FEW DROPS AND CORN LIFTS OUT

SAYS THERE IS NO EXCUSE FOR CUTTING CORNS AND INVITING LOCKJAW

Sore corns, hard corns, soft corns or any kind of a corn can harmlessly be lifted right out with the fingers, if you will apply directly upon the corn a few drops of freestone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freestone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This simple drug, white sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heeled footwear is putting corns on practically every woman's feet.—Ad.
