

Lake County Examiner

HAS THE CIRCULATION—PRINTS THE NEWS—REACHES THE PEOPLE

THE EXAMINER IS THE OFFICIAL PAPER OF LAKE COUNTY

VOL. XXXIV.

LAKEVIEW, LAKE COUNTY, OREGON, JUNE 26, 1913.

NO. 26

BRANDS MUST BE RECORDED OVER

Change in Law Has Been Effective Since the Third of June

A new law enacted at the last legislature of especial interest and importance to this section of the state and which became effective June 3 was the change made in the recording of brands. The amendment, as according to the 1913 session laws, reads as follows:

Sec. 5526. When a brand has been recorded in any county, no other person, company or corporation can record the same brand or brand similar thereto, except with the written consent of the owner of the brand so recorded, which written consent shall be recorded with the county clerk; and it shall be the duty of all persons, firms or corporations now having brands upon record to renew the same by oral or written request of the owner of record of said brand to the county clerk within one year from the passage of this amendment. The county clerk shall make a memorandum of said renewal with the date thereof on the margin of the record of said brand. All brands, the record of which shall not be renewed as above provided, shall be cancelled and may be appropriated and recorded by the person first applying therefor.

Filed in the office of the Secretary of State, February 26, 1913.

AUTO SPEEDER IS ASSESSED FINE

Motor Vehicle Law Will Be Enforced to the Letter Within City Limits

Last Thursday Oscar Lyon, a repair man for the garage in the north part of town, was arrested by Marshal Whorton for exceeding the speed limit. Lyon pleaded guilty and was fined twenty dollars by Recorder Wallace.

The arrest and fine are the outcome of a crusade which has been started by the city against the violations of the Motor Vehicle law. This law provides, among other things that all automobiles and motorcycles shall carry "mufflers" and that the same shall not be cut out or disconnected within the limits of any incorporated town in the state. It also fixes the rate of speed at which motor vehicles shall be driven. It will behoove all owners or operators of motor vehicles to procure a copy of this law from the secretary of state and familiarize themselves with its provisions, since the city has declared that hereafter all violations of this law will be prosecuted wherever possible.

Particular attention is to be devoted to that class of motorists who "like to hear the engine work" and open the cut for that purpose.

LAWN PRIZES TO BE AWARDED SOON

Best Lawn Will Receive \$5.00; New Lawn Will Bring \$2.50

The prizes to be given by the Ladies Civic Improvement Club for the best lawn and the best new lawn will be awarded July 1st. The committee to appoint the judges is composed of Mrs. Chas. Duvalap, Mrs. Wm. Heryford and Mrs. E. D. Everett.

The judges will be taken to see the many lawns in town, so they can fairly decide which are entitled to the prizes. The award for the best lawn is \$5, and \$2.50 for the best new lawn.

A new law which has just been signed by the Governor of California makes it necessary for all anglers over the age of 18 to pay an annual license of \$1 for the privilege of fishing in that state. This applies to residents of the state; non-residents must pay \$3 and the same for aliens.

McReynolds to Resign

Attorney General James C. McReynolds, it is said will be the first man to desert President Wilson's Cabinet. It is an open secret in Washington that the respective opinions of President Wilson and Attorney General McReynolds as to how the administration of the Department of Justice should be conducted do not gibe. A rumor from Washington hints that repeated arguments, dating since soon after the inauguration, has opened a breach that is expected to cause McReynolds to tender his resignation in a very short time.

STOCK IN STATE TO BE PROTECTED

Livestock Sanitary Board Asks Governor For Stringent Rules

The State Livestock Sanitary Board, which recently met in Salem, appointed Dr. W. H. Lytle of Pendleton as state veterinarian and ex-officio sheep inspector. He will also serve as secretary of the board, receiving a salary of \$2400 yearly. The board voted to ask Governor West to issue a proclamation to the effect that all horses and mules being shipped into the state must first be subjected to the Mallein or other test to prove their freedom from glanders; and another proclamation that all hogs being shipped into the state must be immunized by the Dorset-McBride-Niles serum.

