We reaffirm the policy of appropriating the public lands of the United States to be homesteads for American entirens and settiers, not aliens, which the Republican party established in 1862, against the persistent opposition of the Democrats in ngress, and which has brought our great Western domain into such magnificent development. The restoration of uncarnod land grants to the public domain for the use of actual settlers, which was begun under the administration of President Ar-thur, should be continued. We deny that the democratic party has ever restored one acre to the people, but declare that by the joint action of republicans and democrats, about fifty millions of acres of unearned lands originally granted for the construc-tion of railroads have been restored to the public domain, in pursuance of the condi-tions inserted by the republican party in the original grants. In a republic like ours, where the citizen is the sovereign and the official the servant, where no power is exercised except by the will of the people, it is important that the sovereign—the people—should possess intelligence.
