At a dinner party given by Dean Richards, of Willamette University, the engagement of Leila Ruby and Ernest Quisenberry and Martha Ferguson and Archie McKeown was announced.

Wednesday night an experience social was held at the church. Proceeds were given to the song book fund.

Tuesday men of the church put rock on the street extending east and west just north of the church property. The county donated rock and the men their time and labor.

Next church night service will be held Wednesday evening June 7. Everybody invited to come and bring something for pot luck supper.

Regular announcements for church services next Sunday.

The choir held its regular practice Wednesday evening of last week, followed by a social hour in honor of the Misses Ruth Shaffer, Mary Rogers, Florence Mizner and Margaret Fletcher.

These young ladies are members of the choir and have taught in the schools of our community the past year. They have been faithful members of the choir. Their services have been very helpful and greatly appreciated. Light refreshments of ice cream and cake were served.

Harold Olsen was born in Denmark, April 4, 1894. He came to Wisconsin in December, 1920, and there contracted tuberculosis, which was followed by tuberculosis. He came to the home of his sister, Mrs. Stig Hansen, July 4, 1921. He passed away Thursday, May 25, 1922. Funeral services were held from Anderson's chapel, Hood River, Sunday afternoon, Rev. W. S. Gleiser officiating.

Mr. and Mrs. Hansen wish to thank their friends for the flowers, the music and the many kindnesses shown them during the illness and after the death of their brother.

Certified Seed Disappointing

By Gordon G. Brown  
Just recently 20 sacks of certified Netted Gem seed have been shipped into the Upper Valley from Redmond. These are very disappointing. Those which Gordon Brown inspected at the place of C. H. Thomas, of Trout Creek, do not conform by a long way to the standard of perfection required for certification. One of the nine sacks is a little short of actual culls in that they are knotty and warty, ill shaped, not altogether free from disease. The writer had occasion to make measurements of the length of the best potatoe seeds. Representative figures are as follows: 7 1/2, 8, 9, 4 1/2, 7 1/2, 7 1/2, 2 1/2, etc. This matter is being taken up with the county agent at Redmond to see if an adjustment cannot be made.

The following standard of eligibility to certification accompanies each sack: 1. Freedom from varietal mixtures. 2. Conformity to desirable type, uniform, symmetrical, sound. 3. Freedom from wart, powdery scab, rot, and virus, and practically free from late blight. 4. Freedom from serious infection of common scab, rhizoctonia, wilt and other important tuber-borne diseases. A certificate of seed potato inspection in conformity with the above standards has been issued by the Oregon Agricultural College to the person whose name appears on the reverse side of this tag.

In view of the almost universal presence of at least small amount of rhizoctonia even on carefully grown potato tubers, it is recommended that before planting these potatoes be treated with corrosive sublimate, four ounces to 30 gallons of water for 1 1/2 to 2 hours. It is recommended these potatoes be planted on new land or on land that has not grown potatoes for at least three years. The work and responsibility of the Oregon Agricultural College ends with the completion of the inspections.

RECOVERS JUST AS HE IS ABOUT TO GIVE UP JOB

Portland Man Says He Often Had to Lay Off Days At a Time Until Tanlac Entirely Overcame His Very Alarming Stomach Trouble.

"I was so bad off I almost gave up my job, but I feel just fine since taking Tanlac," said Andrew G. Kregness, 1140 E. 11th St., North, Portland, Ore.

"For over two years I suffered dreadfully from stomach trouble. Everything I ate would sour. I bloated terribly with gas and there was a burning just like a coal of fire in my stomach. My head ached fit to burst and I got so dizzy it was all I could do to keep from falling. I also had pains across my back so bad I could hardly stoop over. My sleep did me no good and I always got up with an awful bad taste in my mouth and feeling worse than when I went to bed.

"Six bottles of Tanlac completely rid me of my troubles. I now eat anything, never have a headache, have gained several pounds in weight and never lose a day from work. Tanlac sure is a great medicine."

Tanlac is sold by all good druggists.

WHITE SALMON

The Northwestern Electric Co. is erecting a power line to the Underwood irrigation system where a big pump will lift water into the ditches of the system.

Governor Hart, State Treasurer Babcock, State Auditor Clausen and Supervisor of Highways Allen were White Salmon visitors Wednesday for an hour and a half, taking luncheon in town with a delegation of local business men. The governor and his party are inspecting the North Bank Highway and looking over the ground where contracts are to be let within a few weeks.

M. E. Cuffell, brother-in-law of Mrs. Herbert Williams, arrived from Minneapolis Wednesday evening. Mr. Cuffell has bought the Biron ranch, which he will improve. Mrs. Cuffell will come to White Salmon to spend the summer as soon as school closes for the summer vacation.

Mrs. Nettie H. Mann sold her fine country home and orchard at Mann's corner in the Pleasant View district this week to John Thompson, of Portland, who will take possession on July 1st. Mr. Thompson is well known in the White Salmon valley, having erected the Husum power plant now owned by the Pacific Power & Light Co. Mrs. Mann and daughter will move to Portland.

The Laurie ranch adjoining the Mann place as recently purchased by Mr. and Mrs. Millikin, parents of Mrs. Floyd Turk, of Husum.

You Save Big Repair Costs by painting now

YOU can't escape. Either you paint your home when it needs it or you spend from five to ten times as much rebuilding what has rotted away for lack of paint protection.

Painting costs so little compared to the service of saving it renders, that failure to paint is utter extravagance.

Painting is economy and an additional economy is found in using the best paint. It spreads easily—saves labor cost. It covers more area per gallon than "cheap" paint.

But most important, the best paint serves five or more years longer than "cheap" paint. It assures better results at a lower cost in the long run. We have been making the best

paints for 73 years—to meet the weather conditions in the West. The best materials—PIONEER WHITE LEAD, pure linseed oil, pure zinc, and pure colors—are combined in Fuller's Paints in scientifically exact proportions with long-time skill.

Has Dust Affected Adams?

The high east winds of the past several days, which apparently have blown for a long distance over the arid section to the east of here, for they have saturated the air with a thick dust, have changed the coloring of the east side of Mount Adams, at least local folk declare that the snowfields, formerly brilliantly white, have become a light ochre color. The peak of Mount Hood, apparently not in the lane of the dust laden currents, does not seem to have been affected.

Acme Quality Paint Cheaper in the long run. Of the 57 varieties of false economy cheap paint stands near the top of the list. Acme Quality because of its ultra-smoothness of pigment and purest linseed oil, covers more surface, penetrates deeper in priming coats and dries bright and elastic. You can buy cheaper paint, with substitutes for lead and oil. The labor of applying will be the same or more and in two years time you'll have the job to do over again. Acme Quality will cost but a few dollars more for painting your house or barn. If it cost double it would still be Cheaper in the long run. E. A. FRANZ CO.

BUTLER BANKING COMPANY IF WINTER COMES. There is no "if" about winter or old age. Both of them come inevitably. It is a strange fact of human nature that most of us will deliberately do the things we ought not to do and leave undone the things we ought to do. Why, for example, would anyone go on year after year without a Savings Account when a dollar a day at 4 per cent would in twenty years amount to \$11,300? Yet there are a lot of people who could save this much with no serious inconvenience and a lot of others who should do it even though it required careful planning. We have no thought that any considerable number of people who read this Ad will rush in to open that long deferred account, but we know full well that those who do will in the years to come have just that much advantage over those who don't.
