

FOUR FOR MAYORALTY

Convention will Nomi- nate But Two

OTHERS WILL BE LEFT

Heitkemper Says He Will Not Accept Nomination--Bis- hop is Mentioned

Indications are that there will be four candidates for the Mayoralty at the nominating convention tomorrow. John R. Stille has announced himself a candidate, Frank Ward promised the Civic Federation to accept a nomination, G. Heitkemper, Jr., has not been dropped by his friends although he says he will not accept a nomination, and the last one to be mentioned in connection with the office is Mayor Bishop himself. The convention nominates two candidates, and it is safe to say that two of the foregoing names will be the convention nominees upon the ballot.

G. Heitkemper has been urged by a large number of his friends to enter the race, but he has never consented to become a candidate and at this time states that he will not accept a nomination if tendered him. There are those who say that he will be placed in nomination by the convention and it will be up to him to decline or accept.

John Stille has the inorsement of the Fire Department and will receive his share of the vote. Frank Ward has the backing of the Federation and will doubtless poll a large vote. Mayor Bishop always musters up a great deal of strength when he enters the fight himself, but in this case he is being run by reelection by his friends and it is generally understood that he does not desire a nomination for another term. Just what effect the recommendations

of the Civic Federation and the Fire Department will have is problematical. There are many voters who are opposed to having any organization make suggestions or recommendations and who have already expressed themselves strongly opposed to any man whose candidacy emanates from some body or organization.

Nominations will be made by the convention for the offices of police judge and treasurer. For the former A. L. Leavitt has been recommended by the Fire Department and O. A. Stearns by the Civic Federation. These are the only candidates in the field that have expressed a willingness to have their names appear on the ballot. For treasurer A. M. Worden has been suggested by the Civic Federation and Capt. J. W. Siemens by the Fire Department. No other candidates have been mentioned for this office.

LARGE VOTE IS OUT

Contest for Nomination in Second Ward

The vote at the ward conventions was larger than was expected. In the First ward F. E. Ankeny received 37 votes, J. F. Goehler 2, and J. W. Siemens, C. H. Withrow and Geo. T. Baldwin each received one, making a total of 42 votes.

In the Second ward the fight was pretty warm between the candidates. Elias Obenchain received 46 votes, Henry Boivin 23 and C. B. Crisler 20. Two defective votes were cast in this ward and were not counted. The total vote was 91.

F. T. Sanderson received 35 votes in the third ward, Dan Cofer 8, Chas. Martin 2, G. P. Van Riper, C. K. Brandenburg and Will Humphrey each received one, making a total of 48.

The two receiving the highest vote in each ward will have their names placed on the election ballot as the convention nominees.

The only real surprise was in the Second ward. Neither the candidacy of Obenchain nor of Henry Boivin had been announced. Both were brought out by their friends at the last minute.

The condition of Dr. G. W. Maston remains unchanged.

COMMITTEE ORGANIZED

C. T. Oliver Elected Chairman F. E. Ankeny Secretary of Political Machine

Republican committeemen from the various precincts throughout the county met at the Court House yesterday evening for the purpose of perfecting the county organization. It was found that four precincts had failed to select committeemen, and they were filled by appointment as follows: Sprague River, S. C. Hamaker; Plevna, R. W. Tower; Klamath Lake, O. C. Brown; Poe Valley, Vivian Evans.

C. T. Oliver was chosen temporary chairman and J. G. Wight, secretary. Many of the committeemen were represented by proxies and one or two had no representation. The organization was made permanent with the exception that Frank E. Ankeny was elected secretary.

H. L. Holgate, of Bonanza, was elected state committeeman and Frank Ira White, congressional committeeman. The delegates appointed to the state and congressional conventions are as follows: L. E. Willits, Klamath Falls; Geo. Noble Sr., Langell Valley; E. E. Fitch, Merrill; E. E. Hoyt, Fort Klamath.

Resolutions were introduced and adopted pledging the committee to the support of the entire Republican ticket. No plan of campaign has yet been formulated, but the committee is going to make a determined fight to elect the entire county ticket and to place a handsome majority figure in the Republican column.

The following are the committeemen selected throughout the county: Linkville, C. T. Oliver; Lost river, Fred McKendree; Poe Valley, Vivian Evans; Dairy, W. P. Sedge; Langell Valley, R. C. Cowley; Sprague River, S. C. Hamaker; Tule Lake, R. C. Anderson; Wood River, E. M. Leever; Klamath Lake, O. C. Brown; Snow, E. L. Colburn; Odell, Jesse Strotts.

NEW BY-LAWS NOT ADOPTED

Attendance not Large Enough To Take Action On The Proposed Change

No action was taken on the reorganization of the Chamber of Commerce at the meeting last night. In order to amend the by-laws it takes a vote of two-thirds of the members in good standing, and only about fifteen out of a membership of forty-one attended the meeting, making it impossible to take any action. Some of the more radical changes were discussed and the sentiment seemed favorable to the adoption of the new laws. There was some question as to the advisability of meeting every three months, there being some who believed that the members of the Chamber should meet more frequently, giving as a reason that it might have a tendency to make the organization more active. The adoption of the new by-laws will come up for consideration at the next regular meeting when an effort will be made to have enough members present to take action on the matter.

