

**LARGE PROFITS RAISING CELERY**  
**SUITABLE SOIL HERE**  
**North Yakima Man Made Between \$1500 and \$2000 Off of One Acre**

It has been demonstrated this year that Klamath County can raise an excellent quality of celery, but very few realize the immense profits from this crop when properly and intelligently handled.  
John Sandmeyer, a market gardener at North Yakima, will make \$1500 to \$2000 off of an acre of celery this year. It had been generally conceded that the moist bottom land of the land presented the best field for suitable celery culture until this year, when Mr. Sandmeyer got the crop by taking over some land leased to two Japs. With an acre producing 800 dozen heads, selling at 30 cents a dozen at the lowest, Mr. Sandmeyer thinks he will plant the field to this crop another season.

**GALE HAPPENINGS.**  
The Thanksgiving dinner given at school house by the school was a great success. After a short program by the school and address by Rev. Johnson, a table laden with turkey, cranberry sauce and other delicacies was served. After spending some time in social circle all departed for their homes feeling that they had had the best of their lives.  
Mr. and Mrs. Grover Slate and Mr. and Mrs. C. J. Anderson went to Tule Lake hunting and returned with a large swan. Of course the ladies used it.  
Mr. Dalton's bucarosa brought up from the Clear Lake range 1300 head of young calves.  
Mr. and Mrs. Frank Hadley left today for Klamath Falls to be gone about a week. Ed. Hadley is here

taking care of the children during their absence.  
Herbert Anderson left for Santa Rosa, Calif. Saturday for a brief visit with friends.

E. C. Albin and Jack Anderson went to the railroad Saturday morning for Mr. Albin's household goods.  
Horace Hickman accompanied by Miss Della Gorking visited her old home of six years ago Sunday afternoon.

Steve Strikel and Claude Ramer brought up about 150 head of cattle for Mr. Tolle to feed during the winter.

Mr. and Mrs. R. S. Warden, and Mr. and Mrs. J. H. Hobbs.

Last Tuesday the members of Gale Sunday school met at the home of R. C. Anderson to practice songs for Thanksgiving.

R. C. Anderson is busy taking the school census.  
Rev. Johnson preached an able discourse at Gale Sunday at 2 p. m. and will hold services every two weeks hereafter.

Louis Telle who is attending High school in the Falls spent Thanksgiving at the home of his parent at Gale.

Mont Robinson has returned to Merrill to make his future home. That right Mont Gale Valley is all right.

Mr. Callahan and Mr. Eomswright are busy plowing nowadays.  
The government surveyors who are making the final survey of the ditch have reached Adams Point.

Willie Graham left his team standing and while he was gone they became frightened at some loose horses and ran away but H. T. Anderson caught them before any damage was done. Tie the horses next time Will when you leave them.

**MONGOLD INJURED BY**  
P. Lee excavating for a camp near the residence near the High School. He was using both black and giant powder in opening up the rock. It appears that the black powder went off alright but the giant powder did not explode until Mr. Mongold started to take away the covering. He was badly cut about the nose and right eye. White dressed the wounds and from an examination made this morning it is believed that the eye sight will not be injured.

## Local Elks Will Observe Memorial Day Next Sunday

Next Sunday, December 6th, is the Elks Memorial Sunday. This day is observed annually by the members of the B. P. O. Elks all over the United States. There being no lodge of Elks in this city the local members are unable to hold the regular Lodge oforrow but they have arranged an appropriate program which will be given in the Presbyterian church on next Sunday afternoon at three o'clock.  
G. Heitkemper, Jr., E. B. Hall and William Baldwin are the memorial committee and speaking of the matter today Mr. Heitkemper said:  
Our memorial services will be held next Sunday afternoon and I wish you would inform the public that they are welcome to assist us. We have arranged the best program possible for the proper observance of the day.  
Bro. H. L. Benson, a member of the Ashland lodge, will be chairman, and the Elks Tribute to the departed will be delivered by Bro. C. J. Ferguson, a member of Bendleton, Oregon, lodge of Elks. There are several musical numbers, consisting of vocal and instrumental selections. Mrs. Morgan, Mrs. Zantwalt, Miss Applegate, Miss Nickerson and the Rev. Geo. T. Pratt have kindly offered to assist us in carrying out our intentions in some way fittingly observe the day set apart to the memory of our Atiant Brothers. Remember we will be glad to have the public generally attend these services.

## PLANS ARE BEING MADE FOR MODERN HOSPITAL

### Mrs. VanBrimmer to Build on 7th Street Open to All Physicians of City

If present plans are carried out one of the greatest needs of the city will be filled and Klamath Falls will have a modern hospital for the proper accommodation and care of the sick and injured.  
Mrs. Van Brimmer is now having

**UNCLE SAM'S BIG JOB.**  
Panama Canal Commission Files Its Report

Washington, Dec. 1.—The Panama Canal Commission for the year ending June 30, 1908, shows the excavation at Culebra Cut for the year was 12,985, 138 cubic yards. It required fifty-nine steam shovels to do this.

