many

states and cities. Nurses, she says, have been appointed in instances to visit the poor and conduct campaigns on sanitation and aid in the care of children. The league, it is stated, endeavors to furnish not only moral training, but includes in its activities practical features.

# IT'S HERE—SPRING!

And now you cannot afford to miss a day or hour. Everything's going to pile up and some things will be neglected if careful plans are not laid and preparations made.

## HOW ABOUT GARDEN TOOLS?

Make a list of what you need. We have them all ready for you at new lower prices.

Good Hoe	75c	Trowels	10c up

**2 more-**  
land cleared per dollar

FOR the cost of the dynamite which cleared one acre of your stump land in 1921, you can now buy enough to clear an acre and a half.

"Pacific Stumping," the new Du Pont dynamite, makes this possible. It will do the work of any standard stumping powder, stick for stick. But you get 1/2 more sticks of Pacific Stumping per dollar.

"Pacific Stumping" is packed in boxes of 130 sticks; standard stumping powders come in boxes of 85 sticks. Pacific Stumping costs only 50 cents more per box. This makes it actually 2 1/2 cents (30%) less per stick than any other stumping powder.

Pacific Stumping is non-freezing even in below-zero weather; and you won't get a headache from using it. Come in the next time you are near our store and let us estimate the cost of your blasting work. We can show you the way to cut your dynamite costs nearly one-half.
