**NEW PORTABLE  
 BRIDGE MAY  
 BE ADOPTED**

**DESIGN OF MECHANICAL EXPERT  
 AT UNIVERSITY OF OREGON  
 ATTRACTS WIDE INTEREST.  
 MAY BE USED IN WAR ZONE**

EUGENE, Feb. 22.—The light  
 portable bridge recently designed by  
 Prof. E. H. McAllister, head of the  
 department of mechanics at the Uni-  
 versity of Oregon, may soon be used  
 in the European war zone. Lieuten-  
 ant Colonel John Lender, head of the  
 military department at the university,  
 is in receipt of letters from both the  
 United States and Canadian govern-  
 ments asking for blue prints and de-  
 scriptions of the McAllister bridge,  
 and will forward the information at  
 once. Colonel Lender directed the  
 attention of the military departments  
 to the invention.

In Colonel Lender's opinion the  
 new bridge is superior to anything  
 now in use in Europe. It can be put  
 together in an hour by a skilled work-  
 man, and its weight, for a fifty-foot  
 span, with two 22-foot approaches,  
 making a total length of 94 feet, is  
 six tons. This is four tons lighter  
 than the best bridge of similar  
 strength with which Colonel Lender is  
 familiar.

The first of the bridges, of the com-  
 bination suspension and cantilever  
 type, soon will be set up across the  
 millrace here. At its weakest point  
 the bridge bears a strain of 20,000  
 pounds.

**Waste Eliminated  
 Now In England**

LONDON, Feb. 22.—A national  
 scheme has been approved here for  
 collecting and using nearly everything  
 now cast out as household waste, such  
 as rags, waste paper, old metal, broken  
 glass, old cans, and all sorts of  
 kitchen refuse. Everything will be  
 sorted and sent to centers where it  
 can be made to replace something that  
 otherwise would have to be  
 brought in ships.

Many experiments have been made.  
 Oil for engines has been extracted  
 from bad fish and meat; food for  
 poultry and pigs from other kinds of  
 refuse; potash from stalks of veget-  
 ables. Old tin cans from the city of  
 Nottingham are now yielding 400 tons  
 of iron a year, which is converted into  
 a low class steel for army purposes.  
 One of the triumphs of war economy  
 has been the extraction and use of the  
 oil with which leather is dressed.

**U. S. Boys In France  
 Praised By Gen. Greene**

AN ATLANTIC PORT—Feb. 22.—  
 Major General Henry A. Greene of  
 the Ninety-first division of the United  
 States army, is back from France on  
 his way to resume command at Camp  
 Lewis, American Lake, Wash. With  
 other American division commanders  
 he was sent to the front to gain first-  
 hand knowledge of fighting in France.  
 He will return to Camp Lewis after  
 reporting to Washington.

Major General Greene was quoted  
 as saying that the threatened spring  
 drive by Germany on the western  
 front is anticipated with little concern  
 by the British, French and American

troops. General Greene related a con-  
 versation he had had with high British  
 and French officers, one of whom  
 said:

"They may bend our line in places,  
 but they can never break it."

Regarding the condition of the  
 American troops in France, the gen-  
 eral declared: "The morale of our  
 men is perfect. They are doing ex-  
 actly what was expected of them and do-  
 ing it well. I was particularly proud  
 of the Pacific Coast boys. They are  
 fine physical and mental specimens  
 of the true soldier and have great  
 spirit."

**At the Theaters**

Marguerite Clark, winsome Para-  
 mount star, in speaking of her latest  
 production, "Bab's Matinee Idol,"  
 which is to be shown at the Star  
 theater tonight, recently said: "It is  
 truly remarkable how closely 'Bab's'  
 escapades follow some of my own  
 youthful boarding school experiences  
 while at the Ursuline Convent, Cin-  
 cinnati, Ohio. 'Bab, having been al-

lowed as a special treat to witness a  
 theatrical performance, immediately  
 proceeds to fall violently in love with  
 the handsome leading man. This, I  
 must confess, is exactly what hap-  
 pened to me at the age of 15, when  
 I was allowed to visit the theater for  
 the first time. My diary contains  
 pages and pages of description of  
 'him' and imaginary interviews, which  
 are so screamingly funny, and make  
 such good reading that I was think-  
 ing seriously of publishing them, had  
 not Rinehart's Bab so nearly paral-  
 leled them."

Without a doubt, one of the very  
 best photoplays ever offered at the

**'CREAM FOR CATARRH  
 OPENS UP NOSTRILS**

Tells How To Get Quick Relief  
 from Head-Colds, E's Splendid!

In one minute your clogged nos-  
 trils will open, the air passages of  
 your head will clear and you can  
 breathe freely. No more hawking,  
 snuffing, blowing, headache, dryness.  
 No struggling for breath at night;  
 your cold or catarrh will be gone.

