

## RATES ARE REDUCED

### Material Reduction on All Freight Coming From Dorris

## SCHEDULE IS ALREADY IN EFFECT

### McIntire Transportation Company Make Cheaper Rate on All Classes of Freight From Railroad Terminus-Klamath People Will Be Benefited By Reduction

Klamath Falls is to have the benefit of another reduction in freight rates. The new rates of the McIntire Transportation Company go into effect and the reduction is 10 cents on each 100 pounds between Dorris and this city. The new rate is: 1st class, 55 cents, old 65; 2d class, new 50, old 60; 3rd class, new 45, old 55; 4th class, new 40, old 50; 5th class, same as 4th. The commodity rate on carload lots has been reduced from 50 cents per cwt. to 30 cents. The commodity rate is on salt, sugar, coal, lime, brick, and cement in sacks or barrels. The commodity rate will also apply on exports from this city including grain and potatoes. This rate will be subject to modification on thirty days notice. Heavy bulky freight will be loaded by special contract. This reduction will mean a considerable saving on goods shipped into this city, and will in time reduce the cost of many articles that are imported.

### Langell Valley Items

The election in Langell Valley will go down as a model for all future elections. Mr. Scagle was the only candidate present. There was not a drop of water to be found and everything was in perfect harmony. A bounteous repast was participated in by all present. The ladies are responsible for this event which they are entitled to the greatest praise. The dinner was fit for kings. It goes to show that though we are a farmer folk our ladies are sure good cooks. Considering the cool and unusual back weather the outlook for crops is very good. Although the wild hay crop is not as heavy as usual there will be enough to supply the demand. J. D. Seaton found two bee trees recently containing a good quantity as well as quality of honey. Judging from the looks of him those bees were on the

war path.

Ben Abbeboom contemplates putting in a pumping plant for irrigation.

The farmers have purchased a wood sawing machine and are now busy sawing their year's supply.

The bids on the Clear Lake dam having been rejected makes our farmers wonder what will happen next.

Now is the time of the year for our farmers to begin to think of the county fair. By so doing we will be able to show what we can raise and also capture some of the prizes.

John Noble's new house is nearing completion, and when finished it will be quite an improvement on his homestead.

James Lindsay is suffering from a bruise or sprain in his hand that is causing him much pain.

The range stock is all in good condition and the recent rains have made the grass good.

Oscar Campbell's new house is completed and is quite an imposing structure.

While near the summit of Langell Valley mountain Dave Vinson's horse got away from him, leaving him to walk home. We are of the opinion that Dave used language that is not in our text book.

### Band Gives Picnic

Klamath Falls Military Band at its meeting last night decided to give a grand picnic on the Fourth of July. No steps has been taken towards a celebration in the city so the musical organization decided to give a picnic in Grand View Park, which is situated on the west side of the Upper lake. Arrangements will be made to convey the people to the boat landing and from there the boat will make a trip to the grounds every hour. A platform will be put up for dancing and there will be all kinds of amusements for everyone. The music for the occasion will be furnished by the band. The program for the day will be announced later.

## KLAMATH WATER USERS IN SESSION THIS AFTERNOON

The adjourned meeting of the Water Users' Association was called to order by President Alex. Martin, Jr., and the roll call showed that there was enough stock represented to permit a vote on the amendments which appear on the second page of this paper. Ballots containing the proposed amendments were distributed and the association proceeded to vote.

A resolution was introduced asking the Reclamation Service to construct the Clear Lake dam by force account and immediately thereupon the trouble began. Everyone took sides and considerable time was taken up on the arguments pro and con. Another resolution was offered asking a reconsideration of

the bids on the dam in question. It was declared out of order.

Director John Irwin introduced Engineer Henny's correspondence in regard to Clear Lake dam and immediately following this a vote was taken and the resolution asking for force account was voted down by an overwhelming vote.

As the Herald goes to press the debate on a resolution asking the reconsideration of the bids on the Clear Lake dam is in progress.

