NEWS OF WESTERN OREGON.

Sheridan in Yamhill county, was named after the gallant Phil. Hop picking and vaccination are in popular favor just at present. A grand state republican league was organized at Portland last week. The Newberg fair has been postponed on account of the smallpox scare. Indications point that Newberg is soon to have a live weekly newspaper. Umatilla county's wheat crop is estimated this year to be 2,000,000 bushels. A trial invoice of Willamette apples is being made ready for shipment to Australia. The McMinnville fair has been indefinitely postponed on account of the ravages of smallpox. The Methodist congregation at Dallas have in contemplation the erection of a new church edifice. Silverton's splendid cornet band covered themselves with glory at Salem's state fair last week. The Oregon Pacific paid \$175,000 for their new steamer Carnaca which is to ply between San Francisco and Yaquina. Oregon has had just enough rain to clear the atmosphere of smoke and dust. All nature smiles. The paper mill at Oregon City will soon be under headway. Contracts for lumber are already effected. Oregon City is soon to be lighted by electricity. The poles are already up and the dynamo will be located in a few days. Malheur county is about to be crossed by the Union Pacific on the direct short line from Ontario to San Francisco. The first Presbyterian church established in Clackamas county is near Oregon City and will be dedicated on the 30th inst. The narrow gauge road, east and west side, is preparing to re-build some long neglected bridges and otherwise repair their line. A great many immigrants are coming into the great and only Willamette valley every day. Most of them are thoroughly pleased and locate. The new and commodious three-story hotel at Dallas is about completed and will at once be furnished and opened up. It is a creditable structure. The new grist mill at Dallas is soon to be ready for operation. That thriving city's new brass band will be ready to play for the "grand opening." In the foot hills east of Silverton extensive forest fires have been raging during the past week. Many acres of valuable timber has been destroyed. Josephine county's watermelon kings will convert their surplus melons into syrup. One man will have over 100,000 pounds left after the shipping season. The \$15,000 governmental appropriation will soon be expended to check the threatened cut-off of the Willamette above Corvallis. Work will begin very soon. It is now the business of the town councils to establish boards of health, further sanitary measures and otherwise prepare for holding in check the deadly smallpox. The Hillsboro fair opens on Tuesday for a four days' session. Great attractions are offered and it promises to be a pleasant fall festival. No gambling devices will be permitted. Portland is soon to have a glass factory established within her borders. The trouble is in discovering a suitable sand, but this they think to have found in Southern Oregon. Douglas county has a live fruit growers' association which meets monthly for the discussion of topics of interest to the "craft." The next meeting will be at Roseburg, October 6th. Portland's schools have fire drills and one day recently a three story school building was emptied of 528 children in two minutes. Such plans of discipline should be generally established.

TICKINGS OF THE TELEGRAPH.