Get a small bottle of Ely's Cream  
 Balm from your druggist now. Apply  
 a little of this fragrant, antiseptic,  
 healing cream in your nostrils. It  
 penetrates through every air passage  
 of the head, soothes the inflamed or  
 swollen mucous membrane and relief  
 comes instantly.

It's just fine. Don't stay stuffed-up  
 with a cold or nasty catarrh—relief  
 comes so quickly.—Adv.

You can feel that you are dressed  
 in the best style if wearing a pair of  
 Non-All dress shoes, made on the  
 new last.

11 MODERN SHOE STORE.

**NEW AUTO TROUBLE SHOOTER**

The "Ambu" is the name of a new  
 instrument just added to the equip-  
 ment of the Howie Garage here,  
 which goes a long way in facilitating  
 the finding of trouble in the elec-  
 trical equipment on the various  
 makes of automobiles. The instru-  
 ment, which is extremely intricate,  
 in spite of its small size, is a sort of  
 diagnostic of the various afflictions  
 for all chronic troubles to which the  
 modern starting and lighting systems  
 are subject. For instance, if a suf-  
 fering patient is chugged into the hos-  
 pital with the mumps, the machine is  
 at once applied, and will register  
 mumps, or measles, or house-maid's  
 knee, or whatever the malady may be.  
 If an operation is necessary, the  
 needle will at once register appendi-  
 citis, and Dr. Howie can get to work  
 with his chisel and pinchers without  
 any delay.

It is declared there are 2,600 vari-  
 eties of trouble which may affect the  
 various systems on the market today,  
 so the value of the instrument can be  
 readily appreciated.

**SAGE TEA TURNS  
 GRAY HAIR DARK**

IT'S GRANDMOTHER'S RECIPE TO  
 BRING BACK COLOR AND LUS-  
 TRE TO HAIR

That beautiful, even shade of dark,  
 glossy hair can only be had by brew-  
 ing a mixture of Sage Tea and Sul-  
 phur. Your hair is your charm. It  
 makes or mars the face. When it  
 fades, turns gray or streaked, just an  
 application or two of Sage and Sul-  
 phur enhances its appearance a hun-  
 dred fold.

Don't bother to prepare the mix-  
 ture; you can get this famous old  
 recipe improved by the addition of  
 other ingredients for 50 cents a large  
 bottle, all ready for use. It is called  
 Wyeth's Sage and Sulphur Compound.  
 This can always be depended upon to  
 bring back the natural color and lus-  
 tre of your hair.

Everybody uses "Wyeth's" Sage  
 and Sulphur Compound now because  
 it darkens so naturally and evenly  
 that nobody can tell it has been ap-  
 plied. You simply dampen a sponge  
 or soft brush with it and draw this  
 through the hair, taking one small  
 strand at a time; by morning the gray  
 hair has disappeared, and after an-  
 other application it becomes beau-  
 tifully dark and appears glossy and lus-  
 trous. This ready-to-use preparation  
 is a delightful toilet requisite for  
 those who desire dark hair and a  
 youthful appearance. It is not in-  
 tended for the cure, mitigation or  
 prevention of disease.—Adv.

**Hot Water for  
 Sick Headaches**

Tells why everyone should drink  
 hot water with phosphate  
 in it before breakfast.

Headache of any kind is caused by  
 auto-intoxication—which means self-  
 poisoning. Liver and bowel poisons  
 called toxins, sucked into the blood  
 through the lymph ducts, excite the  
 heart which pumps the blood so fast  
 that it congests in the smaller arter-  
 ies and veins of the head, producing  
 violent, throbbing pain and distress,  
 called headache. You become nerv-  
 ous, despondent, sick, feverish and  
 miserable, your meals sour and almost  
 nauseate you. Then you resort to ace-  
 saline, aspirin or the bromides which  
 temporarily relieve but do not rid  
 the blood of these irritating toxins.

A glass of hot water with a tea-  
 spoonful of limestone phosphate in it,  
 drank before breakfast for awhile,  
 will not only wash these poisons from  
 your system and cure you of head-  
 ache, but will cleanse, purify and  
 freshen the entire alimentary canal.

Ask your pharmacist for a quarter  
 pound of limestone phosphate. It is in-  
 expensive, harmless as sugar, and al-  
 most tasteless, except for a sourish  
 twinge which is not unpleasant.

If you aren't feeling your best, if  
 tongue is coated or you wake up with  
 bad taste, foul breath or have colds,  
 indigestion, biliousness, constipation  
 or sour, acid stomach, begin the phos-  
 phated hot water cure to rid your  
 system of toxins and poisons.

Results are quick and it is claimed  
 that those who continue to flush out  
 the stomach, liver and bowels every  
 morning, never have any headache or  
 know a miserable moment.—Adv.