A. G. Duhme, J. C. Cravens and T. B. Morgan leave tomorrow for a month's trip to the mountains. They will put in most of their time hunting for bear. With seven bear dogs in the party it is

## PROGRAM OF EVENTS

### Farmers' Institute Promises To Be Grand Success

### LARGE ATTENDANCE IS ASSURED

### Stockmen and Farmers Are Interested and Will Remain for Sessions-Owing to Commencement Dr. Whitycombe Will Not Lecture Until Tomorrow

very probable that they will succeed in getting big game. Horace Mitchell has returned from San Francisco and Ashland.

Owing to the High School commencement exercises tonight the illustrated lecture by Dr. Jas. Whitycombe, Director of the State Experimental station at Corvallis, will be postponed until tomorrow evening at eight o'clock. The illustrations will show the Agricultural College buildings and grounds, students work, Oregon famous livestock and numerous other features that will be of especial interest to everyone. The slides for the lecture were made by Burton C. Cunningham, a former Klamath county boy. The lecture by Dr. Whitycombe will be instructive as well as entertaining and it goes without saying that the opera house will be crowded on this occasion.

Tomorrow morning at 10 o'clock Dr. Whitycombe will speak at the opera house on "General Agriculture, Dry Farming and Animal Husbandry." At 2 o'clock in the afternoon Prof. Bradley, the soil expert at the Corvallis station, will lecture on "Soils." He will be followed by Project Engineer D. W. Murphy, by W. H. Helleman and by C. C. Hogue, who will speak on subjects closely related to irrigation of lands.

Indications are that the sessions of the institute will be largely attended as most of the farmers who came in to attend the meeting of the Water Users' Association will stay over for all of the institute sessions.

### Civil Service Examination

On July 1st in this city will be held a civil service examination to fill positions as junior clerk in the Reclamation Service at salaries ranging from \$90 to \$125. The vacancy in the Klamath Falls office calls for a clerk qualified in stenography and typewriting and in bookkeeping at a salary salary ranging from \$90 to \$125 per month. All necessary blanks for the examination can be secured at the local office.

Ward Dwight of the Dwight Lumber Co. of San Francisco, is in the city on business with the Long Lake Lumber Co. His company will likely handle large shipments of boxes from the local concern.

W. C. Dalton is in the city from the Tule Lake country to attend the meeting of the Water Users' Association and to take in the Farmers' Institute.

E. H. Harriman talking to Chief Engineer Hood at Pelican Bay Lodge

## HIGH S. P. OFFICIALS ARE HERE

### Chief Engineer Wm. Hood and Party Visiting Harriman's Klamath Summer Home on Upper Lake

Klamath is entertaining as guests a number of the high officials of the Southern Pacific. The party arrived last night and it includes Chief Engineer Wm. Hood, E. E. Calvin, general manager and vice-president of Southern Pacific, H. P. Hoey, construction engineer of the California Northeastern, Col. W. H. Holabird, who has charge of the Pelican Bay resort, Henry Crosby, who has charge of the water systems along the railroad, and the private secretaries to Messrs. Hood and Calvin.

The party arrived last night and left this morning for Pelican Bay where they will spend a few days after which they will return to San Francisco. This is the first time that Mr. Hood has visited this city although some years ago he was at the head of a surveying party that ran a preliminary survey through this country. The object of the visit of the party so far as can be learned is to look over the new road and to inspect the construction work now going on.

### Prof. Crooks' Lecture

H. M. Crooks, the President of the Albany College, was greeted by a crowded house last night when he delivered

his address to the members of the graduating class of the High School. His subject was "Growth," and his discourse was highly interesting and replete with good wholesome thought. Prof. Crooks is an entertaining speaker and possesses the faculty of holding the attention of his audience and making it see every point, which he usually illustrated with some pungent story or suggestion. For more than an hour he took the large audience from a humorous situation to a serious one and then back again, making his address one that is beneficial to the entire audience as well as to the graduates.

The musical part of the program consisted of a piano solo by Miss Evelyn Applegate and vocal solos by Mr. T. W. Zimmerman and by Mrs. Harry Caden. This part of the program made the evening all the more enjoyable.

### Notice

While the lime I have on hand lasts it will be sold on demand, after it is gone it will be necessary to have 30 days notice to permit of my burning another kiln. If you want lime this Summer get it now. C. D. Willson.

### Another Saturday Snap

\$1.25 to \$3. straw hats will be sold at 50 cents each, Saturday only, at the Portland Store.
