

MAY OPEN ART STORE

C. R. Miller One of the Best Photographers on the Coast Will Return to this City

Chas. R. Miller, an expert photographer of McCloud, California, who has been in the city for the past week has secured some very fine views of Klamath Falls and vicinity, among which is a panoramic view of Klamath Falls four feet long by one foot wide. The view was taken from the top of the hill on the Keno road and shows the city in every detail from the west side to the Hot Springs. Mr. Miller has done considerable special work for the Southern Pacific company and one of the panoramas will go to Wm. McMurray, General Passenger Agent at Portland.

Mr. Miller is recognized as one of the best scenic photographers on the coast and his line of Shasta views are the best ever taken. He states that he will return here in the spring and spend the entire summer here getting views of the country. On his return to McCloud, he says he is going to try and dispose of his property and studio and if successful he will move to Klamath Falls permanently and open up a modern art store with picture framing, etc.

He is very much impressed with the Klamath country and is anxious to return next year so as to get a complete line of views of this section. He was out east of the city this morning and got a view showing the Upper and Lower lakes, the river, Mt. Shasta, and Klamath Falls in the foreground. It is probable that he will purchase some residence property before he leaves and if he locates in the spring will buy business property for a store building.

They are prosperous and contented. They are keenly alive to the importance of the trust and railroad regulating activities of Mr. Roosevelt and what it means to the tillers of the land. They approve of them, and they know that Mr. Taft can be depended upon to lend his influence wisely and conservatively, but effectively, to the same end.

"There is no reason trying to make a farmer believe that the country is going to the dogs and a change of administration is needed when he has money in the bank, no mortgage on his place and possibly a few hundred out at interest," said a man recently who had traveled much of late through the middle west. "They aren't responding to Mr. Bryan's pleas, and they don't sympathize with his ideas. They are sure they owe their prosperity to Mr. McKinley, Roosevelt and the Republican party, and they are satisfied to let things run as they are. Why I heard of one farming section not far from Chicago where among 6000 persons there were forty-two automobiles owned. What reason have these folks for taking a chance politically by voting for Bryan, the untried theorist, against Taft?"

UNIVERSITY OF OREGON CORRESPONDENCE COURSE.

A new bulletin of the correspondence study department of the University of Oregon has just been received. The scope of the work has been greatly enlarged over the beginning made last year, and now covers courses in English Classics, Shakespeare, Pedagogy, botany, history algebra, geometry, trigonometry, analytic geometry and several courses in mathematics for teachers.

By means of this work any student who has not the time to attend college or high school can pursue, with hardly any cost, practically the same work by correspondence through the university courses, and receive credit for it. Thousands of dollars each year are sent out of Oregon to various correspondence schools and the university believes that a large part of this might just as well be saved to the people of this state. The enrollment of this department will reach 2000 students for the year.

HOW THE FARMERS WILL VOTE.

Nothing Problematical How the Tillers of the Soil Stand.

One of the most infallible indices to political conditions is supplied by the attitude and opinions of the farmers. If a politician wants to know how a state in which the farmer vote is a factor is going, he has to get back to the soil. Especial care has been taken to sound sentiment among the farmers in half a dozen states, including New York, Wisconsin, Minnesota and North Dakota. The farm-

TOMORROW'S PROGRAM FOR TEACHERS' INSTITUTE.

Thursday.
 9:00-9:15—Opening Address.
 9:15-9:25—Administrative Talk
 Judge J. B. Griffith
 9:25-10:10—Address
 Supt. R. F. Robinson
 10:10-11:00—The Personal Touch
 Pres. Harry M. Shafer
 10:50-11:00—Recess.
 11:00-11:30—Quick Work
 Prof. R. H. Dunbar
 11:30-12:00—Star Board and Other Divisions

 Geography—Miss Cornelia Marvin
 Arithmetic—Prof. R. H. Dunbar
Primary Grades.
 Busy Work—Miss Pool
 Geography—Miss Marvin

DAIRY ITEMS.

This section got the heaviest rain in many years Wednesday and Thursday. The first snow of the season fell here Thursday but soon disappeared.

The Yonka threshing machine was broke down at Chas. Liskey's at last accounts.

This is strictly a Roosevelt community; no race suicide indications here. This time the stork visited the home of Emil Flackus and left a nine pound boy, October 16th, and Emil is so proud as you never saw. Grandma Burgdorf is suffering with La Grippe.

Wm. Wight purchased a new wagon last week, which shows that the times are not so bad for a dry year.

P. H. Gray returned from Poe Valley Sunday where he has been digging spuds. He reports the crop very light and tubers small.

