 Work on the jetty at Bar View is over half completed, it being extended about 2,600 feet, with about another 1,400 to be constructed. The jetty is well out into the breakers at present. One feature connected with the construction of the jetty is the washing out of the sand on the south side and the filling in on the north side. No soundings have been taken recently as to whether the channel is being improved and confined to one place.
 State Dairy and Food Commissioner Mickle has sent out communications to all the creameries and similar plants in the state, informing them of the new law passed by the last Legislature, which goes into effect May 22, requiring the payment of \$1 for a tester's license and the payment of a similar sum for a license for creamery. Before a tester may secure a license he must pass an examination before the professor of dairy husbandry at the Oregon Agricultural College. One of the provisions necessary to obtain a creamery license is the use of none but standard glassware, that has been tested for accuracy by the Oregon Agricultural College.
 Eight of our live energetic citizens put in a whole day's work on Sunday cutting out the brush on the old light house road, and they succeeded in getting about a mile over the mountain. They expected to get through in one day, but owing to insufficient help and a number of logs in the trail it will take another day's work, provided about 18 men will volunteer their services next Sunday. Those who can should aid in this work, for it will open up a way to get to the lighthouse and Bayocean this summer over a pretty trail for pedestrians. Those who will volunteer their services next Sunday should see Attorney J. L. Henderson, who is the prime mover in having the trail cut out. The autos will leave Mr. Henderson's office at 7 on Sunday morning.

Tillamook City to Celebrate.
 It was decided the first of the week by a number of business men that this would be a good time to hold a Fourth of July celebration in this city and a committee of management was immediately appointed and went to work and are planning to give one of the largest and most attractive celebrations ever held in the county.
 As the Fourth of July falls on Sunday, the committee has decided to hold the celebration on two days, Friday and Saturday 2nd and 3rd.

Tillamook County League.
 At a meeting of the representatives of the different base ball clubs of the county, held at the Commercial Club rooms on Monday, arrangements were made for the organization of a Tillamook County League. The following teams were represented and will be included in the new league: Nehalem, Bay City, Tillamook, Redmen, Catholic Academy, Beaver and Cloverdale.
 J. R. Callahan was elected temporary president of the league and F. E. Shaw secretary. Mr. Callahan appointed the following committee to formulate by-laws and rules for the government of the league, F. E. Shaw chairman, C. A. Mahan and H. B. Mills.
 The first game under the new league regulations will probably be played on decoration day. The schedule for the season will be made up as soon as possible.

The Ford is lighter than any other car of its size and power. Light weight means economy. Economy in gasoline consumption. Economy in tire expense. Economy in repair bills—less than two cents a mile for operation and upkeep.

Yet with all its light weight the Ford is the strongest sturdiest car that is built. It is the longest lasting car. Vanadium steel is responsible for that. "Anti-fatigue" steel, scientists call it—the strongest, toughest steel put into automobile construction.

Buyers will share in profits if we sell at retail 300,000 new Ford cars between August 1914 and August 1915

Runabout \$440; Touring Car \$400; Town Car \$680; Coupelet \$750; Sedan \$975, f. o. b. Detroit with all equipment.
