

DISMISS ADY'S SUIT

Damage Case Against Klamath Lake Railroad Settled

AMOUNT PAID NOT MADE PUBLIC

Case Attracted Much Attention at Yreka Because of Amount Involved and Because of Prominence of Plaintiff's Attorney F. J. Heney

The big \$65,000 damage suit that was instituted against the Klamath Lake Railroad company by Abel Ady, in the Superior Court of Siskiyou county, on May 11th, has been dismissed the formal order for dismissal having been filed in the county clerk's office.

At the time of the filing of the papers in the case considerable interest was manifested, not only on account of the large amount of damages sued for, but also on account of the fact that Heney & Cobb, the San Francisco graft prosecution lawyers, were attorneys for the plaintiff. The suit was brought to recover damages in the sum of \$65,000 for injuries alleged to have been received by the plaintiff while riding in the cars of the defendant corporation at Thrall, the terminus of the road.

It is not known in what manner the case was settled, but it is generally supposed that a satisfactory adjustment of the matter was arrived at by the respective parties. The document filed merely instructs the clerk to dismiss the action, and is signed by all of the attorneys in the case.

When asked about the dismissal of the case Mr. Ady said that the report was correct, but that he was not ready to discuss the matter. The suit was the outcome of the injuries sustained by Mr. Ady in the railroad wreck at Thrall.

G. K. Van Riper, Leslie Rogers, J. H. Crews and Jos. Stichel start in the morning for a hunting and fishing trip to the north end of the county. They expect to be gone at least two weeks, but it is a safe bet that they will be home at the end of one.

Now is The Time To Gather Exhibits

EDITOR HERALD

This is the best time for making collection of choice timothy and other forage grasses, grains and farm crops generally for use in the Klamath county exhibit at the Seattle exposition next year. The Klamath Chamber of Commerce has undertaken to provide whatever may be necessary to take care of exhibits selected from the crops of this year and keep them in condition to attract the interest of all homeseekers who visit Seattle during the big fair.

It is up to the people of Klamath county, who produce vegetables, fruit grains and forage crops, to select the best from garden, orchard and field. It is earnestly desired that men and women of each community of the county immediately look after collecting such products as should be preserved for exhibit purposes.

Very truly yours,

FRANK IRA WHITE,

Chairman Committee on Advertising and Exhibits, Klamath Chamber of Commerce

Season's Fruit Shipments.

Division Freight Agent C. A. Malboeuf of the Southern Pacific estimates the shipments of fruit from Medford and vicinity at 400 cars, practically the same output as in 1907. Had it not been for heavy frosts late in the spring which cut down the yield of some old orchards along the low places of the valley, the fruit crop would be much larger on account of the increased acreage in bearing.

Pasmores Please All Music Lovers

"Perfection of art," is the verdict rendered by all who attended the Pasmore concert last evening. The house was filled by a representative audience, and the high expectations voiced by the eulogies expressed by Mrs. Zumbalk to whom belongs the credit of introducing these talented musicians to us were more than realized.

From the first note of the opening Duetto trio to the last strains of Schubert's Serenade and Listen to the Mocking Bird, the concert was a perfect delight. This was evidenced by the applause which made it necessary for the young artists to play an encore after each number, which they did ungrudgingly, for they seemed as delighted with the audience as the audience was charmed with them. Not the least remarkable thing about them is their prodigious memory for they played the whole program and encores without the notes.

Where everything is above criticism it is hard to praise, but perhaps the most notable characteristic about their playing is their perfect ensemble. The three play, absolutely as one person. Nor are they lacking in technique. Miss Mary played the very intricate Wieniawski Polonaise with absolute ease, the almost insurmountable technical difficulties she dashed off with absolute ease. Miss Suzanne's left hand work, in the Chopin Etude was brilliant and as for Dorothy, in the Popper Tarantella, she got over the strings with just as much brilliancy and surety as her sisters. It is safe to say that several young people will take up the cello, for—as Dorothy Pasmore plays it—it is one of the loveliest of all solo instruments.

The program was made up of high class music throughout, and the Southern Airs, with which it closed, delighted the audience more even than did some of the numbers that went before. No one need apologize for liking these melodies, for the Pasmore trio has played them to the foremost musicians in Berlin. Some of these great musicians were so delighted with the melodies and their arrangement, that they repeatedly invited the trio to play them at social functions, etc.

Change in Methods Of Forest Service

In order to expedite and render more effective and economical the work of administering the National forests, field headquarters are to be established by the Forest Service in the West, and the clerical force needed to complete the organization will be mainly drawn from the force now employed in the Washington office. The change will take place not later than January 1, 1909, and will probably begin by October 1 of the present year.

At present the National forests are grouped under six districts with headquarters as follows: District 1, Missoula, Mont.; district 2, Denver, Colo.; district 3, Albuquerque, N. M.; district 4, Salt Lake City, Utah; district 5, San Francisco, Cal.; and district 6, Portland, Ore. These headquarters will remain unchanged under the new plan of administration. Each district will be in charge of an assistant forester who will deal directly with the Supervisor of the Forests of his district. Only questions of special importance will be submitted to the Washington office for action. In this way, the regular business of the forests will be much expedited, while the men who have charge of the business will be in almost constant touch with the users of the forests. The men to take charge of the several districts have not as yet been selected, but they will be chosen from those in the regular service force who have had the most experience in the work on the National forests.

