HAS THE CIRCULATION—PRINTS THE NEWS—REACHES THE PEOPLE

THE EXAMINER IS THE OFFICIAL PAPER OF LAKE COUNTY

VOL. XXXIV.

LAKEVIEW, LAKE COUNTY, OREGON, SEPTEMBER 4, 1913.

NO. 36

## DETAILS OF GAME LAW MADE PUBLIC

**Federal Law Yet Subject to Change--Effective 1st of October.**

The eagerly awaited regulations proposed by the United States department of agriculture, bureau of biological survey, fixing the seasons in which the shooting of migratory birds is allowed, authorized under the recently enacted Weeks-McLean migratory bird law, have just been made public by the department. They are effective October 1, 1913, subject to any changes that may be determined on between now and then.

In view of the widespread interest in this matter, not only on the part of sportsmen, but lovers of wild life generally, the American Game Protective and Propagation Association, which was active in the movement for the enactment of the Weeks-McLean law, has summarized the most important points involved in these regulations, as follows:

Generally speaking the country is divided into two zones, northern and southern, the dividing line running wholly or in part north of altitude 40 degrees and the Ohio River. Oregon is in the northern zone.

The open seasons provided in the state of Oregon on the four classes of migratory birds that have been constituted for the purposes of these regulations are as follows:

Class 1—Brandt, ducks, geese, September 16 to December 15.

Class 2—Rails, coots, gallinules, September 1 to November 30.

Class 3—Woodcock, October 1 to November 30.

Class 4—Blackbreasted and golden plover, jacksnipe, greater and lesser yellowlegs, September 16 to December 15.

By way of summarization the following statements may be made:

1.—Exceptions have been made in both zones for numerous reasons, but in most cases the closed seasons take the average of the existing laws of the states in the particular ones in which they are located.

2.—There has been more cutting on the closing than the opening dates of the shooting seasons as they now exist.

3.—In most cases three months of open shooting are allowed for waterfowl, and in some cases as much as three and one-half months.

4.—Spring shooting is absolutely

## CURRENCY BILL MEETS APPROVAL

**New Measure Will Establish 12 Reserve Banks Over Country.**

The administration currency bill, after nearly three weeks of discussion, was finally approved by the house democratic caucus by a vote of 163 to 9, although it is predicted by some that it will not be passed until after the present special session. The measure as it stands is partially summed up as follows:

The bill establishes twelve regional reserve banks, with a capital of not less than \$5,000,000 each, to which national banks are required to contribute an amount equal to ten per cent of their own capital stock and become liable for an additional ten per cent in case of call. This, it is estimated, will give the regional reserve banks a combined paid up capital of \$105,000,000. These regional reserve banks also are made custodians of a large amount of the reserve money of member banks, estimated at about \$410,000,000. They also receive the government deposits estimated at from \$10,000,000 to \$50,000,000.

The measure provides an advisory board of bankers without actual power, composed of one member from each of the 12 regional reserve banks. The circulation privilege will revert to the government itself, issuing through the regional banks on a gold reserve of 33 1-3 per cent, to be provided by the banks, upon the retirement of the three per cent bonds.

The notable features of the bank

## PREMIUM LIST IS BEING PREPARED

**Much Interest Should Be Manifested in Lake County Fair.**

The work of preparation for the County Fair to be held in Lakeview, October 2-3 and 4 is progressing steadily. The Premium List will be ready for publication in the papers of the County next week.

A special feature will be premiums for the best display from any one farm in the seven districts into which the County has been divided for this purpose.

Great benefit to all interests in the county will result from the widespread advertising Lake County will receive by the exhibition of the products in Eastern Cities, so all are urged to make their best individual efforts and not to hold back and let the other fellow get the premiums and honors.

Recent statistics indicate a marked increase in exports of lumber from the United States to the Orient. More than a quarter of a million feet of American woods are reported as being used in Samoa, Hawaii, and the Philippine Islands.

## LUMBER COMPANY TO CONTINUE HERE

**Sunset Lake Yard Will Be Re-opened With a Large Stock.**

W. R. Wilkinson, Receiver of the Sunset Lake Lumber Co., writes the Examiner that the mention given in this paper in the issue of August 21, stating that his company would discontinue business in Lakeview was erroneous.

