**Lumbago**  
This is a complaint of the muscles and is quite painful. Every movement aggravates the disease. Go to bed, keep quiet and have Chamberlain's Liniment applied and a quick recovery may be expected. Mrs. F. J. Darr, Newkirk N. Y. writes: "I can honestly say that Chamberlain's Liniment kept me of lumbago a year ago last winter. When I began using it, I was flat on my back in bed and could not get to the left or right. I had a bottle of Chamberlain's Liniment in my house and this was applied to my back. It promptly drove away my pain and aches."

Wear "Her" flower Sunday gang, and don't forget!

Ye cub does not have to tell you that Sunday is MOTHER'S DAY, but lest some of the outsiders who read this column have forgotten we again call their attention to it.

We've got the best mother on earth, her name, and just as soon as this corner is filled we shall straightway take pen in hand and again tell her so. And just to let her know that we love her more and more and better than anyone we are going to send her a nice box of the Pat's B's at chocolate with a little card enclosed and inscribed: "To Mother,"--That's all.

To put you right, gang, there's no bunk about this--we absolutely have the best mother on earth. Last week we had a birthday (we can vote for Dad or George or Mr. Reed if we want to now) we didn't remember said birthday and wouldn't let folks around us didn't. They didn't say anything if they did. But mother never forgot and along about the time that Bill Foster and his gang distributed the mail we had material evidence of her non-forgetfulness in the shape of a nice new tie and a few other knick knacks that mother knew we would appreciate. She sent us love and many remembrances of the day, as well.

No, mother didn't forget, and yet one last week the doctor ordered her to lie in bed FOR A YEAR, a result of motherly care and worry. Four weeks ago little Orval--her grandson--fell and shattered one of his limbs. It was placed in a cast and tucked in bed for three months. In two weeks the leg had grown an inch longer than the other and the injured member had an 11.00 foot. It was broken over and reset in five places. An X-ray two days later proved the setting faulty. Again it was re-broken and reset and the other limb also placed in a cast. Mother worried, and worried and worried, greatly for little Orval but perhaps as much for Orval's mother--her daughter. Then a neighbor lady, aged, ill and grown childish, called for her assistance. For three long weeks she patiently tended her aged neighbor and then when the grim reaper called she did all that mortal hands could do for a departed friend and neighbor.

A day or two later the banking institution with which father and mother deposited their years' savings closed its doors. But Mother never forgot even with all this her boy's birthday--so we say we have the best Mother on earth.

Now gang, wear her flower Sunday--her favorite flower--whether it be carnation or lily--wear "her" flower on Mother's Day, the most significant day in all the calendar; for in trouble or sorrow, in happiness and joy mother will never forget you even tho' all the world forget.

### CITY DADS ASKED TO CLEAN-UP, TOO

A whispered story is going the rounds about this Clean-Up campaign that we had been asked to "keep dark", but it is too good to cover up even though we only have a confidence.

You will remember that the Mayor deputized a score or more of prominent city women to enforce the clean-up order. One of the first reports that one of the special policemen brought in was not at all favorable to the city. On one of the streets in the west end a quantity of old wooden water pipe had been unearthed when the new main was laid. This decomposed relic of olden days strewn hither and yon has been an eyesore for 10 these many moons.

The Mayor thought the city should certainly clean up alright and he so informed the councilmen. The councilmen indignantly but politely informed his honor that it was not their slovenliness that had been exposed but that of the water department. He forthwith the Water Commission was asked a CLEAN-UP; that the city fathers might practice what they were preaching.
