Time to Spray

"It is time to spray," says Williamson of the State Board

of Horticulture, in discussing the care of fruit trees and vines. He is engaged in sending out the formulas for spraying for the San Jose scale, wooly aphid, codling moth and other things that prey on the fruit crop of Oregon.

"Now is the time for winter spraying and it ought to be done right away," he said. "Where the trees are not worth spraying they should be cut down and burned, so as not to remain breeding places for the various pests. Even rose bushes ought to be sprayed, in order that they may not harbor the San Jose scale."

THREE CORNER FIGHT

H. L. Holgate Also Wants to
Be Joint Senator for
This District

H. L. Holgate, of Bonanza, returned Saturday evening from Corvallis, where he has been visiting his father who has been quite ill. Mr. Holgate states that he will enter the race for the nomination for joint senator. His friends have been strongly urging him for some time, and as he had partly promised they feel justified in insisting that he allow his name to be used.

This will make the senatorial contest a three cornered fight, which is never a sure bet until after the election. According to statements of friends of the three candidates, Holgate claims Crook county, Willits is sure of Lake, but the friends of Merryman are not troubled with modesty. They claim Crook and Klamath and an even break in Lake.

While all the candidates claim that they desire a clean, quiet campaign, yet it is believed that the senatorial contest will develop into one of the hottest political fights ever known in Klamath county. It is hinted that as soon as the general public is let into the game there will be something doing on all sides.

CITY NEEDS WATER

Naftzger Favors Organization
of Municipal Water Users'
Association

A. H. Naftzger, president of the Klamath Development company, arrived in the city Saturday evening to remain several days. While the occasion of the present visit is simply a matter of special business, he expects to return later to inaugurate their plan of work for the coming season.

When asked as to whether he was in favor of the proposition to organize a city water users association for the purpose of supplying water to the city property owners for irrigation, Mr. Naftzger said: "I have heard something about the proposition but do not know just what plan is proposed. We certainly need water to irrigate our lawns and gardens and our company is ready to encourage any movement in that direction. If there is any opportunity to secure a supply of water for this purpose, it would be the gravest mistake we could make as a city, not to take advantage of it before it is too late. I will make it a point to see what the government officials offer to do and if it is a suitable plan I will be glad to co-operate with the citizens."

Mass Meeting Called to Discuss
City Irrigation Is
Largely Attended

The announcement of the meeting to discuss the proposition to secure water for irrigation purposes called out a big gathering of city property owners at the court house Saturday night. From the large attendance and earnest discussion, it would appear that the citizens are wide awake to the advantages that

CIVIC FEDERATION MEETING

The Thursday night, February 13, meeting of the Civic Federation promises to be an interesting session, and every member should be present. Citizens, not members, who are in sympathy with us, are cordially invited to attend and become members. With malice toward none we are striving to bring about a better condition of society, upbuild and beautify our town, and lend our aid to our officers in the discharge of their duties. You may have something to offer that will help us. Come and let us reason together—no politics—simply good citizenship is what we want. Everybody welcome that favors same. G. W. WHITE, President.

would result from a perpetual supply of water for irrigation.

The meeting was called to order by G. W. White and on motion L. F. Willits was chosen chairman and J. G. Swan secretary. Engineer D. W. Murphy was asked to explain the plan the Reclamation service followed in supplying cities with water. Mr. Murphy stated that the usual procedure of the department was to enter into a contract to deliver water at a stated point from which the association of citizens a greed to distribute it to the property owners. He called attention to the fact that there are some 40 water rights in the city, which are entitled to one inch of water each, and that some arrangement would have to be made to take care of these.

The remainder of the evening was spent in general discussion of the subject, every speaker strongly urging that action be taken in securing water. Major Worden said that he was the owner of over 1500 lots which he was willing to sign up if the government would furnish the water. On motion a committee of three consisting of C. E. Worden, E. I.