Probably one-third of the clerical force now in Washington, mainly stenographers and typewriters, will go West to complete the organization required in each field district. It is expected that a sufficient number of clerks in the Washington office will desire assignments to the field headquarters, so that it will not be necessary to send to the field those who do not wish to go, and no new appointments will be necessary. In making selections for the new posts, the individual preferences of the clerks will be consulted so far as the work permits.

Ady Says Foreclosure Suit Is Prearranged Matter

When seen about the execution and order of sale for the swamp land owned by him, Abel Ady stated that the whole thing was merely a matter of form and that the party purchasing his interest in the lands was going through this legal process in order to avoid paying the government tax and to acquire title through a sheriff's deed. Mr. Ady stated further that the lands would not go on the market in any manner or shape and that they will be held as a body. He said no one was being hurt by the litigation and that the outcome would be satisfactory to all parties interested in the Ady swamp lands, and especially to him.

Much Railroad Activity.

Dorris is the scene of much activity in railroad circles. The foundation for the new depot has been completed and the workmen are now building the large stock corrals. The water tank is being built and the wells necessary to supply the demand of water have been bored. The track has been completed across the hill and work trains are now running to a point near the state line.

Merrill. Property is reasonable.

MEDFORD'S WATER PROBLEM.

Company to Improve and Lease System for Thirty Years.

Colonel Frank Ray, president of the Condor Water & Power company, Saturday afternoon made another proposition to the city council water committee on behalf of the company to supply the city of Medford with Rogue river water.

The new proposition is understood to embody many of the features of the one made last year. It calls for the construction of an agreed price of a pipeline from the Rogue, a filtration plant and two city reservoirs, all to be constructed at an approximate cost of \$200,000 less than that of the Wasson canyon project and take 30-year bonds in payment.

The company offers to lease for 30 years the entire plant from the city, including the distributing system, to guarantee the bond interest and sinking fund and to give the city a percentage of profit made, the rates to remain as at present or be increased as determined jointly by the city and company.

The advantages of the proposal are the low cost and the guaranteed bond interest and redemption fund, whereby the city runs no risk of increased taxation.—Tribune.

Telegraph Line Thoroughly Inspected—Activities Denote Early Arrival of Visitors

Notes From Dairy And Its Vicinity

Haying is in full blast at the Shook ranch and the crop is good.

Dairy school closed Friday. The evening entertainment was a decided success as has been the school. The entertainment was well attended, including many from the surrounding districts. Mr. Hall deserves much credit for what he has done here in school work.

Mrs. J. Horton was purchasing supplies for the hay camp on the Reservation this week.

Mr. and Mrs. B. M. Hall spent Sunday evening with John Shook and wife.

Sunday was too hot to try to tell the truth about it.

A good sized bunch of fat cattle passed this way Sunday going to the Horton ranch, and that gives us hope that the cash will soon come back to the pockets of the Klamath ranchers.

Crops are growing and the prospect, while not the best ever, is improving.

Dairy is on the map, and will give Taft and Sherman a big vote, although they won't need it.

The Bonanza creamery has four customers from this locality and to see them rushing in to overtake John Shook makes one think this a lively place.

Married—Irving Cutter and Lillian Caulman, in the state of Washington. Mr. Cutter left these parts last October and has not been heard from by his father until recently he received the above information.

Miss Zelma Sedge is making preparations to start for California to enter high school at Melrose. She will make her home with her aunt at Elmhurst. School begins there on August 17th.

Store Closed Tomorrow.

On account of "13" the Portland Store will be closed tomorrow.

C. T. Day, the chief electrician for the Southern Pacific, arrived in the city last night to look after the telegraph line between Pelican Bay and the main line of the railroad. Mr. Day is spending the day going over the line and will leave for his home in San Francisco as soon as he completes his work. He, however, states that he will be back here next Tuesday, which may be taken as a sure indication that the Harriman party will be here by that time.

Mr. Day states that he has no positive information as to when Mr. Harriman will arrive here, but it is generally understood that when Mr. Day shows up at a certain place it is a strong indication that the railroad magnate will soon be along.

Another thing that is conclusive evidence that the party will soon be here is that at Fort Klamath and at the Harriman resort all arrangements are being made for hunting trips and excursions. Horses are on the ground and bear dogs are in readiness for the chase.

The large touring car is being held for the party and will go to the terminus of the railroad to meet the distinguished visitors. It is known how large the party will be, but it is reported that Mr. Harriman will be accompanied by quite a number of Eastern friends.

Pasmores Tomorrow Night.

So well did the Pasmores please the large audience last night that a demand has been made upon them to give another concert. This will be tomorrow night and the seats for the occasion are now on sale at the usual place. The program will be one that will appeal to all lovers of music as did the entertainment given last night. Those desiring good seats will do well to reserve them at once.

Will G. Steel came down from Crater Lake last night. He says that many tourists are now visiting the lake and that the weather is delightful for an outing in that section.

All lovers of music will be at the concert tomorrow night.