It was decided to enforce a rule that all hotels and restaurant refuse must be cooked before being fed to hogs. This is to be done as a protection against cholera. The state veterinarian was authorized to appoint deputy veterinarians throughout the state to test animals being shipped out of the state. For this service they will be paid by the stock owners. The board will meet again in thirty days to promulgate these and other rules.

ALTURAS VISITS HUNDRED STRONG

Rain Discourages Ball Game But Basketball Is Substituted

Well Sir, old "Jupe" Pluvius seems to be opposed to Sunday baseball. At least he slopped over so much Sunday from his big water barrel that anything short of water polo was entirely out of the question. Not daunted by the fact that it was raining in California when they started, Alturas attached themselves to the rear end of the N.-C.-O. freight and came up to the Lake County metropolis over 100 strong. More rain!

Since Alturas was here it didn't seem right to send them home without giving them some kind of a beating, so some bright wit suggested basketball. The opera house was engaged, the baskets put up, the floor chalked off, a very unwilling "Jerry" Gram dragged out on the floor to officiate, and the game was on.

Alturas was badly handicapped in having neither of their guards nor Goldsmith, their extended center, to assist. They had Payne, the Alturas High School star center, with them, however, which helped immensely. In spite of the handicap Alturas went at the thing "hammer and tongs" and made it a very interesting game. Lakeview soon took the lead in point getting and forged ahead until the score stood 18 to 9 in favor of Lakeview at the end of the first half.

In the second half, Clyde Ashby took Jim Burgess' place as left guard, and the battle began anew, with the score at the end of the second half being, Lakeview, 35; Alturas, 18. For Alturas, Belli, Carmack and Payne were the chief trouble makers, while Clarence Orem proved the big point getter for Lakeview, "Bub" Dykeman, Monson and the "Flying Dutchman" each contributing pro rata. Jim Burgess was also responsible for a basket, for which act it is said that he should at least be voted a Carnegie medal. Clyde Ashby, sometimes called the "Strimp," was also accused of being a genuine sand burr as usual, and vetoed every attempt by Carmack

FOURTH OF JULY NEAR

PLANS BEING COMPLETED FOR THE BIG CELEBRATION

All Details Are Looked After, But Many Features of Program Are Withheld For Surprises --Daniel Boone Will Deliver The Oration

President of the Day—Dr. Bernard Daly.

Orator—Daniel Boone.
Reader—Herbert P. Welch.
Chaplain—Rev. George A. Crawford.
Grand Marshal—Lee Beal.

Plans already perfected for the celebration on the Fourth assure one of the most successful affairs of the kind that has ever taken place in Lakeview. Our former fellow citizen, Daniel Boone, now of New Pine Creek, has consented to deliver the oration, and he is well known as a forceful and exceedingly pleasant speaker. Dr. E. H. Smith is organizing a large chorus to furnish vocal music, while Darnell's Band is practicing regularly and will furnish plenty of patriotic and martial music. Dolph Schminck has plans for the big barbecue perfected, and it is probable that the feast will be served on the Lechmann property where there is plenty of shade for all. While the exact place for the exercises has not been decided upon, yet it is certain that it will be near the center of town, probably on the vacant lots immediately south of the Herald office. The street in front of the Court House Square is also being considered, it being proposed to use the band stand now in course of construction as the speaker's stand, the seats for the audience to be arranged in the street.

There are to be numerous features in the parade, and Col. Light and Mr. Thornton are inclined to keep many of them to themselves, planning a big surprise on the populace. There will be the usual number of floats, together with Goddess of Liberty, Angel of

Peace, Uncle Sam, representatives of the States, and like, and in addition the special features which are to come as a surprise. W. B. Snider, in charge of the auto parade, has announced prizes of \$20, \$10 and \$5 for the best decorated machines, and incidentally has placed a penalty of \$5 upon the owner of every machine in town that does not participate in the parade. There is much rivalry for the first prize, and there will no doubt be some striking novelties in the way of decorating the trouble-wagons.

