

Lake County Examiner

HAS THE CIRCULATION—PRINTS THE NEWS—REACHES THE PEOPLE

THE EXAMINER IS THE OFFICIAL PAPER OF LAKE COUNTY

VOL. XXXIV.

LAKEVIEW, LAKE COUNTY, OREGON, MAY 22, 1913.

NO. 21

WORK IS STARTED ON NEW CREAMERY

Mr. Troest Returns From San Francisco After Buying Machinery

H. A. Troest, who is to establish the Lakeview Creamery returned Monday evening from San Francisco where he went several days ago to purchase the machinery for his plant. Mrs. Troest accompanied her husband and they will take up their permanent residence in Lakeview.

Mr. Troest states that he bought an efficient plant much more so, in fact than he first contemplated, owing to the bright prospects and possibilities of such a business here. Yesterday morning workmen started on the erection of a building, with J. H. Connell in charge of the work. He will also have a residence built on the same lots. The creamery building will be 24 x 40 feet with a side addition which he thinks will afford ample room for the present time, at least. The building will probably be completed in three weeks, and the machinery being ready for shipment at any time Mr. Troest expects to receive cream about July 1st.

He did not buy any dairy stock, but with the number of cows now in the valley, and the prospects of more being imported from California, there is nothing to hinder the creamery from starting off with a good business.

GRADUATING CLASS RENDER PROGRAM

Entertainment Reflects Credit Upon Work Being Accomplished

Those fortunate enough to be present at the High School Auditorium last Friday evening were highly entertained by the excellence of the orations of the graduating class. The selections of the High School Orchestra were also a pleasing feature of the entertainment, and the entire program was much of a surprise to all present. All of the young ladies and gentlemen acquitted themselves in a most creditable manner, which reflected much credit upon the instructors and the School Board as well, as it indicated much conscientious work on the part of all.

The auditorium was well filled by patrons of the school, and all were proud of the fact that Lakeview has an educational institution capable of such work. Everything passed off most harmoniously, there being no hitch or jar whatever. The very able manner in which the program was rendered certainly indicates careful work on the part of both student and instructor, and should have a tendency to largely increase the attendance during the future years.

The program follows:
"Angella Waltz," High School Orchestra.
"The New Revenue," Fred Cronemiller, Jr.

"What a College Education Should Give," Lura Snyder.

"A Privilege and a Duty," Kate Kohart.

"Faust Waltz" Piano Duet, Miss Ruth and Floy Bernard.

"Forest Preservation," Willard Isenhardt.

"Life's Ocean," Edith Ogle.

"The Peace Movement," Margie Bernard.

"Authors," Vocal Solo, Leigh Monson.

"Mountains Peaks," James Burgess.

"Algoins," High School Orchestra.

Chautauqua Circle

The Lakeview Chautauqua Circle will meet at the home of Mrs. Harry Bailey next Monday evening at 7:30 o'clock. Program: Roll call; current events. General discussion of the last six chapters of "Home Life in Germany." Mrs. C. A. Watson will address the graduating class, the members who will graduate having finished the four years course of reading are: Mrs. J. D. Venator, Mrs. A. Bieber and Miss Gertrude Vernon.

All Chautauqua members are cordially invited to attend this meeting.

English Ambassador

Walter H. Page, editor of the World's Work, and President of the big publishing house of Doubleday, Page & Co. is our new Ambassador to England. Page is about 58 years old, and has never held office before, with the exception of being one of the Roosevelt Country Life Commission, with no pay. He is from North Carolina and has been in the newspaper business all his life.

COMMISSION WILL INVESTIGATE DEPOT

Complaints From New Pine Creek Will Be Heard

Salem, Ore., May 20. (Special to the Examiner) The State Railroad Commission will, on Tuesday, May 27, be at New Pine Creek for the purpose of hearing complaints recently filed, asking for the reopening of the depot at that place.

J. A. Ensminger was the first to file a complaint in this connection, followed a few weeks ago by Mayor E. Keller in behalf of the town of New Pine Creek. Both of these matters will be heard at the date named, both relating to the same matters.

