

Oh, Yes, Believe Me, Jeff Thoroughly Understands the Pure Food Law Now - By "Bud" Fisher

R. C. SPINK, The Jeweler
Agent for Crescent and Jas. Ross Filled Cases

THE MEANING OF "GOLD FILLED"
By far the greater number of men and women who buy gold watches choose a gold-filled case. Gold-filled means two layers of solid gold stiffened with a layer of metal alloy between. It makes a firmer case than a gold one, and costs less.

If the two plates of gold are heavy enough they will wear for many years. But, you see, the temptation to irresponsible manufacturers is to roll the gold layers to a mere film and increase the base metal.

What is worse, the makers of shoddy filled cases can stamp it "Guaranteed 50 or 60 years," and there is no law to prevent him. Remember, when you buy a watch to inquire about the case. Remember, also, that the guarantee stamp is no safeguard.

Fortunately there is a way you can protect yourself—a way you can be sure of the value. Demand a filled case made by the people who make the finest gold-filled cases in the world. That means a "Crescent" filled case or a "Jas. Ross" filled case, both made by the Keystone people, who produce the Keystone solid gold cases. These cases are backed by 50 years of service.

Piling Up Money

Is not difficult if it is done about systematically. For instance a few dollars deposited regularly in the First Trust and Savings Bank will grow into a goodly sum in a surprisingly short time. The interest grows, too, with each additional deposit. If you want to have money you must save it. You'll never have any if you spend all you make.
