MODOC COURT HOUSE NEW PAPER MONEY

CONTRACT SIGNED FOR IMMEDIATE WORK ON BUILDING

Goose Lake Sand Will be Used—Said to be as Good as Can be Obtained Anywhere

At a meeting of the Board of Supervisors of Modoc County last week the contract for the construction of the new court house was signed by Mr. McCray, representative of the Concanon Construction Co., of San Francisco, successful bidder. The amount for the construction of the building is approximately \$89,000. It is expected to be completed this year.

Sand from the shores of Goose Lake will be used, and concerning this the Modoc Republican says:

DeLongchamps and McCray took a trip up to Goose Lake to inspect the sand and came back with glowing reports of its suitability. They have no hesitancy in saying that the sand is about as good as can be found anywhere in the state. In fact they claim that there is only one place in the state of California where they have better sand for making concrete. Under the present management the N.-C.-O. has agreed to let the contractors take all of the sand they want from their right of way along Goose Lake. This is an excellent concession and means that all the contractors will have to do will be to load the cars with steam scoop shovels, from alongside of the track. We understand also, that the road has made very good transportation rates for hauling the sand to Alturas.

The Town Trustees have granted permission to the railroad to construct a spur track from the main track to the court house site. This will save much labor.

A SIMPLE METHOD

NEW SCHEME FOR FIGURING PARCEL POST POSTAGE

Redmond Postmaster Evolves Method That May Be Adopted Generally Over Country

J. W. Moore, Redmond's postmaster, who was here Sunday, has worked out a new and extremely simple method of calculating the postage for parcel posts packages, says the Bend Bulletin. Heretofore a large and complicated tabulation has been in use, which has proved both slow and cumbersome. Mr. Moore has placed his tabulations before the Postmaster General and from acknowledgements received there is good reason to believe that it may be adopted officially.

The plan is this: To determine the amount of postage required for the first and second zones, add 4 to the weight of the package, the result in cents, being the postage required. For the third zone multiply the weight by 2 and add 4. In the fourth zone multiply by four and add three. Fifth, multiply by six and add two. Sixth, multiply by 8 and add one. Seventh, multiply by ten and add one. Eighth, multiply by 12, with no addition.

Notice of Sale

Notice is hereby given that the undersigned, as administrator of the estate of John Silva, deceased, will on June 27, 1914, sell at public auction to the highest cash bidder personal property of said John Silva, estate, including some farm implements, household goods, supplies, etc. The sale will be held on the north side of the Bieber store and will begin at one o'clock p. m., June 27, 1914.

Jn 11 t-3 HARRY BAILEY
Administrator.

Bounty Fund Exhausted

Over 100 state warrants, for sums ranging from \$1.00 up, are being issued by Secretary of State Olcott this month for payment of additional bounties authorized by the last legislature on bobcats, lynx and cougars. The appropriation of \$40,000 made by the last legislature for the payment of the regular bounties offered on predatory animals has been exhausted, and Secretary Olcott has sent notices to the various county clerks not to forward any more claims for bounties.

Indian Book on Sale

Klamath Herald: "Indian History of the Modoc War and the Causes that Led to It," written by Jeff Riddle, a Modoc Indian who is the son of Winema, the heroine of the war, has made its appearance in Klamath Falls. The book is illustrated with ninety pictures, many of them reproductions of rare historical portraits.

Riddle, who was a youth at the time of the war saw much of the real drama. In this book he presents in a forceful and logical manner the story from the standpoint of the Modoc Indians, even to interviews with some of the Indians.

THE EXAMINER FOR JOB W...

ISSUE NEW SPECIE UNDER FEDERAL RESERVE ACT

Millions of Dollars in New Type of Notes Will Be Placed in Circulation

Millions of dollars worth of paper money of a new type will be put into circulation on the establishment of the federal reserve banks within the next few weeks.

Under the federal reserve bank act each of the twelve federal reserve banks will receive advances from the federal reserve board in the form of federal reserve notes, a distinctly new sort of paper money. Commercial paper will be the collateral advanced by the various banks as security for these notes.

The new \$5 note submitted by the bureau of engraving and printing is typical of agriculture. The portrait on the face of the note is Lincoln's and the back shows a harvesting machine and allegorical figure typical of farming. The \$10 note bears a portrait of Cleveland and a manufacturing scene. The \$20 bears Jackson's portrait and is typical of commerce, having a steam ship, train and other mediums of trade on the back. Grant's picture is shown on the \$50 and Franklin's portrait adorns the \$100 bill. Both of these larger bills are typical of the arts.

TO DEVELOP MINE

GOLD SHORE MINE WILL BE SYSTEMATICALLY WORKED

Said to be One of Most Promising Properties of High Grade—Other Work Planned

A thorough and systematic method of development work will begin in the next couple of weeks on the Gold Shore property, one of the best groups in the High Grade district, according to information gleaned by the writer from several members of the company, says the Bidwell News.

President Fred A. Bell, an experienced miner, with the assistance of a couple of men will begin work there as soon as conditions will permit.

The snow is rapidly disappearing and work on various claims will soon begin in earnest.

The Bidwell Discovery Company will also begin extensive development work on their property, which shows signs of increasing values as the work is done each session.

The present season promises to be a busy one in the High Grade mining district.

Many splendid prospects await out side capital, and if experienced mining men with sufficient capital to thoroughly develop one of these valuable prospects are induced to come into the district this year, it is believed that High Grade will soon bloom as a full-fledged mining camp.

"606"
Salvarsan

Prof. Ehrlich's Wonderful Remedy for Blood Poison
Symptoms Begin to Vanish in Two Days

"914"
Neo-Salvarsan

IMPURE BLOOD

I use the latest and best treatment for blood diseases—Professor Ehrlich's "606" or Salvarsan, and "914," or Neo-Salvarsan. They are absolutely safe. Their curative properties have been thoroughly tested throughout the civilized world. They have been accepted by the United States Army and Navy as the only treatment for blood disorders.

I administer this treatment in my office, painlessly, and will only detain you from your work from six to twelve hours. The symptoms begin to disappear in from twenty-four to forty-eight hours. If you have now, or have ever had this disease, do not fail to take this treatment.

VARICOCELE—One of the most common of the noninfective conditions and the condition that is responsible for a great many of the so-called nervous conditions, is a weakened and dilated condition of the veins in the scrotum. This condition can only be cured by direct local treatment; these conditions can be absolutely cured in a few days.

BLADDER and Kidney diseases, swelling of the feet and legs, painful and scalding urination, pain in back and sediment in urine all respond quickly to my system of treatment.

PROSTATIC enlargement, re-

sulting in the stoppage of the flow of urine, and pain, treated with operation.

My treatment removes this inflammation reduces the enlargement, normal condition is quickly restored.

RHEUMATISM treated in all its forms by both Electricity and Medicine.

I will positively not accept incurable diseases. I am permanently located in Reno, occupy one whole upper floor consisting of six completely equipped rooms. My offices have private entrance. My business is conducted with all the privacy possible.

STOMACH conditions. Coated Tongue, perverted Appetite, Gasses causing a fullness and distress after eating, Heartburn, Palpitation, Dizziness and all other conditions of the stomach, show signs of improvement at once by my system of treatment.

ACUTE DISEASES—Itching, burning, scalding, painful passages of water. Strong injections, strong remedies seldom benefit—They cause obstruction of the urinary canal.

My treatment stops every symptom and relieves in a few days.