This article was published in reference to the Lumber Company's recent auction sale here, and the information was gained from Mr. Burgess, who at that time was manager of the local yard.

Mr. Wilkinson further writes: "This company has no desire whatever, to discontinue business at Lakeview, but rather intends to increase it, as fast as the business will warrant."

"The reasons for our selling the stock completely out were several, the principal among which were the facts of this being a very dull season, coupled with the fact that the stock in question was mostly that which had been attached by creditors, forcing upon the receivership the expense of maintaining a man to handle the yard, for the benefit of a few creditors who were not willing to await their chances with the rest in the receivership now pending in the court of Modoc county."

"This company will within a very few months now, pass from a receivership, to a company financed successfully and full, with no financial obligations whatever in arrears, and in shape not only to cope successfully with its competitors, but to go them one better at every turn of the market."

"You will shortly receive word that some responsible man of Lakeview, will be handling our goods in Lakeview, and at the old stand, and that prices will be as always, the lowest coupled with the fact that the stock will be completely new throughout."

The Klamath Herald reports that Postmaster Brandenburg of Klamath Falls has been requested to resign his position, and that Wm. Wagner, formerly of Lakeview, is in line for the job. Charges were preferred against Brandenburg by his former head clerk.

contemplates a reduction in the reserve requirements of reserve and central reserve cities from 25 to 18 per cent and of all county banks from 15 to 12 per cent. The federal reserve board is required to establish a graduated tax on the amounts by which banks may be permitted to fall below reserve requirements, such tax to be uniform in its application to all banks.

National banks are compelled to become members of the system and under penalty of forfeiture of charters, while state banks are permitted to become members under regulations of the federal reserve board.

## IRISH PICNIC ENJOYED

**OVER SEVEN HUNDRED PEOPLE GO TO CAMAS PRAIRIE**

**Good Program of Entertainment and Sports Provided Wholesome Amusement For Crowds--Fat Men's Race Was Some Contest**

Again did the Irish citizens of Lake County make good when they gave their second annual picnic at Camas Prairie on Labor Day. Between 700 and 800 persons were present, and not one word of criticism has been heard relative to the conduct of the festivities. The crowds commenced assembling early in the morning, all sorts of vehicles being pressed into service as a means of transportation. Many came on horseback, many more in wagons, carriages, carts and the like, a few afoot and autos furnished transportation for several hundred people from Lakeview, Warner, Ashland and other points more or less distant.

D. T. Godsil, performed the duties of President of the Day, and in a few most gracious remarks welcomed the large assemblage, bidding the guests to make the most of the occasion and to enjoy themselves to the utmost. He then introduced J. M. Batchelder, followed by L. F. Conn and he in turn by W. Lair Thompson. All of the gentlemen addressed their remarks more particularly to those of Irish descent, and in return were warmly applauded by all present. Mrs. Norin then rendered a charming solo, which seemed to reach the hearts of all present, more especially those of the recent arrivals from the Emerald Isle. She was heartily encored, and responded with another selection that was especially pleasing to the Irish boys.

The numerous contests were highly entertaining, there being numerous entries in all of the events, and every one was out to win. Probably the most hotly contested race was that for the fine pipe, which was finally awarded to Dr. E. H. Smith, he taking a leading position in the fat men's race. It was generally considered a dead heat between the Doctor and Ben Day, but it was owing to the point of view from which conclusions were reached. It is possible that Ben lead at the finish by a nose, but in this instance it was girth what counted, and it is conceded that Ben is a little shy on waist measurement as compared with his professional competitor, and the closest observers were positive that the Doctor's waistband was a little in advance of Ben's. Any way, Ben very courteously conceded his defeat. It might be added that had not W. R. Heryford unfortunately stepped in a hole, causing him to fall at the start, the result would undoubtedly have been different.

In the running high jump, Chas. Combs won the gold-filled watch, with Pat Duane second. Combs cleared four feet eight and one half inches.

The Standing high jump was won by Pat Duane, the prize being a quadruple silver-plated shaving set. He set the mark at four feet seven inches, which proved too much for Mr. Combs, the winner of the running high jump. There were six entries in all.