While there is an effort on the part of every one to make his or her part of the big celebration the most successful, yet Lee Beal of the sports committee, thinks he has them all going. He has already planned the program, and it consists of footraces for boys and girls under 16, crawling through barrels, obstruction races, hopping races for girls, pie eating contests for boys, wheelbarrow races, three-legged race, girls jumping rope contest, slow bicycle race, fatman's race, 500-yard race for men, also a 220-yard race, high jump, broad jump, relay race, throwing baseball, a cracker-eating contest, and many other sports which will be provided by some of the Lake County college boys. There will also be saddle horse and pony races, and cash prizes will be awarded in all contests.

But "Pete" Grob is sitting back and not saving much for he is cock-sure that he has all of them "hipped" when it comes to pure unadulterated joy for the Fourth. He is in charge of the

MARKET OPENS FOR HAY

PRICE OF NINE DOLLARS AT LAKEVIEW IS OFFERED

California Man is Also Looking For Location For Swiss Families to Engage In Dairy Business--Goose Lake Valley Is Favored

M. R. Crystal of Sebastopol, Sanoma County, California, arrived in Lakeview Saturday, having come from Cedarville with Lou McCulley in the latter's car.

Mr. Crystal is in the market to buy 5000 tons of hay in this valley. He is offering \$9.00 per ton for good hay. F.O.B. Lakeview. The hay is to be shipped to California where he will dispose of it to farmers and stockmen who have been affected by the dry districts of that state. He reports that thus far he has been unable to buy any hay, but intends to remain here several weeks in looking over the country, and during that time will likely find some crops for sale. However, he states that he cannot afford to handle anything less than a thousand tons as any less amount would not justify shipping.

Mr. Crystal is also looking for a location for a number of Swiss-Italian

families for the dairying business. He states that he could interest about twenty-five families in this industry. There are a number of families, engaged in dairying on leased property in the coast counties of California, whose leases are about terminated and they are anxious to get located in a new locality. Mr. Crystal states that he will be joined here in a few days by an expert dairyman and they will spend some time in looking over various ranches with the intention of buying them for these families. He says it is also quite likely that he will purchase a place for himself.

He is very enthusiastic over the dairy business and thinks the local conditions are most favorable for such. He has spent considerable of his time in traveling over and investigating different localities in the west, and says he always finds a prosperous community where the dairying industry is chiefly followed.

Coast to Coast Road

If the Union Pacific succeeds in its plan to dissolve the Harriman merger by trading \$38,000,000 worth of its Southern Pacific holdings to the Pennsylvania railroad for \$42,000,000 of Baltimore & Ohio stock the ambition of the great financiers to effect a transcontinental railline extending from the Atlantic to the Pacific will have been realized. Such a line while it might not be under one direct operating head, would have a common control of stock, and would extend from Portland on the west to Jersey City and New York City on the east.

WOOL CONTINUES TO MOVE SLOWLY

Million and a Half Pounds Will Go Through Lakeview

While the local wool market has been somewhat quiet since the last issue of the Examiner something over 300,000 pounds have been taken since last Thursday by buyers in this field.

The following sales are reported: Harry Bailey has bought the clips belonging to Burke & O'Connor, John Branch, Pat Moynahan, Callaghan Bros., and Dan Jones. The four clips aggregate 100,000 pounds, and brought about 14 cents all around.

James Goode reports the following buys: C. B. Parker, 25,000, and John Davis of Alturas, 15,000. These prices ranged between 13 and 14 cents.

O. T. McKendree recently contracted for the James, Arthur & Lane wool, amounting to 22,000 pounds and the Rehart wool amounting to 25,000 pounds. The price paid for both clips was 13 5/8 cents per pound.

The actual amount of wool that will go through Lakeview this year is problematical, but it is estimated by one in close touch with the business that it will reach one million and a half pounds.

SHEEP INDUSTRY IN LAKE ENORMOUS

Southern Pacific Railroad Company Is Co-Operating With Local Growers

A list of the names of the wool growers of Lake County and their postoffice address, together with the probable number of wethers and lambs that each will offer for sale this season, was completed last week by the Southern Pacific Company.

