THE Annual Statistician says that Mt. Hercules in New Guinea is the highest mountain in the world-being 32,789 feet high. It overtops Mt. Everest of the Himalayas. That mountain has always been considered heretofore as the highest in the world, being 29,280 above the leval of the sea.

Denver is about to have an astronomical observatory that will rival the famous Lick obsevatory on Mount Hamilton, The building and instrument have been provided for by the liberality of W. B. Chamberlin, of Denver. The diameter of the object glass will be 20 inches and the length of the tube 20 feet.

Even in Missouri there are signs of serious alarm among the demoerats, especially about the state ticket. Gov. Marmaduke had only 500 majority before; and in this campaign the "Wheelers" and the Far- after the latter had attacked and called it, as the great head of the outlaws bor party have declared for Kinsball, the republican nominee for out privilege of ball to await trial, a phantom horseman, or fancied he was, governor. THE expression "dark horse," now in such general political use, first occurred in Lord Beaconsfield's "Young Duke." Here is the paragraph: "The first favorite was post, all the ten to ones were in the rear, and a dark horse which had never been thought of rushed past the grand stand in sweeping triumph."

THE Pall Mall Gazette charges that the words, "I have murdered four, and will murder sixteen more before I surrender myself to the police," written by the supposed Whitechapel murderer upon the shutter of a house adjoining the one in a yard of which a body of one of his victims was found, was crased by order of the chief of police, before the authorities had an opportunity to photograph them.

The cost is a matter of absolutely no moment when compared with the life and health of our citizens, and there is no time to be lost unless we are willing to see San Francisco become the victim of an awful and deathdealing epidemic.

### A NEW CONVERT.

One of the prominent republican

converts this year is General Geo.

W. Jones, of Dubuque, Iowa, one of the pioneers of the west, and a demcerat of the old school. He was the first United States senator from Iowa, and he was once United States surveyor of the whole region from Wisconsin to the Pacific. He was also a United States senator from Wisconsin, and he frequently alludes to the way in which he secared the admission of Iowa to the union. When the question came up in the senate the vote was likely opposition to be absent when the emerged from under a heavy count of over-Calhoun, who was of the opposition, Then he went to Calhoun's beautiful bright moonlight, lying thick and golden D.
