OIL TRACES ARE
SEEN IN ASTORIA

MAN DIGGING A WELL STRIKES
VEIN OF PECULIAR SUBSTANCE
WHICH BEARS A STRONG TAIN
OF KEROSENE

(Herald Special Service)
ASTORIA, June 12.—Alfred Jurmu,
who owns a lot or two upon the
very crest of the Astoria peninsula,
was engaged in digging a home well
on his place, and on reaching a depth
of twenty-three feet and striking a
heavy blow to remove an obstinate ob-
struction, his pick sank into what ap-
peared to be a live vein of crude oil,
as the stuff began to exude slowly,
but in a definite and continuous flow.
Mr. Jurmu is happy in the belief
that he has struck what may prove to
be an indication long looked for in
this part of the lower Columbia.
The samples Mr. Jurmu selected
bear a strong taint of kerosene.

OF MINERAL SPRINGS — BIG
CELEBRATION IS HELD

Ashland joined the ranks of progress
by a vote of 1,284 for to 398
against, in passing the \$77,000 bonds
for the development of the mineral
springs fathomed by Bert R. Greer,
and opened the gates for the coming
of hundreds of tourists.

Never in the history of the city was
so much enthusiasm shown over a
local project, and when the result
was made known a celebration was
held like unto a Fourth of July—Med-
ford Sun.

Some Sidelights From Vera Cruz

Interesting Little Tales of Incidents and Conditions at the
Mexican Port Where the American
Flag Is Waving

By WILLIAM G. SHEPHERD
(United Press Staff Correspondent)

VERA CRUZ, June 1.—(By mail to
New York)—If war comes it won't be
secret war. There will be no hidden
monstrous things buried in the ar-
chives of the war department away
from the sight of the American peo-
ple. This much in respect to the
question of public-ity has been de-
cided by Secretary Garrison.

The white light
of American jour-
nalism is to be
constantly fixed on
the American army in the field, and
the scrutiny of the correspondents is
not to be limited in any way. It is
realized in Washington that more of
the possibilities of war scandal lurk
in secrecy than in full publicity, and
the general in a Mexican campaign
who tries hiding facts or conditions
will find himself accountable to Wash-
ington.

But this doesn't mean that the
American public is to get its news
hot from the front. In fact, it won't.
The truth is that in the game of war
under the newest rules war corre-
spondents aren't wanted. War col-
leges, great European tacticians, strat-
egy boards—all the men and organ-
izations in civilization, who lay down
the rules for warfare, agree that war
correspondents ought not to have a
place in the game at all. In the Eng-

lish army war correspondents have no
standing; they are not given passes
even for the annual maneuvers. The
same is true in Germany and France.
The vote of army men is unanimous
that the war correspondent is danger-
ous, and must be done away with, as
far as possible.

The United States, however, if war
comes with Mexico, is going to try a
new tack. The war department's plan
is to permit war correspondents to ac-
company the army, but to place them
in the rank of officers, subject to the
slightest orders and wishes of the
commander.

The hob that an observant and un-
checked war correspondent can raise
in war time is tremendous, in those
days of the wireless. The smallest
facts which he might send to his pa-
per in some distant city regarding the
movements or whereabouts of forces
is sure to be seized upon, when it is
published, by some agent of the en-
emy, who will send the news around
the world, if necessary to get it to the
enemy.

The only way to check the war cor-
respondent is by censorship. And so
every word the war correspondent
with the army writes for the cable,
every letter he writes home, to his
mother, his sweetheart or his man-
aging editor, will be passed upon by a
censor. On the other hand, the new
regulations for war correspondents
provide that they may move about as
they please inside the American lines,
and they particularly specify that
after the war is over and there is no

further need of keeping facts from
the enemy the correspondent may cut
loose and write as he pleases.

The specifications provide, particu-
larly, that a war correspondent may
entertain whatever opinion he pleases
during warfare and that the specifica-
tions are not to be taken as meaning
any interference with free thinking
and full and complete note taking.

Incidentally, no correspondent who
starts out with a field army is to be
permitted to return to the United
States without special permission of
the war department. This is to pre-
vent any correspondent from yielding
his place at the front in order to
get back to the United States with a
story that might aid the enemy.

Grouchy, critical, dyspeptic men,
who are inclined to think that the best
kind of stories is the kind that criti-
cizes and who throw the yellow light
of bilious fault-finding instead of the
white light of truth on the activities
in the American camp, aren't wanted.
Fellows of this sort will be weeded
out before credentials are given.

Jolly, optimistic, good-natured,
healthy-minded, sensible, strong-bod-
ied young men, who know that war
is war and that a general must win,
even if a battle does turn into a
rough-and-tumble fight in which
rules must be thrown to the winds and
everything done to succeed—they're
the kind of men who make the best
war correspondents. They wind up,
at the finish, with the best stories,
the most truth, and the best personal
records.

Grape street, Medford, Ore., says:
"The action of my kidneys was ir-
regular and the kidney secretions
were unnatural. I had much pain
in the small of my back and some-
times I could hardly bend or
straighten. At night the trouble
bothered me and often I couldn't
sleep. I tried plasters and liniments,
but nothing helped me. When al-
most discouraged, I heard of Doan's
Kidney Pills. In less than two weeks
after I began taking them, I felt bet-

Doan's Kidney Pills and they made

WHITE BREAD
Sponge Method

Try the following recipe prepared by Professor Joseph Becker,
the world's greatest chef. Professor Becker made a careful test of
CRATER LAKE Flour for us and we guarantee results if his
directions for its use are followed:

One cake Fleischmann's yeast, 1 1/2 quarts lukewarm water, 2
tablespoonfuls lard or butter, 1 tablespoon salt, 4 1/2 quarts sifted
Crater Lake flour, 2 tablespoonfuls sugar. Dissolve the yeast and
sugar in one quart of the lukewarm water, and add to it 1 1/2 quarts
of sifted Crater Lake flour, or sufficient to make an ordinary sponge.
Beat well. Cover and set aside to rise for about 1 1/2 hours in a warm
place. When well risen add to it the pint of lukewarm water, lard
or butter, the remainder of the flour, or enough to make a moder-
ately firm dough, and lastly, the salt. Knead thoroughly, place in
greased bowl. Cover and let rise for from 1 1/2 to 2 hours. When
light, mould into loaves and place in well greased baking pans, cover
and let rise again for about an hour. When light, bake 40 to 50
minutes, reducing the heat of the oven after first 10 minutes. This
recipe makes four large loaves. The whole process takes from 5 1/2
to 6 hours, and if followed closely, will produce excellent results.

Judge Bennett Held
Prisoner by Auto

THE DALLES, June 12.—Judge A.
B. Bennett of this city, while on his
way home from his ranch at Antelope
to The Dalles, was caught under his
auto, which turned turtle near Moro,
and held under the machine for an
hour, in imminent danger of death
as gasoline leaked into his face, and the
motor kept running, threatening to
set fire to the leaking gasoline, be-
fore any damage was done the mo-
tor stopped of its own accord.
Bennett was held under his ma-

chine for an hour until a party on
the way to church at Moro came along
and released him from his predic-
ament. They immediately in turn
the machine back to its wheels,
and as it was not seriously damaged
he drove it into the city.

Judge Bennett was injured and cut
by broken glass from the windshield,
but otherwise was unhurt.
Mr. Bennett was nominated in the
recent primary for the nomination
for governor in the Democratic ticket.