In each case it is alleged that the Nevada-California-Oregon railway is discriminating against the citizens of New Pine Creek, an Oregon town, by the removal of depot facilities to Fairport, about half a mile further south, on the California side of the line. In the complaint of Mayor Keller it is alleged that officials of the railroad are financially interested in the townsite at Fairport and have conspired to give it unfair advantage. The railroad answer makes no direct reply to this charge, merely declaring that such allegations would be stricken from the complaint.

NUMEROUS STUNTS FOR CELEBRATION

Fourth of July Committees Promise Interesting Attractions

There will be nothing lacking in the way of entertainment for those who attend the two-days celebration of the Fourth at Lakeview. The various committees are now hard at work, and the many stunts they are planning will surely prove a record-breaker for celebrations in Lake County. The parades will prove interesting, while the many prizes to be offered will bring out numerous contestants in every class. There will be all kinds of races, from the ordinary sack race to saddlehorse races, while the parade of the Plug Uglies will be a marked feature when it comes to fun. Numerous prominent citizens will be caricatured, and it sure promises to be a hot number.

The big free barbecue is another feature that will be greatly appreciated, and taken as a whole the celebration promises to eclipse any previous effort put forth in the proper observance of our natal day. Everything is to be free, and the economically inclined can celebrate at Lakeview without money and without price. The only exception is the grand ball on the evening of the Fourth, which is to be given under the auspices of the Antlers Club, which also has charge of the celebration in general.

The music will also be a pleasing feature. Darnell's Band having been engaged for the occasion. The band has been practicing faithfully for sometime past, and are becoming very proficient in "tooting their horns." This fact is attested by the splendid music rendered at their concerts in the Court House Park.

Alturas Plaindealer: The latest from the men wounded in the Tule Lake fight is to the effect that all, including the Indian, are getting along nicely, and are now considered out of danger. The wounded Indian will soon be well enough to be moved to Susanville where he will be tried. The Indians have retained the law firm of Jamison & Wylie to conduct their defense and the probabilities are it will be a closely contested fight, and long drawn out.

WORK WILL BE STARTED

WILL COMPLETE SOUTH DREWS CANAL THIS YEAR

J. F. Hanson Receives Orders to Begin Construction and Work Will Be Moving By June 1st--Water For Next Year's Crops

Dirt is soon to fly on the South Drews Canal. Such is the official information that comes from G. W. Rice, chief engineer of the Goose Lake Valley Irrigation Company.

J. F. Hanson of the Hall Construction Co. was awarded the contract some time ago for excavation of that part of the work, but was not until last week instructed to begin. He is now making all preparations in the way of securing crews and buying feed and supplies to establish his construction camp. He expects to start work on the upper end of the canal and will probably be in all readiness to begin by June 1st. Inasmuch as water cannot be made available for this year, Mr. Hanson will devote the entire season to digging the canal, but gives positive assurance that it will be in readiness for carrying water for next season's crops.

There are about 14 miles of the South ditch, which leads from the mouth of Drews canyon to the state line. While the right of way over this division has nearly all been adjusted, there remains some little portions which probably have to be settled by condemnation proceedings, and hence work in no way will be retarded from this standpoint. The lines and grades of the canal will be resurveyed, and Engineer Fraim will be started in a few days on this portion of the work as soon as he returns from the company's surveying camp in the Chewaucan valley.

It will require about 1500 feet of fluming at the mouth of Drews canyon

to divert water from the creek to South Drews Canal. The lumber is now being sawed for the purpose of finishing all fluming in the canyon, and every proportion is being shaped to complete the entire project this year. The Drews dam has reached the point where there are but the finishing touches to be added, it being completed within less than four feet of the top.

E. S. Berney of the Berney Construction Company, building the dam, will soon start the pile driver on the fluming at Cottonwood. He is now in Fallon, Nev., and will probably bring up some carpenters on his return to complete the flume in the canyon. The contract that was let to saw 500,000 feet of lumber will provide sufficient material to complete all fluming in the canyon and furnish dimension stuff for fluming in the valley. The irrigation Company is now negotiating as to whether they will use wood or steel flumes for this part of the work, and in the event such method is adopted, practically enough lumber will be on hand for the entire project.

Absolute assurances of water for the West Side next year will be hailed with much delight by every citizen of the valley. It means the opening of a new era of development and an influx of settlers. No better news for the country can be given out.

The Goose Lake Valley Irrigation Company will have one of the finest projects in the country when completed and the 50,000 acres of land that it taps will open one of the richest and most promising farming sections in the entire west.