It relates some of the troubles of the engineers in guarding against landslides, washouts and sinking dams. In one division of the canal, the Chagres Division, the canal crosses the Chagres River twenty-three times, making work slow and subject to overflow by floods. This made it necessary to construct auxiliary dams to protect the prism of the canal.  
During the year the width of all locks and dams was made 110 feet instead of 100, as originally provided.  
Regarding the Gatun locks, the report says borings disclosed the presence of an underground flow of water, but the engineers decided that if the foundations of the locks were run down to the soft materials, so as to divert the underground flow, the ground would bear the weight of the locks.  
It is evidently this underground flow which caused the dams to sink, as reported a few days ago from Panama.

**Municipal Work.**  
The work of the Municipal Engineering Division, the report says, consisted of the completion of the waterworks, sewerage system and paving in Panama and Colon, the cost of which is to be reimbursed to the United States through the collection of water rates in those cities, and of the construction of water works and sewerage systems, paving, grading and roadmaking in the Canal Zone. The total cost of the work done was \$1,067,150.52.  
Work in Panama and Colon, as originally planned, is practically completed. The total cost of the improvements in Panama is \$1,018,387.27, and in Colon \$894,275.17. In the Canal Zone there has been laid, to June 30, 1908, in connection with the water supplies, 462,951 feet of water pipe, to which 2,320 houses were connected, and 41 tanks, 2 railroad standpipes, 245 hydrants, 504 hose valves, 7 venturi meters, 36 small water meters, 117 public taps and 13 water cranes installed. Water is supplied from 4 reservoirs and 2 pumping stations, the former located at Rio Grande, Camacho, Gorgona

and Brazos Brook, and the latter at Tabernilla and Gatun.

**505 New Buildings.**  
During the year 505 new buildings were constructed; 1,147 American buildings repaired on account of the deterioration, and additions or improvements made to 275. The total expenditures for the year were \$2,056,138.91, and the average number of men employed was 2,366. The average pay for skilled and unskilled labor per hour was, for gold men, \$9.625, and for silver men, \$9.169. Of the total expenditures of this division for the year, \$2,181,913.39 were spent in the construction of new buildings, the largest item of which was the construction of quarters for gold employes, which cost \$982,771.56. The total cost of buildings constructed since American occupation to the end of the fiscal year has been \$9,824,989.15, of which amount \$421,882.64 have been spent for wire screening, with which all buildings are inclosed.

### HIGH SCHOOL NOTES.

The Sophomore basket ball team are going to play a game with the Junior team in the Gym Thursday at 7:30. This is the second game of the season.

A number of new magazines have been subscribed for by the students in the different rooms.  
The boys literary society will give its first program December 4th.

### OPEN FOR ENGAGEMENTS.

The Laam brothers, who have been furnishing music for dances at the Opera House, state that they intend remaining in Klamath Falls during the winter and can furnish music for dances or private entertainments. Word can be left with J. V. Houston.

### AT McHATTAN'S.

Some very pretty and new flat ware in sterling silver.  
Some very pretty quadruple plated silver articles.

Some jewelry that has no rival.  
Some jewelry that has no rival.

## WAITING FOR FIRST HOUSE BEING CONSTRUCTED

### Great Interest Taken In the Success of the New Ready Made Residences

The people of the city are watching with interest the building of the first ready made houses. The Company is now getting out the material for five houses which will be ready this month. One of these is to be placed on a prominent location on Main St. and will be for public inspection. Mr. Goeller has the panels and frames all ready and is only awaiting the arrival of the specially prepared hair insulator which is used between the panels. This insulator is filled with felting hair, the non-conductor for heat, cold and sound. It is damp proof and is covered with asbestos.

Mr. Shortt, the secretary of the Company, states that it is not necessary to follow any particular style in constructing the houses, but that they can be built from any special plans or designs which the purchaser may desire. He says he is very anxious to get one of the houses ready as soon as possible as every day he is receiving inquiries from parties who wish to build on their vacant property for next year. As soon as the insulator is received the Company will be able to commence their contracts for the houses.

The buildings will be warmer than most of the frame houses now being used in this city. The walls are double with heavy hair felting between and are lined on the inside with heavy burlap. The corners of the houses are insulated and made air tight.

feet and bolted. The frame will be as strong and substantial as the frame ones and can be fitted with baths and all necessary plumbing the same as any house.

The Ready Made House Company has the right for the state of Oregon, and it is surprising the interest that is being manifested in these buildings in other counties in the state. A large number of requests have been received from all sections of the state, to purchase the right for certain counties. The business men of Lakeview are now making arrangements to buy the right for that county, as they expect there will be a big demand for houses next year on account of the settlement of the lands by the Oregon Valley Land Company.
