MAIL ROUTE CHANGED.

With the order discontinuing the Ashland-Odesa mail route, which went into effect Monday, came another directing the transporting of the mail between this city, Odesa and Fort Klamath by boat. Contractor Yaden has made arrangements with the launch Curlew and J. H. Martin to handle the business for him. This contract will be in force for nine months of the year, after which it will likely be again transferred to Ashland. During this period the rural delivery route between this city and Fort Klamath will be discontinued. The mail has been going to Odesa and the Fort by boat for sometime, permission to do so having been granted by the government. Now that a contract has been let for the route and it is regularly established, the pony delivery service that has been maintained for a portion of the Fort route will be discontinued.

Butter prices were pushed up a cent and a half a pound, to 25 cents, in the local wholesale market today, the highest point reached at this period of the season in five years, and there is no assurance that the cost of this commodity will not be raised again before the end of the month.

The advance at this time is attributed by the buttermakers to the failure earlier than usual of the pasturage in the dairying districts. As a result of the exceptionally light rainfall in May and June this year, they say the grass dried up at least two weeks sooner than usual, and the cream supply naturally fell off in a serious way. At the same time the demand is as strong as during the flush season of production, and consumption if of course greater than in former years by reason of increase in population.

Some of the buttermakers hold that the output for the State this year will be little if any greater than that of last season. At this time a year ago standard city creamery butter was selling at 25 cents a pound. Two years ago the price was 27 1/2 cents. At this time in 1905 and 1906 it was going to 21 1/2 cents a pound, 6 1/2 cents under the present price.

The trend of butter prices is always upward at this time of year, but this season the conditions that make for higher prices are a little more marked than usual.—Portland Telegram.
