

# Weights and Measures Law Results in Fairness

SALEM, July 7.—Since the new weights and measures code became effective, 9,113 scales have been inspected, and more than one-third of them were found inaccurate, according to the annual report of Fred G. Buchtel, head of the state weights and measures department. The report covers a period extending from May 22, 1915, to May 22, 1916, and does not include inspections made in the city of Portland.

Of the total number of scales inspected 6,001 were found accurate and 3,112 incorrect. One thousand, five hundred and ninety-six of the latter were adjusted and sealed; 1,380 condemned and 136 passed for further inspection.

During the same period 9,765 weights were inspected, and 9,179 were found correct. The remainder, 586, were condemned. Out of a total of 1,097 liquid measures inspected, 985 were accurate and 112 were condemned. Gasoline and oil pumps aggregating 620 were inspected, 496 found accurate and 124 inaccurate. Ninety-five of these were adjusted and 29 condemned. The total number of linear measures inspected was 833, and 764 of them were found correct. Thirty-one of the inaccurate measures were corrected and 38 condemned. On request, 968 cords of wood were measured. During the year there were sixteen prosecutions for violations of various provisions of the code.

"It has been the policy of the office to endeavor to correct abuses by a campaign of education rather than by prosecutions, and complaints have been filed by the sealers only after other means failed," says Chief Deputy Sealer Buchtel in his report, in commenting on the prosecutions. "One of the principal results accomplished during the year was the putting in effect of specifications governing the manufacture, sale and use of inaccurate and faulty constructed apparatus, the use of which, if allowed, would have been detrimental to the public welfare. Under them the old-style family scale is rapidly being eliminated from use in trade; numbers of the earlier types of computing scales, having charts of obsolete construction, have been re-charted correctly, and more serviceable and better apparatus in general is being used throughout the state.

"The large majority of weights tested was found to be accurate, condemnations amounting to only 5 per cent of the whole. In addition to the scales, weights and measures tested, inspections have been made of sand and gravel wagons, oil wagons, tanks, hop baskets and various devices commonly used as measures in gauging the quantity of the commodity contained therein. Under the authority granted by the specifications 72,000 milk bottles have been inspected, insuring to consumers the delivery of milk in accurate measures, and protecting the creamery men and dairy men by excluding from the Oregon market inaccurate and improperly constructed bottles.

"Laws providing for standard berry boxes were passed by the 1915 legislature, the penalty becoming effective November 22, 1915, and the office began active enforcement with the appearance of the first berries on the market. California's weights and measures officials were notified, the various berry growing districts in Oregon visited, the principal commission merchants and stores called upon, thousands of boxes examined, and every precaution taken, to insure the sale of properly filled and standardized boxes."

## ABNORMAL CALF ON EXHIBITION

FREAK IS ALMOST TWO CALVES IN ONE, AND ATTRACTS MUCH ATTENTION AT THE GUN STORE WHERE SHOWN

What is probably one of the most peculiar calf monstrosities ever known was born recently from a cow owned by George Madden, a stockman on the Dorris road. The phenomenon is almost two calves in one, being a fairly well developed male and female for some distance back of the front legs. Then the freak converges into one body, with three irregular hind legs and two half developed tails. The monstrosity has seven legs and eight hoofs, two hoofs having formed on one hind leg. Barney Chambers has purchased the freak and has it on exhibition at the Gun Store.

## Frats Figure in the Presidential Race

NEW YORK, July 7.—Greek letter fraternities, say college boys, are playing strong in college politics. Perhaps they have flimmed their way into the national game.

Charles Evan Hughes, the G. O. P. presidential candidate, belongs to the Delta Upsilon crowd.

Frank Hitchcock, the man who "did it," also wears the Delta U. emblem.

Major Crossett, major domo at the Hughes headquarters, is a national officer of the Greek letter organization which Hughes is a member of.

It may be that the whole thing was plotted at some mystic hour in the chapter "tomb."

Over 800 men employed on government work at Liverpool were discharged en masse, and replaced by invalided soldiers.

## Boys on Rio Grande Getting Soup

Thousands of American men and boys who never before ate except on a nicely laid table, will, this week and for some more weeks, stand in line on the Rio Grande to get their soup hot from the cook wagon.

## Wants School to Teach Respect the for Laborer

NEW YORK, July 7.—The Gary plan of school administration, the obligation of educational systems to union labor and peace had their innings in the discussions of the National Education Association meeting here today.

William A. Wirt, superintendent of the city schools of Gary, Ind., discussed the Gary plan as organized in his home city and as administered in twelve of the leading public schools in the Bronx, New York city. The Gary plan, he declared, has extended in some form or other to most of the leading school systems in the country.

Samuel Gompers, president of the American Federation of Labor, advocated training in the schools for efficient work and the teaching in the schools of the doctrine of respect for the rights of the man who carries a dinner pail. Dr. John Dewey, professor

of education, Columbia University, addressed the association on "Nationalizing Education." Simon D. Fess, member of congress from Ohio, advocated the establishment of a national university at Washington.

One of the really belligerent meetings is the meeting of the American school peace league. Fanny Fern Andrews, secretary of the league, insists that public school training must finally make for peace at any price. Delegates to the peace league and prominent educators who are guests at the annual banquet in the Hotel Astor differ as to the educational program to best lead to the establishment of peace with honor.

