KEEP THE STUDENTS AT HOME

They have been forced, under a system prevailing since 1873, to ask each legislature for funds with which to operate during another two years. The Oregon Agricultural College has been compelled to do the same. These maintenance bills have frequently become the storm center of the political struggles within the legislature. The university and the agricultural college, therefore, have constantly been accused of engaging in politics, and of the unacademic practice of political trading, and their dignity and usefulness have been correspondingly impaired. Passage by the 1913 legislature of the millage bill provided for automatic maintenance of each institution after next year. A fraction of a mill on each state levy was set aside for the university, and a slightly larger fraction of a mill for the agricultural college. Thus, as the state grows, the two great schools are expected to expand. The legislatures since 1908 have at each session passed bills providing such additional room, but each time a band of persons hostile to the university on personal grounds have invoked the referendum. This year, the university, with double the attendance it had in 1908, and with the largest freshman class in its history, is holding classes in all sorts of unsuitable places, while waiting a favorable verdict from the people so it can build. To the University of California alone this fall went seventy-four students from Oregon. To the University of Washington, to Leland Stanford University and to numerous Eastern institutions, went hundreds of others. These students should be kept at home and educated to understand and to assist in solving the problems of their home state. They are, however, loth to register in an institution where the voters have not yet frowned upon attempts to kill it, and where the "No Room" sign may have to be hung out at any time. To sustain the two modest appropriations, the money for which is already provided, vote "Yes." To vote "No" is to vote for the referendum.

The average area administered by a ranger on the federal forests of the United States is about 100,000 acres. In Germany the area administered by a man of equivalent rank is about 700 acres. During the first four months of 1913 there were slaughtered in La Frigorifica Uruguay and the Frigorifica Montevideo 48, 121 cattle and 212,655 sheep, a monthly average of 12,000 cattle and 53,000 sheep.

Captain Munns, Cornell

Here is Captain Munns of this year's Cornell eleven. After the disastrous season of last year, Coach Al Sharpe is endeavoring to whip a team into shape that will deserve the title of "The Big Red Team." He is counting heavily on Captain Munns, who, playing a guard position, is a tower of strength to the Cornell line. This is Munns' third year on the team.

EDDIE SANTRY TO RE-ENTER RING

WORLD-FAMED LIGHTWEIGHT WILL EMERGE FROM RETIREMENT SATURDAY IN A BOUT BEFORE CRESCENT FANS
Although he retired from the boxing game several years ago, and has since kept entirely away from it, Eddie Santry, who a few years back had all of the lightweights training hard to stay in the running with him, has decided to "come back." He will appear before a crowd of fanatic fans at Crescent next Saturday, having as his opponent the most prominent scrapper that Tommy Tracy, the veteran Portland instructor, can send to Northern Klamath. When he was in the fighting game Santry exchanged fistcuffs with the best of them, and from the start of his career was rated as a coming champ. He came mighty close to wearing the title, too, but he quit the ring in the heyday of his popularity. He is remembered by all the fight followers as a comer, but never recalled as going back. For several years he has been in business in Crescent, where he boxes Saturday. A good wrestling bout will be staged as a preliminary.

The water is taken from a spring in Section 19, township 29 N., range 11 E.

QUIT MEAT WHEN KIDNEYS BOTHER

TAKE A GLASS OF SALTS BEFORE BREAKFAST IF YOUR BACK HURTS OR BLADDER IS TROUBLING YOU
No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headache, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness. Jad Salts is inexpensive and cannot injure, makes a delightful effervescent lithia water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.