Miss Zelma Sedge has been very sick with an attack of bronchitis and asthmatic affection but is far enough recovered to be up again.

Mr. and Mrs. Charles Burgdorf went out to see the new boy at Emil Flackus' Sunday.

W. P. Sedge and wife took dinner at the home of J. R. Welch Sunday.

Mr. J. Dieckman and wife started for their new home in California Thursday.

Dan Liskey was around again this week with his pleasant smile and some beef.

Volney Dixon and Mr. Moore were in Dairy over night Friday, and Saturday called on a number of Yonka farmers soliciting orders for Page wire fence. We are informed that they got an order from Mr. D. P. Shook for 1000 rods. While here Mr. Dixon called on W. P. Sedge and family and together we had a good visit, having been neighbors in yesteryear times in Douglas County of this state. Mr. Dixon needs no introduction, but we can freely say he is a worthy young man and one who can be relied upon when he makes a promise. As he is presenting a good article we bespeak for him a share of the fence business of this country.

Miss Rosa Beck was trading in Dairy today and took a good horse load of supplies.

Geo. Ritter was in to make sure of his winter supply of overshoes. He believes in taking time by the forelock anyway, and has started his plow for next year's crop.

(We are too busy to write more this time.)

VIEWERS REPORT IS NOT UNANIMOUS.

The viewers appointed by the City Council to determine the damage to be awarded to E. B. Henry for the appropriation of his property for the opening up and extension of Sixth street, handed in their report to the City Attorney this afternoon. Fred Melhaase and W. T. Shive, two of the viewers, recommended \$100 as what they considered just damages. A. Castel, the other viewer, was in favor of paying \$500 for the property. Action on the report will be taken by the Council at the next regular meeting, and it is probable that they will accept the majority report.

F. H. Mills, attorney for E. B. Henry, stated that they would not accept \$400 as the city warrants were only worth 50 cents on the dollar and the damages would only amount in reality to \$200. Mr. Henry asked \$500 for the property.

GIRL GETS FIRST CHOICE IN ROSEBUD DRAWING.

The first name to be drawn in the Tripp county land lottery was that of May A. Metzer of Kennebec, S. D., who gets first choice of all the Rosebud lands thrown open by the government.

The drawing began Tuesday. Applicants to the number of 114,769 had registered for the lottery during the past four weeks.

Landseekers arrived early in big crowds to witness the drawing. A drizzling rain and heavy wind caused considerable discomfort but did not diminish the size of the crowd that thronged about the platform on which stood 21 sealed casks containing the applications.

With the arrival of the crowds of applicants, nearly all of them farmers, came scores of gamblers and "blimble riggers." Extra deputy sheriffs were sworn in to keep the thieves moving.

At 10 o'clock the little girls selected to draw the applications, were lifted to the screened platform, while the crowd cheered.

The metal casks were then broken open and the 114,000 and more applications were scattered on the platform and thoroughly mixed with potato forks.

Dema Rose and Virginia Wagner, the girls chosen to do the drawing, moved forward to be blindfolded. Miss Rose refused to submit to having her eyes covered. After a slight delay Judge Witten announced that owing to the girl's nervousness she would not be blindfolded.

Miss Rose picked the first slip. Miss Wagner followed, drawing the name of B. Swift of Ponca, Neb., from the mass of papers. The names of E. Nannen, Meadow Grove, Neb., and Otto Snyder, Mitchell, S. D., followed.

The drawing of the name of Miss Myers was received with cheers by the crowd. When the noise ceased the girls alternately plunged their hands into the pile of applications and drew forth the lucky white slips.

WILL ORGANIZE FARMERS INSTITUTE AT DORRIS.

Professor W. T. Clarke, Superintendent of university extension in agricultural topics, 1908-09, will address the people of Dorris October 25th and 26th, preparatory to the organization of a Farmers' Institute.

The subjects to be handled by Professor Clarke will be Agricultural Education, The Experiment Station and Its Activities, The Farmers Institute Movement, Good Roads, Planting and Care of Eucalyptus, Alfalfa, Establishing and Maintaining a Deciduous Fruit Orchard, The Walnut Grove, Irrigation and Conservation of Soil Moisture, Fertilization and the Use of Cover Crops, Spraying to Control Insect Pests and Fungus Diseases, Peach Blight, Present Day Insect Problems, and Insects of the Flower and Vegetable Garden.

Professor Clarke is accompanied by Professor Hopper, also of the State University, who will handle the subject of horticulture in all its phases, and by Dr. Mack, a veterinarian of wide reputation.

