THE ROSLYN MINES.

TELEGRAPHIC SUMMARY.

NO. 161.

The Company Boun I to Reduce Wages .-. The Workmen Present Their

Side.

CLE-ELUM, Aug. 30.—Much effort was made to-day to dispose of the troubles at the Roslyn mines, and the miners at mines 1 and 2 asked of the company two things, namely: That all the guards at mine 3 should be removed and that no one at mines I and 2 should b discharged

mines I and 2 should be discharged because of having expressed him-self about the introduction of negroes under armed protection. There was very little difference of opinion as to the removal of the guards. The company does not desire to keep them at the mine. The company has notified Sheriff Packwood to protect its property, and Superintendent Lackman order, made an affidavit that be plaint and lameness for many for hop picking under the foreign years; could not dress myself with-out help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for boy many thanks to Electric Bitters for baying sprawad my youth and

the mines. Supt. Powell said to-day that the whole matter was whether the company should operate its mines witharm, 9 miles from Indianapolis, were burnt yesterday. Eighteen fine horses were destroyed, and the loss is set at \$5,000. The Canada authorities are play-ing smart. Fruit from the United States is admitted into that country

would be filled by men who would act differently. Whether the negroes stay or go, or whether the guards are removed or not, the company does not pro-pose to abandon its intention to in-augurate a new system in the opera-tion of these mines. In order to rebut the presumption that wages at mines 1 and 2 would be reduced, and that the eight-hour rule would be that the eight-hour rule would be interfered with, Manager linekley's letter, as given in yesterday's report, was read "Is this letter substantially an

agreement that no change of policy in these respects would take place?" was asked of Supt. Powell to-day."

"How about next week or next month?"

"Can't say as to that," he replied, "The company proposes to run these mines to suit themselves. We have been subject to these miners long enough, and we propose to change matters

It will thus be seen that unless the company makes a complete back down no compromise will alter the SEN. ALLISON ON THE WOOL TAX. real determination of the company,

Senator Allison, March 24, 1870: -1 will say with regard to the duty company's conduct of its busion wool and woolens, that I regard ness, and also that any demonstracharge that the company's property to assert that the bringing of negroes to assert that the oringing of negroes to mine 3 will not result in reduction of wages at 1 and 2, and that if the miners will not submit to the re-duction that the company will not import more negroes. They say the history of mining negroes uni-formity shows a reduction of merces formly shows a reduction of wages. The miners also claim that all the regulations which they have been instrumental in establishing, have been really of service to the com-pany and that as a matter of fact the company, having no just reason for complaint on this score, really seeks to reduce wages. woolen goods would inure to the advantage of the wool grower? Mr. Allison—I will tell the gen-tleman how, in my judgment, the wool grower will be benefited. As the law now is the tariff upon fine wools of a character not produced in this country is 100 per cent. upon their cost. The tariff upon woolean the law now is the present rate of \$1.25 per ton. This rate has been uniformly paid since that time without objection from the company and the company control the present rate of \$1.25 per ton. This rate has been uniformly paid since that time without objection from the company. The fear now among them is that the company proposes to introduce new men altogether. Gov. Semple, Attorney-Gen. T. Metcalf and the others in the party went to Tacoma this afternoon. Prosecuting Attorney Snively says he proposes to have the grand jury investigate the matter of bringing in armed guards by the company. Sheriff Packwood will have his denutie in chores in a few days deputies in charge in a few days, He says he will get all of them from Ellensburg and vicinity. By reason of the outspoken tactics of the com pany's officers unensiness is felt for the future, as unless some assurance is given that the old miners will not be discharged, they will not submit to be thrown out of their homes simply because they express opinions

TREATMENT \$1 1 12 BY MAIL SEND FOR CIRCU ABIETINE MED COVOROVILLE CAL

HAVE YOU A COLD IN THE HEAD which does not get better? Have you an ex-HAVE FOULA COLD IN THE HEAD which does not get better? Have you an ex-cessive secretion of mucus matter in the masal passages? Are you troubled by hawking, splitting, weak and inflamed eyes, frequent sorenoes of the throat, ringing or roaring in the cars, more or less impairment of the hearing, loss of smell, memory im-paired, dullness or duziness of the head, dryness or beat of the nose? Have you lost all sense of smell? If your breath foul? If so, you have the Catarrh. Some have all these symptoms, others only a part.

This want of a chronic, in the northwest. Modicated vapor baths, electro-magnet-ism, exygen and massage, together with all modern and scientific appliances for the thorough cure of disease, will be used. Examinations will be free, and charges strictly modernate, Address Dra. Gilliseri & Wemp, Bank block, or postoffice box 175, Salem, Oregon.

Pashing Work Vigorously.

The Oregon Pacific railroad is undoubtedly pushing the work of construction towards the Cascades at a lively rate. And, this time, they appear to be largely bossing the job themselves. Hundreds of men are actually at work, and thousands of tons of steel rails are in sight.