A set of diamond cuff buttons, tie holder and scarf pin were won by Timothy Burke for the longest jump, fifteen feet three inches, with Paul Drenkel second and four other entries.

In the 600-yard horserace, for a Linkville tree saddle, handsomely stamped and valued at \$40, Dave McAuliffe on "Flaxey" won, with Jim Barry, Jr., on "Mark" second. There were seven starters in the race, and with Col. F. P. Light as master of ceremonies they were sent off on the first trial. The colonel performed the duties of official starter in a most satisfactory manner, and in nearly every race the ponies got away on the first trial. There were no numerous long waits, all of the races being pulled off promptly on time.

George Chandler on "One-Eyed Riley" won the 500-yard dash, with Vernon Stickley on "Belmont" second. There were five other entries, the prize being a fine cowboy bridle with full Spanish bit and spotted head.

## EFFORT MADE TO GET SETTLERS

**N.-C.-O. Railway Co-operating to Bring People to This Section During the Homeseekers Period**

T. E. Giller, commercial agent of the N.-C.-O. Railway was up from Reno this week, calling upon the local business men.

Mr. Giller is ever working for the development of the country served by his road, and has proposed the idea of making a bid to get settlers interested in this section when the western homeseekers rates over the Southern Pacific and Western Pacific lines go into effect September 25th.

Mr. Giller has advanced the idea of establishing immigration agents at both Salt Lake City and Ogden, representing Lake County, Oregon and Modoc County, California. Their duty shall be each day to ride the trains out of Ogden and Salt Lake City west distributing literature descriptive of the advantages and resources of this section of the country as a desirable location for these homeseekers.

The N.-C.-O. Railway has established a rate of \$11.90 from Reno to Lakeview and return, effective for those holding homeseekers tickets. The travelers would also be acquainted with this fact, which would doubtless induce many people to take advantage of the trip. Mr. Giller states that the

expense of conducting this campaign for the six weeks would amount to about \$1000. General Manager Dunaway of the N.-C.-O. has agreed to defray one-half of this expense, besides securing transportation for the solicitors.

Modoc County is very enthusiastic over the movement and has already appropriated \$300 to assist in meeting their portion of the expense, which leaves \$200 of the required amount to be met.

Experienced publicity and land men would be selected to conduct this campaign.

The western homeseekers rates are effective for six weeks and it is estimated that 15,000 people will come to California alone during this time. Owing to the extreme heat waves and droughts that have prevailed over the middle-western states this season, there will be an unusually large influx of people to the west during the homeseekers period.

We as usual this year, have abundant crops of grain and fruit, and in view of this fact, if homeseekers can be induced to visit this section, beneficial results are bound to follow.

## CLOUDBURST MAKES DELAY IN TRAINS

**N.-C.-O. Has Trouble But Service Is Now Back To Normal.**

Thursday, Friday and Saturday of last week the N.-C.-O. trains did not reach Lakeview until the wee small hours of the morning, occasioned by a cloudburst at Red Rock Canyon this side of Reno. The flood that followed is said to have raised to a height of 10 feet in places, washing sand, rock and debris over the track for a distance of a mile and a half. A crew of men were at once put to work removing the obstruction but during this time all mail and baggage as well as passengers had to be transferred over the demoralized track to connect with the trains that were operated on either end.

Conditions have again about reached a normal stage, trains since Monday arriving but a few minutes behind the schedule time. The storms have been exceedingly heavy over the entire northern part of Nevada, and all railroad lines in that part of the state have been experiencing considerable trouble as a result.

## NEW OFFICE MUST HAVE APPOINTEE

**Up to Each County Court to Name Sealer of Weights.**

According to an opinion recently rendered by Attorney General A. M. Crawford it is mandatory that county courts appoint a county sealer of weights and measures, which law was passed at the last session of the Oregon Legislature. In his decision the Attorney General cites the following reasons:

"Section 2 of the act requires the State Treasurer to appoint a deputy sealer of weights and measures to whom the county sealers of weights, and measures shall report. Section 11 provides 'there shall be appointed by the county court . . . a county sealer of weights and measures.' The language is 'shall be appointed.' Section 12 provides the duties of the county sealer of weights and measures; and Section 13 makes it the duty of the county sealer of weights and measures to report to the State Sealer of Weights and Measures. A duty is imposed upon the State Treasurer by the act which he cannot discharge, except that the officers provided for under the act are duly appointed and make their reports as therein provided; hence the necessity of the mandatory provision of Section 11 as to the county court. If the county court had any discretion to refuse to appoint deputies, then the whole object of the act could be defeated by the action of the county court. Such evidently was not the intent of the Legislature. Therefore in my opinion the act is mandatory as far as requiring the county courts to appoint deputy sealers of weights and measures thereunder."