LOCAL RANCHERS GET DAIRY FEVER

More Cows Likely to be Shipped in From California

Since actual work has commenced on the Lakeview Creamery several local people are getting the dairy fever, among them being Walter Paxton, Henry Leehman and F. O. Bunting. It is reported that some of these besides other local people will go to California and take advantage of the low price of dairy stock in that section and import some good strains of cattle.

J. F. Hanson, who shipped in 36 head of Holsteins, informs the Examiner that he paid \$12 for calves, \$22 for yearlings, and \$55 for cows, or an average of about five cents a pound. He also stated that it cost him about \$5 per head to have the cattle shipped in. Mr. Hanson said that he could have in all probability secured the cattle at a cheaper price had he more time while there.

These cows, Mr. Hanson said, could not be bought for \$100 a head providing the drought had not hit the valleys in our neighbor state. Some reports have reached here that dairy cows can be bought in some parts of California for \$25 per head. Those who are contemplating buying stock should investigate the matter at once as the feed is very scarce and cattle are said to be shrinking quite badly. Mr. Hanson placed his stock on pasture as soon as they arrived and they are now looking fine.

With all the green feed in this valley going to waste and cows starving in California, the opportunity is certainly great to profit by the old adage "one man's loss is another's gain."

GALE LOCATES IN KLAMATH FALLS

Judge Associates Himself With Partner in Neighbor City

Klamath Falls Herald: Judge Herbert D. Gale, until recently a superior judge in the Philippine Islands, and C. F. Stone have formed a law partnership. It is understood that the formation of this co-partnership has been in contemplation for several months. The articles of co-partnership were signed today.

Judge Gale has been closely identified with the formative history of the Philippines since American occupation. He was appointed prosecuting attorney of Manila by Governor General Taft in July 1902, which position he resigned in 1905, to enter private practice, remaining in the practice of law until October, 1909, when he was appointed to the bench by Governor General Forbes. Judge Gale remained on the bench until April 5 of this year.

Judge Gale still has interests in the Philippines, and a ranch of several hundred acres near Lakeview. The ranch was purchased last year during a vacation trip of the judge and his family. Judge Gale also owns a beautiful residence in Portland, at No. 1229 East Flanders street, where his family has resided since last summer. The Gales will remove to Klamath Falls at once for permanent residence.

Mr. Stone and Judge Gale were well acquainted in the Philippines more than 10 years ago, when the former was editor of the Manila Daily Times. Judge Gale says he got all the newspaper men of that time into the penitentiary for libel except Stone.

The Band will give a concert in the Court Yard this evening.

Boosts High Grade

The Denver Mining Record says that N. E. Coyot would soon start for High Grade. Mr. Coyot has unbounded faith in the camp, and is well satisfied with the showings made in his property this winter. Workings are down 200 feet, and the lead at that depth is all that could be wished, from the viewpoint of an expert miner. He told the Record that if High Grade was in Colorado 10,000 men would be at work.

ROBINSON BROS. ARE CONVICTED

Famous Horse Rustlers Found Guilty in Prineville Court

In the circuit court at Prineville the jury in the case against W. L. Robinson and V. M. Robinson, indicted for horse stealing, returned a verdict of guilty. The case was tried in December and the jury failed to agree.

The evidence showed that the Robinson boys brought a band of horses from Morrow county to Crook county in 1909 and kept them upon the range in the northern part of Lake County and southern part of Crook county since that year. In this band of horses it was shown were two mares answering the description of the horses involved in the case. In August last the Robinsons took a band of horses from Lake county to Bend, selling them to Calhoun and Thorp, who shipped them to Toppenish, Wash. George Russell, formerly of Tacoma, but now a prominent horseman of Crook county, got wind that in this shipment of horses were two horses owned by him and identified two of the horses in the corral at Toppenish, Wash., as his.

Dr. J. L. Lyon has received the sad news that his mother is quite seriously ill at her home in Munith, Mich.

FINE NOT GUILTY IS JURY VERDICT

Grand Jury Finishes But Court it Still In Session

Yesterday evening the grand jury finished its work for this term and was dismissed by Deputy District Attorney Farrell to reconvene at the next September term, or subject to call at any time prior. There were no public true bills returned since those mentioned last week, although there were some secret indictments reported.