"The formation of an effective world peace court, so nearly accomplished at the second Hague Conference," declared Miss Fern Andrews, "should be emphasized as an ideal for which the world has hoped and waited."

## JERRY MARTIN IS WEDDED, RUMOR MERCY SHOT FOR DYING AMERICANS

FORMER KLAMATH FALLS YOUTH WAS MARRIED LAST MONTH TO AN EASTERN GIRL, SAY EUGENE FRIENDS

According to a report current in local University of Oregon circles, Alex Martin III, better known as "Jerry" Martin, is married. The wedding is said to have occurred last month in the East, where Martin has been attending school, and the news did not reach his parents at Eugene until this week.

Martin resided in Klamath Falls for many years, attending the local school. He is the son of Alex Martin, formerly connected with the Klamath County bank.

The Bishop of Derby was fined \$5 in London for allowing a bright light to shine from his study window at midnight, thus violating the anti-Zeppelin darkness law.

A new fire fighting tool has been invented by a forest ranger in California, which consists of an interchangeable hoe and rake. It is said to be the best tool of the sort yet devised.

You can get any size check cashed at any time at K. K. K. Store. Bring your pay checks to us. We have established a special department to cash checks. — K. K. K. Store, Leading Clothiers. 16-17

BODIES OF AMERICANS KILLED AT CARRIZAL BADLY MUTILATED AND HEADS TORN AWAY

EL PASO, July 7.—The bodies of the American soldiers killed at Carrizal, which arrived yesterday, were badly mutilated. The heads of several of the victims were partially torn away. Apparently the mercy shot was given to all of the soldiers found dying, as many of the bodies had numerous bullet holes in them. Captain Boyd, Lieutenant Adair and seven negro troopers, all of the Tenth cavalry, are among the victims.

Notice Inviting Bids  
Notice is hereby given that the county court of Klamath county, Oregon, will receive bids up to and including August 1, 1916, for the furnishing of 25 cords of 16-inch body wood and 25 cords of 16-inch limb wood, same to be cut from live timber and thoroughly seasoned and neatly piled in the court house yard. Delivery to be made not later than September 15, 1916, except 5 cords of each to be delivered at once. Certified check amounting to 5 per cent of bid must accompany same. The court reserves the right to reject any or all bids. Dated this 7th day of July, 1916. By order County Court. C. R. DE LAP, County Clerk. 7-14-16

## CHARGE FRAME-UP IN ORPET CASE

PHYSICIAN DECLARES THAT THE THREE CYANIDE SPOTS ON THE GIRL'S COAT WERE NOT MADE AT TIME OF DEATH

United Press Service  
WAUKEGAN, July 7.—Dr. William J. McNally, testifying in the Orpet murder case, today declared that three cyanide spots found on the coat of Marion Lambert, with whose murder Don Orpet is accused, were not made at the time of the girl's death. The defense claims that the spots are a frame-up.

## Case After Case

Plenty More Like This in Klamath Falls  
Scores of Klamath Falls people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is a case of it. What better proof of merit can be had than such an endorsement? M. G. Wilkins, 638 Grant street, Klamath Falls, says: "I am subject to backache at times, and then my kidneys are more or less irregular in action. After taking Doan's Kidney Pills a few days, my kidneys act perfectly regular and my back feels as strong as ever. I advise anyone who is suffering from backache and kidney disorders to give Doan's Kidney Pills a good trial, for I know they are very reliable." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Wilkins had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

Experiments with jack pine have shown that it is well suited for making kraft paper. On some of the national forests this tree is used to plant land which is too poor to grow other timber.

The Chilcote agency is the home of the *Stna* companies. U

The use of orange orange for making dyes promises to be extensive. The forest products laboratory is making

a census which shows that the supply of the wood is more than ample to meet present needs.

It is estimated that there is 345,000,000,000 feet of privately owned timber in Oregon west of the Cascade Range, and 270,000,000,000 feet in Washington. The national forests contain 162,000,000,000 feet, making for the west side of the two states a total stand of timber estimated at 780,000,000,000 board feet.

# TO OUR PATRONS

Don't fail to be at our store at 4 P. M., Saturday if you would share in our free distribution of 3-piece Aluminum Sets. Bring your tickets. Remember this event occurs every Saturday afternoon for 26 weeks and is open to all purchasers of articles of 25c up.

# STAR DRUG CO.

# DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING

Hopes every man and woman here will adopt this splendid health habit.

Says a glass of hot water with a teaspoonful of limestone phosphate in it washes poisons from system, and makes one feel clean, sweet and fresh.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days head-achy, dull and unstrung; some days really incapacitated by illness.

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each

morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, sick headaches, rheumatism, lumbago, nervous days and sleepless nights have become real cranks about the morning-inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing, sweetening and freshening effect upon the system.

## Ladies Who Pay Their Bills

By check avoid a lot of worry and confusion. They never have to puzzle their brains trying to determine where their money has gone. The returned checks tell to a penny what and for what the money has been spent. We have a special department for ladies at this bank, where all information will be cheerfully given.
