MILLS ADDITION IS STRONG FOR RAILWAY

(Staff Correspondent)

Geo. B. Frank in speaking of the city railway, believes that the only course for the road to take is, starting in at the depot, run from Spring street to main, along Main to Conger, up Conger and California avenue to Shippington, returning through Fairview, then north of the canal to the Crescent to Mausantia; thence to the Esplanade through the Hot Springs addition, crossing the canal at the head of Stibel avenue, Mills addition; extending the whole length of the Mills addition to Sixth street; thence along Sixth street to Spring to the place of beginning, forming a complete circuit of the outlying districts.

Mr. Frank is very enthusiastic over the railway proposition, and believes we should all support it, provided the people's rights are properly safeguarded. The whole of Mills addition might be said to hold the same view of the matter.

S. J. Bailey, late of Corning, Calif., who succeeded Mr. Mills as agent for the Southern Pacific here, is already a boomer for Klamath Falls, and particularly for Mills addition, where he is going to reside. Mr. Bailey says this country looks good to him, and that he will tell his friends about it. Speaking of the business handled by the Southern Pacific here, he says that although he has a full force of men, the volume of business is so great that his men are rushed all the time. Mr. Bailey seems to be the right sort of a man for a growing city like ours.

No one, possibly, has done more for the Mills addition than has William McCabe, who owns the only mercantile establishment in this part of the city. His store is a great convenience, not only to Mills addition, but also to the residents of Mills Second addition and the new Ward-Nelson addition. The store is located on the county road, and is within easy reach of all these additions.

Pretty Wash Dresses for Girls

Among the recent New York purchases made by us came a generous shipment of pretty little everyday dresses for girls of 6 to 14 years; and busy mothers with little or no time to make up such good dresses at home should make it a point to see these and learn the very small prices we ask. These are dresses of sturdy ginghams in cute little checks and plaids; galateas, too, and pretty percales in plain colors with colored piping in pretty contrast. Low necks or high necks; skirts in dainty girlish plaits; especially fine values.
