Senator Sherman's Good Sense.

In the midst of the general unfriendly tone toward England, which is largely for campaign purposes only, Mr. Sherman's wise and dignified remarks the other day in the senate were worthy of an American statesman. The attempt to win Irish votes in this country by incessantly "nagging" the English lion is contemptible, and Mr. Sherman's good sense and patriotism in deprecating a misunderstanding with Great Britain as infinitely more important and injurious than a controversy with any other nation, commend him to the respect of the country.

In the same spirit he alluded to Canada, and his strong desire to maintain the most cordial relation with the Dominion. He warmly favored a policy which would make more intimate the relations between the two countries, and he declared his conviction that within ten years Canada would be represented either in the imperial parliament or in the congress of the United States. He desired, therefore, the freest possible commercial relations with the Dominion, and would gladly see the abolition of a line of custom houses and fortifications along the border. "It would be the height of nonsense, almost a crime against civilization, to establish such a line."

Mr. Sherman objected to the treaty as tending to create controversy, and to erect the very barrier that he deprecated. In this view we do not agree with him. The question must be settled by negotiation or not at all, and if by negotiation, there must be concession. But it is the tone and scope, not the details, of the speech that commanded general attention and approval. Mr. Sherman lifted the debate out of the region of wretched jealousies and mean party spirit, into the region of broad views and honorable difference, which is the true realm of the higher politics. -Harper's Weekly.

A physician, a few weeks since, giving us an account of the decline of a church in his town, said it had died of the "foot-and-mouth disease." Being asked what he meant, he said that the people spent their time "running around and talking about each other." -Christian Advocate.

"Wooden-Headed."

When a wooden pavement was desired outside St. Paul's cathedral, Sidney Smith said: "If the carpenters will simply 'put their heads together,' the thing is done!" They were not half so wooden-headed, however as it would be to deny the merit of Dr. R. V. Pierce's Golden Medical Discovery, which has cured many thousands of liver disease, impure blood, king's-evil, salt-rheum, dropsy, chronic affections of the throat, bronchial tubes, and lungs, asthma, catarrh, influenza, neuralgia, dyspepsia, constipation, and all skin diseases. Druggists.

When everything else fails, Dr. Sage's Catarrh Remedy cures.

"The World Notes."

Maintained Galileo, when his tormentors raked him for admitting the true system of Copernicus. Certain follies hold out, however, against the illumination of discovery and experience. There are hosts of people who, because they have adopted certain principles, continue to swallow them to their dying day in defiance of the laws of common sense. Mercury, drastic purgatives, super-potent narcotics and sedatives, though they have given ground before the irresistible progress of Hostetter's stomach Bitters, a national, painless remedy for disorders of the liver, the stomach and the bowels, still continue to make ambulating apothecaries shops of many stomachs. The symptoms of liver troubles are easily remediable without any abdominal disturbance with this beneficial alternative. So also are constipation, sick headache, heartburn and an inability to digest satisfactorily. It cures fever and ague, rheumatism and kidney trouble.

Worth Knowing.

Mr. W. H. Morgan, merchant, Lake City, Fla., was taken with a severe cold, attended with a distressing cough and running into consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, had difficulty in breathing and was unable to sleep. Finally tried Dr. King's New Discovery for consumption and found immediate relief, and after using about a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so grand a record of cures, as Dr. King's New Discovery for consumption guaranteed to do just what is claimed for it. - Trial bottle free at H. W. Cox's drug store.

A WORTHY ENTERPRISE.

On May 1st, last, about four months ago, Dr. Gilbert opened an office and sanitarium in the bank block, Salem, and advertised to treat chronic diseases on scientific principles. Since that time his practice has been steadily increasing - so much so that he was obliged to secure more room and increasing facilities, and now finding himself unable to attend to his numerous patients, he has entered into partnership with Dr. M. W. Wemp, of Detroit, Michigan, a physician and surgeon of large experience, thoroughly competent, and a specialist in disease of the eye, ear, throat and nasal cavities - who has come with his family to make his home in Salem. The new firm will be known as Drs. Gilbert & Wemp, and will occupy the commodious rooms in the bank block, for office and sanitarium, and will conduct their business under the name and style of The Oregon Medical and Surgical Institute. It is their intention to spare neither pains nor expense in their efforts to make this the most complete institution, for the treatment of all forms of diseases, especially chronic, in the northwest.

Medicated vapor baths, electro-magnetism, oxygen and massage, together with all modern and scientific appliances for the thorough cure of disease, will be used. Examinations will be free, and charges strictly moderate. Address Drs. Gilbert & Wemp, bank block, or postoffice box 176, Salem, Oregon.

THE MARKETS.

SALEM, AUGUST 30. - Wheat commands 70 cents, but not many transactions are reported because farmers are unwilling to sell, in hopes that the price will still advance, and buyers are not keen to purchase, not knowing when the river will be open for transportation. Oats are plentiful and dull of sale at 25 cents. Hops are firm for the incoming crop. Those of '87 are out of market. Wool is quoted at 17 cents, but choice would command 19. Potatoes this season are of excellent quality, and very large in quantity. At present dull of sale. Twenty to twenty-five cents is all that is offered. They are scarcely ripe enough for shipping.
