HAVE YOU A COLD IN THE HEAD which does not get better? Have you an excessive secretion of mucus matter in the masal passages? Are you troubled by hawking, spitting, weak and inflamed eyes, frequent screness of the throat, ringing or roaring in the ears, more or less impairment of the hearing, less of smell, memory impaired, duliness or dizziness of the head, dryness or heat of the nose? Have you lost all sense of smell? Is your breath foul? If so, you have the Catarrh. Some have all these symptoms, others only a part.

California Cat-R-Cure

Restores the sense of taste and smell, removes bad taste and unpleasant breath, result-ing from Catarrh. Easy and pleasant to use. Follow directions and a cure is guaran-leed by D. W. MATTHEWS & Co.

RECOMMENDED. CAPTAIN CHARLES L. DIMON, of New York City, formerly special agent of the Pheenix and Home Insurance Company at San Francisco, Cal., says: "I have been troubled with Chronic Catarrh for twenty years. A friend in Woodland, Cal., recommended your California CAT-B-CURE. I procurded a jar, having but little faith in its curative properties; but I must say, after using three jars, I am cured of that disgusting disease. Inclosed find \$5 for which send me California CAT-B-CURE for some friends, who are sufferers."

Some Startling Statements of Gen. . ral luterest.

Dr. Oliver Wendell Holmes, on being asked when the training of a child should begin, replied, "A hun-dred years before it is born."

Are we to infer from this that this eneration is responsible for the condition of the race a hundred years from now? Is this wonderful generation the nat-

ural result of the proper diet and med-icines of a hundred years ago? It is conceded in other lands that most of the wonderful discoveries of the world in this century have come from this country. Our ances-

tors were reared in log cabins, and suffered hardships and trials. But they lived and enjoyed health to a ripe old age. The women of those days would endure hardships without apparent fatigue that would startle those of the present age.

Why was it?
One of the proprietors of the popular remedy known as Warner's safe cure, has been faithfully investigating the cause, and has called to his aid scientists as well as medical men, impressing upon them the fact that there cannot be an effect without a This investigation disclosed the fact that in the olden times simple remedies were administered compounded of herbs and roots, which were gathered and stored in the lotts of the log cabins, and when sickness came on, these remedies from nature' laboratory were used with the best

effects. What were these remedies? What were they used for? After untiring and diligent search they have obtained the formulas so generally used for various disorders.

Now the question is, how will the olden time preparations affect the people of this age, who have been reated, under modern medical schools and codes, with poisonous and injurious drugs. This test has been carefully pursued, until they are convinced that the preparations they now call Warner's Log Cabin remedies are what our much abused

systems required.

Among them is what is known as Warner's Log Cabin sarsaparilla, and they frankly announce that they do not consider the sarsaparilla of so much value in itself as it is in the combination of the various ingredi-ents which together work marvelously upon the system. They also have preparations for other diseases, such as "Warner's Log Cabin cough and consumption remedy," "Log Cabin hops and buchu remedy," "Warner's Log Cabin hair tonic." They have great confidence that they have great confidence that they have a cure for the common disease of catarrh, which they give the name of "Log Cabin rose cream." Also a "Log Cabin plaster," which they are con-fident will supplant all others, and a liver pill, to be used separately or in

connection with the other remedies. We hope that the public will not be disappointed in these remedies, but will reap a benefit from the investigations, and that the proprietors will not be embarrased in their introduction by dealers trying to substitute remedies that have been so familiar to the shelves of our drug-gists. This line of remedies will be used instead of others. Insist upon your druggist getting them for you if he hasn't them yet in stock, and we leel confident that these new remedies will receive approbation at our reader's hands, as the founders have used every care in their preparation.

The Paris World's Fair

The Universal Exposition of 1889 at Paris promises to be one of the largest and most successful of the world's fairs held in recent years. Elaborate arrangements for the reception and display of the exhibits fare well under way, and usual facilities both for the transportation of goods from this country and their care are assured. The French government extended a formal invitation to the United States to take part in the exposition. The invitation was accepted by a joint resolution of the Senate and House of Representatives, and the Governors of the several States and Territories were requested to invite the people to assist in the proper representation of the products of American industry and of the natural resources of the country. The President was directed to appoint a commissioner-general and an assistant commissioner-general, to make all of the arrangements for exhibits and represent the government at the exposition

It is expected that the total number of xhibits from all countries will reach 30,-COO; it is estimated that 12,000,000 persons will enter the grounds and buildings. Some idea of the magnitude of the exhibition may be gained from the fact that the total area of buildings and enclosed crounds, which is to be lighted by electricity, is 3,000,000 square feet. The space allotted to the United States is about 75,030 square feet. An exhibit from this country fully equal to that of 1878 is expected, and it is hoped that it will be uch larger. There are numerous lines of industry that need new markets for their goods, and this exhibition will afford them n opportunity for foreign display.

All of the European countries except Germany, take an interest in the exposi-tion, and; will make displays. The South American republics and Mexico will also take a particularly active part, as well as