A movement was put on foot some time ago looking to the establishment of an agricultural experiment station at Dorris, and the Farmers' Institute which these gentlemen will organize here will doubtless answer every purpose. A tract of land comprising

INDIAN SHOT IN ROW

Dave Alexander Shoots Burnside in Hand With 12 Gauge Shotgun-Now in Jail

about fifty acres, lying just north of the city has been selected for the purposes of the station, and next season will see practical lessons in every line of agricultural and horticultural work.

KLAMATH'S REGISTRATION SEVENTEEN THIRTY-NINE.

Klamath County has 1739 voters according to the registration books which closed last night. The registration in the different precincts is as follows:

Linkville	830
Tule Lake	223
Lost River	144
Wood River	114
Dairy	109
Pleyna	98
Sprague River	66
Langel Valley	64
Poe Valley	34
Snow	24
Odell	22
Klamath Lake	11

Dave Alexander was arrested this afternoon by Sheriff Barnes for shooting an Indian named "Burnside." The Indian was shot in the hand by a 12-gauge shotgun. The shell was loaded with No. 6 shot and practically tore a hole through the palm of the hand.

Old man Alexander has long been a source of great annoyance and trouble to the city police. He has a shack near the O. K. Barn and it is said that he is continually causing trouble with a bunch of Indians which he allows to hang out there. The marshal has been called there a dozen times in the last week, but by the time he arrived the trouble would be over and he would find the Indians and Alexander cooking dinner. It is also alleged that Alexander furnished the Indians with whiskey and that is how the rows would start.

This morning Alexander made complaint to Deputy Sheriff Schallock that Polly, a squaw, had stolen his bridle. Later Polly wanted Alexander arrested as she claimed he had stolen all her things. The Marshal had had enough trouble with the outfit and refused to do anything unless she got a warrant. Apparently the Indians went back to the shack for shortly after two word was sent to the sheriff that they were having trouble. Marshal Low and Policeman Uerlings had just started in that direction, and before they arrived with the sheriff, they met Burnside coming with his hand nearly shot off. He was taken to Dr. Hamilton's office and Alexander was placed in the county jail.

It is hoped that some disposition will be made of Alexander that will rid the town of him for some time. He has been ordered to leave town many times in the past but always turns up again after a short absence. He has been arrested and placed in jail but would have to be let go as he was only an expense to the city. This time it is believed the officials will be able to send him to the pen.

ANOTHER ALFALFA MEAL PLANT

William Dougherty and C. M. Murphy, of Portland, are planning the establishment of an alfalfa meal plant near North Yakima with a capacity of 50 tons every 24 hours. They are now operating a plant at Echo, Oregon, and say the demand is greater than they can supply with the present capacity.

Dr. Frederick E. Cook is reported to be within 350 miles of the north pole. That is a little less than the distance between Klamath Falls and Portland or San Francisco, but—there are no railroads in the polar region.

On the whole, when one looks into the system of government at Washington and regards it from the standpoint of an impartial, tolerant citizen and critic, taking into consideration all the limitations of structure and constitution which prevent any government from becoming a perfect machine, he cannot but reach the conclusion that we are a fortunate people, who have progressed far in the development of an efficient public service and in vindicating the theory of popular sovereignty.—William H. Fair.

SPECIAL SALE OF FRUIT.

The Monarch Mercantile Company has 75 boxes of Peaches and 50 boxes of Tomatoes which will be closed out at \$1 a box. This shipment will be the last tomatoes this season.

THE MARRIAGE OF KITTY AT OPERA HOUSE TONIGHT.

Eckhardt's ideals are at their best in finished comedy. Tonight's play is a delicious comedy, containing real laughs, and a well constructed plot. The stage settings and costuming will be especially elaborate. This company has been here long enough to demonstrate that no matter what they put on, it is done well. New specialties and moving pictures will be presented. "The Flag of Truce," as presented last night was a treat, and was witnessed by a good house.

Our Tape Line is Ready For You

Have Your Clothes Made to Order

No two men are built exactly alike which makes it absolutely imperative to take measurements of the various parts of your body and have your clothes built accordingly. To have your clothes made to order by the master designers and tailors of America and pay less than so called swell local tailors charge is now your privilege. The modern, money saving way is to order your clothes through

Strauss Brothers' National Tailoring Service.

You will receive the kind of clothes which you can wear with equal pleasure to yourself and admiration of your friends. We have the exclusive local agency and are now displaying five hundred brilliant new Fall weaves. You'll be interested if you call.

K. K. K. STORE

NOTICE.

Owing to the condition of the roads it is necessary for us to advance the freight rate 10 cents per 100 pounds on all classes of freight until further notice.

From and after this date the joint rate between the Southern Pacific railroad company and the McIntire freight teams is cancelled and in future combination rates will apply.