A petition addressed to the Secretary of the Navy asking that twelve battleships and eight heavily armored cruisers be retained on the Pacific Coast as a permanent fleet, came before the Chamber and was on motion ordered indorsed by the body.

Advertising again came in for some discussion, but no definite action was taken on any proposition.

W. H. Heileman reported to the Chamber that it was very probable that a soil survey will be made of this county this Summer.

The Klamath Chamber of Commerce needs more good active members and it is up to the business men of the city to support the organization. It is not right that only forty-one men should comprise the commercial body from which so much is expected. There are a number of business men in this city who have no representative in the Chamber, but nevertheless they are deriving the same benefits from the work done by the organization as those who belong and give their time and money to the good cause.

At the next meeting when the reorganization question again comes up for consideration every member of the Chamber should be present and every business firm in the city should have a representative there with an application for membership.

Haul From Dorris

Capt. J. M. McIntire went to Dorris from Pokogama to make arrangements for the establishment of a freight service from the terminus of the railroad to this city. No time has been announced for the inauguration of the regular train service to Dorris, but the general supposition is that the schedule will go into effect about the middle of May or sooner. The McIntire Company will make arrangements for all necessary warehouses and for office rooms at that place.

A Musical Program

Klamath Falls has many musicians of ability and those who were present at the second open meeting of the Tuesday Evening Music Club were given a rare musical treat. Every number on the program was a treat to the audience which packed the Conservatory of Music. "The Night has a Thousand Eyes" was the open number by the ladies' quartet and the same was applauded to an encore as was every number on the program. Miss Mae Worden rendered a most excellent piano solo which delighted her auditors. Mr. Roy Walker sang "The Roary" in his usual pleasing way. "Tell Her I Love Her So,"

was next sung by the mixed quartet, and this was followed by a violin solo by Miss Elsie Applegate, whose ability on this instrument is well known. A vocal duet by Mrs. Jessie B. Morgan and Mr. Zimmerman, "I Feel Thy Angel Spirit," was greatly appreciated by the audience. The next number was a vocal solo by Mrs. Zumwalt, "Lullaby From Jocelyn," and violin obligato by Miss Elsie Applegate. Mrs. Zumwalt's sweet voice charmed the listeners and no musical program by Klamath Falls talent would seem complete without her solos. The closing number was by the male quartet and it completed one of the best musical programs that has ever been rendered in this city.

FIRST FREIGHT TRAIN

Dorris No Longer Dependent on Horse Flesh

Already a freight agent has been stationed at Dorris with his head quarters in a box car. He arrived at his new station yesterday and from now on all freight for this city will be sent to that point. One carload of freight for Klamath Falls was marked Bray, but not unloaded and will be brought on to Dorris at once. While no regular train service will be established at once all freight will be brought on to the new terminal. Capt. McIntire is now at Dorris arranging for the handling of freight.

Convention at 2 O'Clock

The nominating convention calls at 2 o'clock sharp tomorrow afternoon and voting will close just as soon as all of those present have cast their vote. Everyone wishing to participate in the convention must be on hand at the time it is convened. There is no specified length of time in which the voting is done. At the ward convention today many failed to vote because they thought the polls would remain open for several hours.

Keno Items

The pupils of the Klamath County High School enjoyed a picnic at Nelson's grove last Saturday.

Sign painting has been the order of the day. S. Padgett, McCormack & Grubb, H. L. Smith and Conrad Madison have all had new signs painted.

Mr. Baber, of Grants Pass, passed through Keno with his string of race horses, on his way to Lakeview.

Bing Grubb has been visiting with his children.

Sam Pool's family has been sick, but all are now on the mend.

PLANT FISH IN KLAMATH

California Commission Does Good Work

WILL PROTECT TROUT

Oregon Should Have Laws to Co-Operate In The Per- petuation of Supply

California has begun a work in which this state should co-operate. The Fish Commission of the Golden state has undertaken to stock Klamath river with salmon and trout and to this end one million small salmon and a half million each of Rainbow and Eastern Brook trout have been planted in the vicinity of the Klamath Hot Springs, and John Solner has been stationed at that place by the Commission to see that the young fish receive proper protection. The planting of these fish is a direct help to the streams of this immediate section as the fish of the Klamath river find their way to almost every stream in this county.

Oregon now has absolutely no fish protection and unless something is done to protect the supply the people of the Klamath section may some day awaken to the fact that the best fishing resorts are fished out, and they will wonder how it all happened. The next legislature should enact such laws as will give protection to the trout streams of Southern Oregon so that this state may co-operate with California in the perpetuation of the fish supply.

Oregon has splendid laws governing the game of this section, but California with her pot hunters makes the laws a farce. On the other hand, California is doing a splendid work in the planting and the protection of the fish of the Klamath river, but the fact that in Oregon the same fish are not protected makes California a good work also a farce. The two states should get together and enact laws that would protect the game and fish on both sides of the state line.

I. O. O. F.

Members of the second degree team are requested to be at the Hall at 7 o'clock sharp Saturday evening.

P. Sholl, Captain.
