LOUIS HILL TO COME TO CITY RUBIES FOUND IN NEARBY MINE

RAILROAD MAN WILL SPEND CONSIDERABLE TIME TOURING OVER THIS SECTION—WILL GO TO LAKEVIEW

L. W. Hill, "the man who made the West," will be in this city soon. The famous son of the builder of the Great Northern is expected to arrive in Oregon within a week, and a message from St. Paul says that he will spend a month touring Oregon.

Mr. Hill is particularly interested in Central Oregon, where he has large land holdings, and where the Hill lines are spending millions in dollars in railroad extensions.

Mr. Hill will be accompanied West by his family and the family of W. P. Davidson, president of the Oregon and Western Colonization company, owner of immense tracts of land in the central part of the state. The Hill and Davidson families will spend the summer at the Hill place, near Puget Sound.

His intention to attend the annual meeting of the Central Oregon Development League at Lakeview, August 22, 23 and 24, has also been signified by Mr. Hill, and he will go with the party from Portland, as will about two other prominent railroad men.

Mr. Hill has expressed a desire to visit Crater Lake and other points of interest in the Klamath country. He will probably make this city his headquarters while on these side trips.

It is expected that during his visit here he will make known the plans of the Hill lines regarding the extension of the Deschutes branch. It is known that active construction work has been started, but nothing definite has yet been announced as to the route of the proposed line.

F. A. SMITH BRINGS SAMPLES OF ORE TO THE CITY FROM SHAFT SUNK BUT TWO AND A HALF MILES FROM CITY

F. A. Smith came to the city this afternoon, bringing with him samples of ore found in the shaft now being sunk in the prospect on the Smith dry ranch, about 2½ miles east of this city. The specimen is clean shipping galena.

"We have struck some good looking ore in stringers," said Mr. Smith, "and are now drifting to strike the lead. We have found some very fine rubies in the shaft recently, and this, we think, is a good indication."

DARROW DEFENSE GIVEN BLOW BY JUDGE HUTTON

DARROW DEFENSE IS GIVEN A BLOW WHEN COURT ALLOWS PROSECUTION TO ASK DEFENDANT IMPORTANT QUESTIONS

United Press Service

LOS ANGELES, Aug. 5.—On the opening of court this morning Judge Hutton ruled that the state had the right to ask Clarence Darrow if he had held a conversation with Harrington in a local hotel when a dictograph had recorded the conversation.

The ruling did not indicate how the court will rule on the question of admitting the dictograph testimony in evidence if the prosecution attempts to introduce it in evidence on rebuttal to contradict Darrow's testimony.

It is expected that Darrow will complete his testimony this afternoon.

SWITZERLAND IS "RENO" OF CONTINENTAL EUROPE

GENEVA, Aug. 5.—It is more difficult to get married in Switzerland than it is to get divorced, and profiting by the fact that it only costs about \$10 to secure a dissolution of the marriage tie, Swiss couples have placed their country an easy first in the divorce statistics of Europe.

Last year the proportion of divorces in Switzerland was 4% per 100,000 of the population. France comes second, with 3% per 100,000. Denmark third, with 2%; Germany fourth, with 1%, and other countries in the following order: Great Britain 17, Norway 15, Holland and Belgium 14 each, Sweden 10, Austria 9 and Finland 6.

SUMMER RESORT GREAT FEATURE

FORMER RESIDENT HERE ON A VISIT SAYS IT IS WORTH COMING HUNDREDS OF MILES JUST TO GET COOL

R. R. Talley arrived in the city last evening from St. Louis, and will spend a few weeks on the Upper Lake on an outing and fishing trip. Mr. Talley formerly resided in Klamath Falls, and was at one time connected with the advertising department of the Morning Chronicle.

"We have struck some good looking ore in stringers," said Mr. Smith, "and are now drifting to strike the lead. We have found some very fine rubies in the shaft recently, and this, we think, is a good indication."

"You are not making enough of your summer resort feature," said Mr. Talley. "It is worth coming as far as I have to be able to enjoy catching some of your sun, and just to get cool. There are plenty of people who can afford it, and undoubtedly would come here from all over the United States, if they knew it was possible to get away from the extreme heat of the East."

Mr. Talley states that in his travels he finds business on a conservative basis throughout the East and Middle West, but expects to see a great deal of money put into circulation this fall. "It is currently known," he says, "that all over the United States that crop prospects are the finest ever. I have been from the Pacific to the Atlantic in the last three months, and the business industries of the East and Middle West are active, but conservative. There is not any panic, and there will not be any. I believe the shortage of crops last year in the Middle West had a good deal to do with forcing business to be conservative, but the magnificent crops of every kind all over the country is bound to put money into circulation immediately. They have already begun to market their crops in the South, and money, as a result, is loosening up."

It is expected that Darrow will complete his testimony this afternoon.

HECTOR SAYS CROPS ARE LOOKING FINE

O. M. Hector, after a trip down the river and through the valley in the vicinity of Merrill, declares that he saw but little indication of damage to the crops by the rain storm Friday night.

"A little grain is damaged in places," said Mr. Hector, "but the benefit accrued by the rain more than offset whatever damage was done."