The county sealer of weights and measures shall serve for such a term and such a compensation as the county court shall provide.

### Money Allotted

Secretary McAdoo has announced the apportionment, as far as it had been completed of the \$50,000,000 to be deposited by the Government in National banks of the West and South to facilitate the movement and marketing of crops. The total amount allotted to date is \$46,000,000, of which \$27,700,000 goes to banks in the 14 Western states and \$21,800,000 to the 13 Southern states and the District of Columbia.

The Southern banks have asked that their share of the funds be deposited in August and September and those in the West want the money apportioned to them during September, October and November. The money will be allowed to remain on deposit on an average of four or five months. All of it is to be returned not later than next April and the Southern bankers, who get their money first in December, will begin turning it back into the Treasury in monthly installments.

## MILLER MADE HEAD OF SUNSHINE CO.

**New Management Will Stimulate Development of High Grade Mine.**

At a recent meeting of the Board of Directors of the Sunshine High Grade Mining Co. the control and management of the property went into the hands of C. N. Miller of Fairport, who accomplishes things. His first experience was Cripple Creek where he was one of the most energetic and aggressive operators.

At this writing he is operating a zinc property in Washoe County, Nevada, a gold property in Plumas and is probably one of the heaviest owners of valuable mining property in Rochester, Nevada, a locality which appealed to him nearly two years before the outside world ever heard of it.

When the Sunshine High Grade Mining Co. held its annual meeting at Fairport in June there was a debt of \$180,000 against the company. Mr. Miller proposed a plan where by all of this but \$4000 was wiped off the books.

He now proposes to get the company upon its feet financially and then go after the properties of this company in a big way.

Speaking of the Camp he said: "It is in no sense a poor man's camp. What is needed more than anything else is substantial and intelligent development. The character of the ore is such that a proper treatment plant will cost a substantial sum of money. Amalgamation alone will not save over half the values. The mineralization is extensive and if I am successful in interesting substantial financial support I believe the Sunshine and Yellow Jacket will make good mines. The camp has never had a fair test and the development is largely superficial."

With the fine showing now on the Modoc and with active development upon the properties of the Sunshine Co. it is fair to assume that High Grade will soon come into its own.

At the recent meeting Mr. V. L. Snelling was elected President, C. N. Miller, Secretary and General Manager. These gentlemen with F. M. Green, Geo. Hankins and Jonas King constitute the board of directors. The stockholders are to be congratulated upon the change of policy which can but have a stimulating effect upon the whole district.

Mr. F. M. Miller of Lakeview was continued as treasurer of the company.

## LAKEVIEW WOMAN DIES IN CALIFORNIA

**Mrs. Dora Cook, Formerly Dora Hubbard, Was Well Known Here.**

A news dispatch from Yuba City, California to a Marysville paper states that Mrs. Dora Cook widow of the late Alfred H. Cook of Los Angeles, died at the home of D. A. Mount in that city on the night of August 21, following a lingering illness. The dispatch further says:

"Deceased was a native of Oregon and was 48 years, 10 months and 21 days old."

She returned from Los Angeles about five weeks ago, where she had been for some time. She came to this place hoping to benefit her health.

"The deceased was also known to a large circle of friends as Mrs. Dora Gates, having been married to the late William Gates, a harnessmaker of Marysville. He died about fifteen years ago."

"Mrs. Cook was well known in Yuba and Sutter counties and numbered her friends by her acquaintances. She was a good woman and was the friend of all who knew her."

Mrs. Cook's maiden name was Miss Dora Hubbard, and she was a sister of Mrs. Joe Howard, now deceased. She will be well remembered by the older residents of Lakeview where she was married to William Gates in 1889.

The large auto truck from the salt mines at Alkali lake was here this week and hauled back a load of lumber from one of the local yards.