Owing to a law enacted at the last legislature Lake county is to have three yearly terms of circuit court hereafter, the Fall term being changed from October to September, while the next term will be held in January and the Spring term in May, as usual.

The court is still in session but in all probability an adjournment will be had this week. The case of the state vs. Joe Fine, who was indicted on a charge of assault with intent to kill on the person of Cecil Dixon, occupied the court's attention from last Thursday until Tuesday evening of this week, when the jury returned a verdict of not guilty. Attorneys L. F. Conn and W. Lair Thompson represented the defendant, while District Attorney John Irwin conducted the prosecution.

The case of W. Z. Moss vs. Dick Guinee to recover personal property, which is probably the last jury trial of this term, was taken up today.

The civil matters that have been settled and dismissed thus far are as follows:

Pat Murphy vs. Harry Riggs, action to recover money, dismissed.

J. M. Batchelder vs. J. S. Kelsay, action to recover money, dismissed.

J. B. McNew vs. Pandango Lumber Co., to recover money, judgment allowed plaintiff.

Frank Dwamel vs. L. D. Hoy, action for money, appeal from Justice Court, dismissed.

C. W. Dent vs. Cronin, Lynch and Moss, action for money, plaintiff allowed judgment.

School District No. 24 vs. School District No. 14, to recover money, judgment allowed.

Chewaucan Mercantile Co. vs. O'Connell & O'Keefe, to recover money, Continued on page eight

WOOL BUYERS ON NO TARIFF BASIS

Reported That Growers are Offered About 14 Cents

Oregonian: The little business that is passing in the Oregon wool market now is practically on a free-wool basis. A number of clips were bought in the past few days at prices ranging from 1 1-2 and 2 cents under last year's market. Some consignments are also being made to Boston. No large quantity has been either sold or consigned, however, and it is only odd lots that are being disposed of.

The growers are not showing a general inclination to let go at this time, preferring to hold their clips for the public sales days, when the dealers believe the offerings will be on a free scale.

The same inactivity prevails in the valley. Dealers are willing to take hold at 13 1/2 and 14 cents for coarse and 16 cents for medium, but these terms are not satisfactory to farmers.

Some contracts have been placed in Idaho at prices ranging from 13 and 14 1-2 cents. Wyoming is still quiet and it is believed consignments from that state will be heavy. A few purchases are reported from Utah. In Southern Utah but little wool remains to be sold. California buyers have bought Nevada wool at 12 cents. Another Nevada clip was bought by a Boston firm at an estimated clear cost of about 50 cents landed.

GOVERNOR SIGNS ANTI-ALIEN BILL

Referendum is Threatened on New California Law

On Monday of this week Governor Hiram Johnson of California signed the alien land bill, against which Japan protests, and which the California legislature passed by an overwhelming majority over the remonstrances of President Wilson and Secretary Bryan. The act will go into effect 90 days from date, or on August 17.

Governor Johnson, after signing the bill, gave out the following statement: "I repeat what I have before said: California for the first time in its history has an anti-alien law. Any man who wishes another kind of law may consistently invoke the initiative. No man who really wishes an anti-alien law, will sign a referendum as to this law."

"If another law is sought, it may be presented by means of the initiative.

In the meantime the present law will be in operation. To tie up the present law means no law until November, 1914."

A San Francisco news dispatch, dated before Johnson signed the bill, gives out the information that as soon as news is received that the bill is signed petitions for a referendum on the law would be sent to the printer.

Secretary Bryan has already handed Ambassador Chinda the reply of the United States government to the Japanese protest against California legislation, but no part of the retort was made public.

Memorial Services

Arrangements are being made for Memorial Day to be fittingly observed in Lakeview this year. Such is the sentiment expressed by A. W. Orton, J. W. Mikei and J. D. Hughes who will take the initiative in the ceremonies.

According to the plans outlined there will be a memorial sermon, and exercises held in the Snider Opera House on Memorial Day, May 30. A parade to the cemetery will also be included, and those who have charge of arrangements request automobile owners to provide conveyance to the cemetery for the children. Mrs. C. A. Watson will have charge of receiving flowers and persons desiring to furnish these will see Mrs. Watson.

Members of the band have promised to donate their services in furnishing music for the occasion. Next week announcements of the complete program will be made in the Examiner.
