**FILIPINOS ARE ON RICE RATION**

MANILA, Nov. 1.—(By Mail).—The people of Manila have been put on rice rations. It is estimated that it may be necessary to keep up the ration system until the end of the year, but this will depend upon the harvest of early rice and the attitude of the French colonial government with regard to the exportation of rice from Saigon and Haiphong.

By special arrangement with Paris officials, the insular authorities have been able to obtain an export permit for 3000 tons of rice from Haiphong. This rice will be used exclusively for distribution in the southern islands, which are farthest from the Philippine centers of production.

It is hoped that the fixing of a minimum price for rice in the hands of the producer, recommended to the fifth Philippine legislature by Governor Francis Burton Harrison, will eliminate the speculator and stimulate the farmer to greater activity, thus relieving the acute shortage of the cereal in the islands.

**BOLIVIAN SILVER MINES OPENING**

SAN FRANCISCO, Cal., Nov. 29.—A great revival in the silver mining industry is in progress in Bolivia, according to Alberto Palacios, Bolivian consul here.

During the war silver mining was replaced by tin and tungsten, thousands of tons of which were sold by Bolivians to the Allies. The low price of silver during this period caused many of the silver mines to be abandoned, but with the return of a demand for silver bullion and consequent high prices, the silver industry is taking on something of its ancient aspect as the leading industrial activity of the South American republic, Mr. Palacios states.

Figures show the export of the precious metal from Bolivia is now about 30,000,000 pounds a year valued at \$2,200,000. The famous Potosi mine, which has been in continuous operation for almost 400 years and has given up silver valued at worked at fullest capacity, according to the consul's advice.

**BIG COAL FIELD FOUND, MONTANA**

HELENA, Mont., Nov. 29.—Enough lignite coal to supply the needs of the state of Montana for an estimated period of 600 years has been discovered near the proposed Fallon-Glendive irrigation project in eastern Montana, according to a report of Fred E. Buck, assistant state engineer.

Mr. Buck, who recently returned from the new field, says there are 34,000 acres of the lignite deposits. One tract of 150 acres is being the irrigation project, which is worked and the pumping plant of nearby, is using the fuel, which is said to be of high class.

It is estimated that in Colorado there is sufficient shale, in beds three feet or more thick, to yield 20,000 or more barrels of crude petroleum.

**TO DARKEN HAIR APPLY SAGE TEA**

**LOOK YOUNG! BRING BACK ITS NATURAL COLOR, GLOSS AND ATTRACTIVENESS**

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 5-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

**WINS \$390,000 ON 'LONG SHOT'**

LONDON, Nov. 11.—(By Mail).—Baron James Rothschild's winnings when his horse, Brigand, won the Cambridgeshire at Newmarket recently are stated to total approximately \$390,000. The betting against Brigand fluctuated about the odds of 33 to 1, and Baron Rothschild backed his horse heavily. The day before that he won \$40,000 on his horse, Tagraf, which captured a race at 8 to 1.

Lord Rothschild has always been noted for the large amount of money he has spent in endeavoring to bring off "long shots" in connection with his own horses. During the final big meeting of the flat racing for the season at Newmarket he had several horses entered and two of his notable "long shots" were winners.

Lord Rothschild is a popular figure in the racing world and is famous for his quick decisions in betting. Apart from this he is noted for his wit and is a brilliant conversationalist. He has a fine war record, having driven motor lorries in Serbia and served with the French flying corps. He was lamed by a bad motor smash during his war services.

Recently he lost the sight of one eye which was struck by a golf ball while he was playing in France. During the tube and omnibus strike in Paris he drove an omnibus.

**COUNTY TREASURER'S NOTICE**

Notice is hereby given that there are funds in the county treasury for the redemption of Klamath County General Fund warrants, protested on or before Sept. 2, 1910, also warrant 30702 protested Sept. 3, 1910. Interest on the same will cease from this date.

Dated at Klamath Falls, Oregon, this 28th day of Nov. 1910.  
**G. K. VAN RIPER,**  
 County Treasurer.

**MEAT CAUSE OF KIDNEY TROUBLE**  
 Take Salts to flush Kidneys if Back hurts or Bladder bothers  
 If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.  
 To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.  
 Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.  
 Finnish Lapland is believed to contain vast deposits of the highest grade iron ore, equal, if not superior, to the richest deposits of Swedish and Norwegian Lapland.  
 The residue of the indigo plant, after the extraction of the indican, known commercially as indigo, is used in many districts of India as a fertilizer for the tobacco plant.  
 In the earlier days of gas lighting the gas producers regarded coal-tar as a great nuisance and surreptitiously got rid of it. Then the great discovery was made that all the hues of the rainbow dwelt in this dirty-looking stuff which man despised and threw away, and now it is one of the most valuable of products.
