A New Party Proposed.

INDIANAPOLIS, Dec. 18.—The committee of prominent Southerners who visited Gen. Harrison brings out the fact that beneath this endorsement of the protection doctrine lies what may prove the greatest political problem of this generation. Only the rudiments of the movement are as yet visible but beneath is a well-defined program for the founding of a new political party in the Southern states, the leading spirits of which shall be the business element, especially the manufacturing interests of the South.

The following tribute to the gift and skill of Dr. Darrin is a remarkable instance of a generous impulse worked out against powerful professional prejudice, and is worthy of record:

Carl to the public: I have for the past two years been afflicted with chronic pericarditis, accompanied with great pain around the heart all that time with excessive circulation, sleepless nights, fear and distress. I was unable to attend to the duties of my profession. I had exhausted my knowledge of medicine, as also that my colleagues, and found no relief until coming under the electro-magnetic treatment of Dr. Darrin. A little more than a month elapsed since I received this treatment, and I can truthfully say that I am cured. I have none of my former trouble, and wish to give my personal experience in the interest of humanity. I have been a practicing physician fourteen years, and am well known in this city and in Marshfield, Oregon. I deem it but justice to the public and to Dr. Darrin to write the above.

DR. STEELE.

TOTAL DEAFNESS CURED SIXTEEN YEARS AGO AND REMAINS PERMANENT TO THIS DAY.

Mr. Editor:—In 1872 my daughter was taken with the membranous croup and upon her recovery was left totally deaf. I called on two eminent physicians who said they could do nothing for her. As a last resort I took her to Dr. Darrin, who cured her, and she has never been troubled with deafness since. I consider it one of the greatest cures of electro-magnetic treatment on record, and with great satisfaction give this testimonial. I reside in Berkeley, Alameda county, California, and will take great pleasure in answering any inquiries concerning this most remarkable cure.

Yours respectfully,
WILLIAM S. DIBBLE.

NINE DOCTORS FAILED.

Three Most Remarkable Cures—How They Were Done by an Advertising Doctor.

A card to the public: I feel that I would not be doing my duty to woman-kind if I did not let them know how badly afflicted I have been and how and where to be cured. Ten years ago I was taken with a painful illness, and I have been troubled that way since that time, accompanied with woe and trouble in every conceivable way. About three months ago the climax came, and I was prostrated with pain through the heart, chest and lungs, and confined to my bed. After nine doctors of different schools of practice gave me up, I applied to Dr. Darrin, and they have cured me so I can walk from my residence to their office. I am overjoyed with the result of the cure. Mrs. E. A. AHLF.

OCCIDENTAL JOTTINGS.

News And Notes of a General Interest to the Westerner.

Clark Braden is delivering a course of lectures in Albany this week.

At Albina mumps have been quite prevalent, and whole families have been down with the disease.

The goods from the stranded steamer Yaquina Bay are at Albany. Very little damage was done to the merchandise on board.

D. L. Shirk, a wealthy cattle man of Grant county, who was indicted for murder, but the jury disagreed, is out on \$20,000 bail.

There is great activity in the timber land region along the entire length of Klamath river, where there is much fine timber.

The only quicksilver mine on the coast, outside of California, is at Oakland, in this state, and the yield is fifteen flasks per month.

The latest thing of the season that Curry county has produced is a rattlesnake making itself free with the outdoor world in December.

Steps have been taken to organize a building and loan association in Albany, several prominent citizens being connected with the enterprise.

Petitions are in circulation in Coos county, praying the legislature to appropriate \$15,000 to aid in building a wagon road up the middle fork of the Coquille river.

On the 19th day of December at places in Oregon tomato vines are green, volunteer Irish potato tops are over a foot high, and grass is green and fine enough for May.

The weather is especially favorable for setting out fruit trees, and many are making preparations to put out large orchards in the next two months. Hundreds of small orchards will be planted before spring opens.

It is now thought by sanguine timber men that large lumber interests will spring up in the upper Rogue river country in a short time, which will necessitate the building of a town at or about the falls of Mill creek.

A considerable amount of real estate is changing hands at Grant's Pass and in that vicinity. There will be much activity in all lands throughout the country next year, as a large immigration from California and the East is expected.

Oregon will receive an immense immigration during the coming year and new enterprises will be established. That section of the State will prosper most which will show the most enterprise on the part of its citizens.

The citizens of Harrisburg have organized a company and begun the manufacture of brooms. Several farmers near there raised small crops of broom corn this season, which was successfully manufactured into brooms and placed upon the market.

A suggestion has been made to connect Tillamook lighthouse by telephone to the main land. Only about two and one-half miles of submarine cable would be required to reach from Tillamook Head to the light, and it would soon pay for itself in saving trips to the lighthouse tenders.

Is Love With His Wife.

"What can I do to regain my husband's love?" writes Mrs. Carrie R. of Toronto. She adds that seven years ago she was married under the most happy auspices and until six months since happiness crowned her domestic life; then her husband became distant in his manner toward her, until now he is positively cold. Mrs. R. gives no particulars but if she is afflicted with diseases peculiar to her sex if her cheeks have lost their bloom, and her eyes their sparkle it may explain the cause of her complaint. In this event Dr. Pierce's Favorite Prescription will effect a magical change and restore her to health. As a powerful invigorating tonic, Dr. Pierce's Favorite Prescription imparts strength to the whole system, and to the womb and its appendages, in particular. For overworked worn-out, run-down, debilitated teachers, milliners, dressmakers, seamstresses, shop girls, housekeepers, nursing mothers, and feeble women generally, "Favorite Prescription" is the greatest possible boon, being unequaled as an appetizing cordial and restorative tonic.

TELEGRAPHIC TIDINGS.

Important Events of the Whole World for the Past Week.

A Bombarded City.

NEW YORK, Dec. 18.—Capt. Kelly of the steamer Saginaw, which arrived from Hayti, will not make any report of Haytian affairs, but it is learned from other sources that the steamer Haytian Republic was still in the harbor of Port-au-Prince when the Saginaw sailed.

Passengers by the Saginaw bring important news from Hayti. On the morning of the 5th of December, as the passengers state, four of Legitime's men-of-war, bombarded Cape Hayti. The gunboats dropped anchor four or five miles off shore, lying broadside on to the town. The guns were fired with blank cartridges to give notice of warlike intentions.

The foreign consuls in the city sent out a petition to the commander of the fleet, asking time to get out of the city. They were given thirty-six hours to evacuate the town. The people fled into the hills, taking all their possessions they could conveniently carry.

Mislead And Flood.

CARLEISLE, Pa., Dec. 18.—Reports from the surrounding country and a number of towns in the Cumberland valley show that thousands of dollars worth of property was destroyed last night by one of the most disastrous rain and wind storms which has ever visited this city. In the rural districts dwelling houses were unroofed, barns blown down, trees uprooted and fences blown to pieces.

More Oregon Railway.

SAN FRANCISCO, Dec. 18.—The survey of the route for a railroad line from Redding northward is creating much comment here. An evening paper says: "The departure of a large Union Pacific railroad survey party from Redding, seeking a route to Boise City, looks like business. It is only a matter of a few miles of track to connect with Oregon Short Line to give the Union Pacific a through route. The project has been talked of for years."

A Busted Bank.

SAN FRANCISCO, Dec. 18.—The California National bank of San Francisco, which was organized in 1880, with a capital stock of \$1,000,000 suspended to-day. Capt. R. R. Thompson was one of the principal stock holders.