The list seems to be quite complete and accurate as to the number of sheep that will be offered for sale as the figures in most every case were obtained direct from the owners by Mr. O. U. Metcalf, Traveling Freight and Passenger Agent, and shows Lake County to have close to 350,000 sheep of which there will be marketed about 48,000 wethers and 68,000 lambs, the proceeds of which should bring the growers about \$350,000.

The complete list, a copy of which will appear in the next issue of the Examiner has been forwarded to Mr. J. M. Fulton, Asst. General Freight and Passenger Agent for the Southern Pacific and by him, placed in the hands of buyers both on the Pacific Coast and in the east with a view of getting buyers in communication with our growers.

Owing to their many commercial and traffic offices both east and west, through which these lists will be distributed, we believe this work on the part of the Southern Pacific Company will help greatly in bringing buyers into Lake County.

It is estimated that Lake County will produce this year about 1,500,000 pounds of wool which will be sold at figures ranging around 13 cents per pound, which together with the proceeds from the sale of lambs and wethers should net the growers over a half million dollars which speaks well for the sheep industry of Lake County.

As a result of excellent spring range the wethers are in fine condition for market at the present time and should be attractive to buyers.

Recent rains have assured a splendid summer range and lambs will be in fine condition for early September market.

WILSON APPEARS BEFORE CONGRESS

President Makes Personal Appeal On Behalf of Currency Reform

Declaring that currency reform is vitally necessary to permit the country to get the full value of the tariff reform. President Wilson Monday morning personally read his message to congress on this administration legislation.

The president asserted that action is needed at once. He denounced in no uncertain terms the "money trust." "It is perfectly clear that it is our duty to supply the new currency and banking system that the country needs," said Wilson in part. "The only question is, when? Now or later? After demands have become reproaches that we are so dull and slow, shall we hasten to change the tariff laws, and then be regarded about making it possible and easy for the country to take advantage of the change? There can be only one answer to that question: We must act now."

"The control of the system of banking and of the issue which new laws are set up, must be public, not private. They must be vested in the government itself, so that the banks will be instruments, not masters of business and of individual enterprises."

Wilson stated that there are only two alternatives in the reorganizing of the currency reform: Whether the people or the banks control.

HILL PROMISES BURNS RAILROAD

Railroad Man Accuses Reclamation Service of Holding Funds

While Louis W. Hill was in Burns last week, in a public speech he made a definite promise that the Harney country would have a railroad, although he did not say when or where it was coming from. We quote the following from the Burns News:

While Mr. Hill did not say exactly where the Hill railroad will be built in Harney county, he did say some things that will bear a mighty pleasing interpretation. He said in substance: "We are going to build through Harney county and we are likely to be in as soon as anybody. It is not necessarily the fellow that starts first that reaches the journey's end first and we are not going to be the last in the race." Mr. Hill in a short talk later called attention to the fact that between \$8,000, and \$12,000, had been paid into the Reclamation fund by the State of Oregon and it was the first duty of this part of the state especially to bring all its energies to bear to make the government at Washington break loose its hold on that money and put it to use in this state in the making of reclamation projects which are sadly needed.

ANOTHER COUPLE SNARED BY CUPID

Lakeview Couple Are Married at Quiet and Pretty Home Wedding

A pretty home wedding was solemnized at the home of the bride's parents, Mr. and Mrs. E. C. Thurston, at 2 o'clock Sunday afternoon, when their daughter, Miss Clara, and Mr. W. R. Elliott were united in marriage. Rev. A. F. Simmons of the Baptist Church was the officiating clergyman who tied the nuptial knot pronouncing the ceremony which united the lives of these estimable young people of our city. The wedding was a quiet one witnessed only by the family of the bride and a few intimate friends.

After an afternoon most pleasantly spent in social manner, in the evening the groom took his prize to the home recently purchased and which he had furnished, and which needed only her presence to complete. Here the merriment