Yellow Fever and Smallpox Still Holding Full Sway. A Vessel Lost--Pioneer Killed--Crop Losses--Murder, Etc. A Pioneer's Demise. OAKLAND, Sept. 23.--Capt. Jotham S. Marston, a pioneer resident of this county, 84 years of age, and a native of Maine, was killed very suddenly yesterday morning, by being run down by a train. He was Alameda county's first treasurer. Hops Hopping Up. NEW YORK, Sept. 23.--The hop picking season virtually closed in the Middleton district last night and growers are in a good frame of mind. Prices have been gradually going up for some time, and good grades are now in ready sale at from 27 to 30 cents per pound. Dashed to Pieces. SAN FRANCISCO, Sept. 23.--The schooner Pet, which left here yesterday for the Albion river, went ashore on the north side of the Golden Gate this morning and was immediately dashed to pieces. Capt. Pargers was in command of her at the time and it is more than probable was drowned. THE YELLOW JACK. GLOOMY AT DECATUR. DECATUR, Ala., Sept. 23.--This has been the gloomiest Sunday in Decatur's history, the sun even refused its cheerful light. There are hardly more than 150 people in town and two-thirds of these are colored. A special train with about fifty refugees left about midnight last night. There were but two cases and no deaths to-day. The total cases are seventeen; total deaths four. QUARANTINE AT MEMPHIS. MEMPHIS, Tenn., Sept. 23.--The city has been quiet to-day. Confidence is restored and the feeling of uneasiness which amounted to almost panic has given way to a more rational view of the situation. The quarantine regulations of Memphis have caused a suspension of travel. Business is virtually at a standstill throughout this section of the country. The quarantine is working great hardships on many citizens who are absent from the city and cannot return. CONDITION AT JACKSONVILLE. JACKSONVILLE, Sept. 23.--Reports of the board of health to-day aggregate 135 new cases and ten deaths. Among the new cases are two of the visiting physicians. A more hopeful feeling exists, many intelligent observers of former epidemics believing that the worst is over. CONDENSED DISPATCHES. Deadwood, Dakota, had a \$15,000 fire on Saturday night. It is denied that Villard's scheme to find the South pole has been abandoned. Those who know say that the President will not sign the Chinese exclusion bill until the last hour. The Skidmore fountain was formally presented to the city of Portland with appropriate ceremonies Saturday. Buffalo, N. Y., is wild over the discovery of twelve cases of smallpox in the fashionable quarter of that city. Louisville has opened her gates to the yellow fever refugees and they are pouring into that city by the hundreds. The schooner Daisy Rowe, from Westport, was towed into San Francisco yesterday in a water-logged condition. No important legislative business is likely to be accomplished by the house this week, and the senate has no work outlined. It is feared the yellow fever epidemic will entirely shut out the crop of Florida oranges. This causes much uneasiness among dealers. The Swiss government contemplates asking parliament for a credit of 25,000,000 francs for army equipment and purchase of guns.

LATE advices say Robert Garrett is very low at New York and that his death is momentarily expected.

Three thousand women at Boston have registered and propose voting for school commissioner. This is beyond precedent. There is great foundation for the rumor that Prince Bismack will resign. He and the young emperor have evidently quarreled. A band of ten masked men Saturday night near Schulenberg, Texas, were baffled in an attempt to rob a South Pacific passenger train. "Poor old Texas." At Jacksonville a telegram states all pretense of isolating houses has ceased; no more yellow flags are put up and the whole town is practically fevered. The "Etruria" has just reached New York, having crossed in six days, one hour and fifteen minutes, a gain of thirty minutes over the best previous record. The republican parade at San Francisco Saturday night was decidedly the most stupendous one ever witnessed in that city. It was over three miles in length. A sharp earthquake shock was felt at San Francisco yesterday at the noon hour. The motion was of an up and down nature, the accompanying sound being deep and rumbling. At San Francisco Saturday the supreme court decided that ex-Senator Sharon and plaintiff, Sarah Althea Hill, were husband and wife. This celebrated case has been pending since 1885. Farrar & Co. Are shipping out fruit by the car load, but their own store is always attractive with the best varieties. In fruit, vegetables, groceries and provisions they are always in the lead. A Woman's Discovery. "Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night, and with one bottle has been miraculously cured." Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at Dr. H. W. Cox's Drug Store. The Verdier Unanimous. W. D. Sult, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my twenty years' experience, is Electric Bitters." Thousands of others have added their testimony so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only a half dollar a bottle at Dr. Cox's drug store. Eat With Comfort and be Happy. It is by no means uncertain, but on the contrary, a well ascertained fact, that upon the well being of a man's stomach depends that medium of happiness which is vouchsafed to him in this world. Dyspepsia, the foe of all others to the stomach tranquility, and most to be dreaded, is a complaint to the preliminary relief and eventual cure of which Hostetter's Stomach Bitters is especially adapted. It enables those who use it with a reasonable degree of persistence to eat with relish, because it imparts a healthy appetite; to digest with ease, because it strengthens the stomach; and to assimilate the food which is eaten and digested, thus benefiting health, promoting flesh and sustaining the exercise of the physical and mental faculties. It, moreover, facilitates the secretion of healthy bile, actuates without discomfort the habit of body, and tends, when taken upon retiring, to produce healthy slumber. Malaria is conquered by it. In all there are four cases of smallpox at McMinnville and one at Dayton Prairie. The doctors think they have the dread malady under control and that its spread will be prevented. Strict quarantines are observed and a pest house has been established. Lafayette, Amity and Independence have quarantined against the infested city.
