

Oxford University Has State Box Factories Begun Sessions Today Use 78,939,000 Feet

United Press Service
OXFORD, Oct. 8.—Oxford opened today, despite a great decrease in attendance, due to a big part of the student body having joined England's army. The total enrollment at the school is not expected to exceed 1,000. The students absent on military service will suffer no loss in their standing as a result, it was announced.

The time spent in serving their country will count as time in residence at Oxford, if the undergraduates so desire. American students entering Oxford for the first time are expected to receive a great deal more attention this year. They are expected to be more of a force in the school. All students will spend each day in drilling for military service.

As a part of a study, national in its scope, the forest service, in co-operation with the National Association of Box Manufacturers, has just issued a little circular which gives some interesting statistics in regard to the kinds of wood used in the manufacture of boxes.

According to this circular, box makers use annually 4,547,973,180 feet of lumber, 69 per cent of which is soft wood and the balance hard wood. Virginia uses the largest quantity of wood for boxes, while the Dakotas use the least, the former heading the list with 431,923,887 feet, board measure, annually, and the Dakotas bringing up the rear with only 18,667 feet, board measure. Oregon and Washington rank about the middle of the list with 78,939,000 and 91,484,500 feet, board measure, respectively.

Notice of Poundmaster's Sale
Notice is hereby given that on October 2, I impounded the following described animal:
One brown horse, about 8 years old, branded T1, connected on left shoulder.
Unless this animal is called for before 2 p. m. on October 10, it will be sold at public auction to the highest bidder.
ED OWENS,
Poundmaster.

Diplomats in Rome say they expect Russia to declare war upon Turkey unless Turkey demobilizes.

General Smith-Dorrien, Britain's Military Hero

General Smith-Dorrien, Great Britain's new military hero, is here shown with his staff. In the photograph he is standing at the left, looking over maps of the country through which he was fighting. The photograph was taken while the British were retreating with the French from Belgium toward Paris.

this purchase before entry, or initiate a contest at any time before patent issues, by filing a corroborated affidavit in this office, alleging facts which would defeat the entry.

First Bust Made of Benedict XV.

This bust by Giletta, an Italian sculptor, is the first for which Pope Benedict XV has sat since he was elected to the place last month. It is a much different portrait of him than the photographs sent to the United States have shown. In fact, it is so greatly dissimilar to the photographs that he would hardly be recognized as the same man.

importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days, and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia water drink which every one should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

GLASS OF SALTS CLEANS KIDNEYS

IF YOUR BACK IS ACHING OR BLADDER BOTHERS, DRINK LOTS OF WATER

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital

NATIONAL DEMOCRATIC AND REPUBLICAN LEADERS ARE OPPOSED TO PROHIBITION

WOODROW WILSON

Says:
"I am in favor of Local Option. I am a thorough believer in LOCAL SELF-GOVERNMENT, and believe that every self-governing community which constitutes a social unit should have the right to CONTROL the matter of the regulation or the withholding of licenses."

WILLIAM HOWARD TAFT

Ex-President, Statesman, Jurist and Professor, in an address on Civic Duty, said:
"Nothing is more foolish, nothing more utterly at variance with sound policy than to enact a law which, on account of conditions surrounding the community, is incapable of enforcement. SUCH INSTANCES ARE PRESENTED BY SUMPTUARY LAWS BY WHICH THE SALE OF INTOXICATING LIQUOR IS PROHIBITED under penalties in localities where the public sentiment will not sustain the enforcement of the law."

WITH THESE AMERICAN LEADERS AGREED ON THE ISSUE, ISN'T IT WISDOM TO FOLLOW THEIR COURSE?

Register Before Thursday, October 15
VOTE 333 X NO

Defeat of the proposed prohibition amendment will have no effect upon the efficient home rule or local option statutes now in force, and each community will continue to determine its individual stand on the matter of granting licenses.
