A PROTECTORATE FOR SAMOA.

SYDNEY, N. S. W., July 31.—The steamer Luleck from Apia brings rumors of disorders in Samoan villages. In the opinion of Europeans these disorders point out the necessity of the treaty powers, England, Germany and the United States, forming a proper government for Samoa.

RESULT OF THE INSURRECTION AT BUENOS AYRES.

BUENOS AYRES, Arg. Rep., July 31.—During the insurrection here the ironclad fleet which joined the revolutionary movement bombarded the city two days and serious damage was done to many buildings, especially those in the vicinity of Plaza Victoria. One thousand persons were killed and five thousand wounded.

WASHINGTON.

PLANS FOR IRRIGATION.

WASHINGTON, D. C., July 31.—An answer to inquiries regarding irrigation surveys contained in the recent senate resolution, was sent to the senate to-day by Secretary Noble. The general purpose and plan of the department, the secretary says, is to preserve the sources of water supply from the possession or appropriation of individuals or corporations.

MISCELLANY.

AN ILLEGITIMATE CHILD GETS FOUR MILLIONS OF PROPERTY.

SAN FRANCISCO, Cal., July 31.—The notorious and somewhat celebrated Blythe will contest, which began July 15th, 1889, and progressed steadily for over a year past, ended to-day. It resulted in Judge Coffey rendering a voluminous decision in favor of Florence, the illegitimate child of Thomas Blythe a deceased millionaire, awarding her the bulk of the great estate, consisting of houses and lands in this city and other property, of value about four million dollars.

The perfectly delightful weather of the Willamette valley is astonishing, even to the most ardent friends of this blessed region. They have phenomenal weather in Malheur county. The Vale Atlas says: "Occasional days of 100 deg. in the shade shows what the weather might be here if it wasn't for the nor-by-nor-west breeze dropping in every other day. Out here 110 deg. isn't as bad as 90 deg. at tide water. The humidity down there kills them by making the shirt stick to the back; here a man will take off his shirt one day and put on his overcoat the next."

Forced Upon Him.

The poor man was inconsolable for the loss of his wife.
"I will do it now," he cried, in a tone of anguish that melted his hearers' hearts; "I must do it!"
They tried to dissuade him from all thoughts of self-destruction, but their efforts seemed in vain.
"No, no!" he cried. "I was she alone that kept me from it. I cannot avoid it since she is gone. I shall have to go to work at last myself!"—East Oregonian.

A horse dentist has struck Pendleton. He fills teeth in much the same manner as the dentists who operate on the human teeth.

Marshfield News: Over \$50 was subscribed at Newport for Mrs. Victor Ogren, whose husband lately died after a protracted illness. The money was a great help to the bereaved family, and Mrs. Ogren desires to sincerely thank the citizens of Newport for their kindness.

Engine Register: The Congregationalists of this city are preparing to erect a church edifice on their lot just west of the Episcopal church on Eighth street. About \$3000 have been subscribed for that purpose and the plans are now being arranged. They expect work on the building to commence in about two weeks. They will endeavor to have all the funds raised before the church is completed, so as to do away with the custom of soliciting funds on dedication day. This is the fourth church to be erected in this city within the past few years, all elegant and substantial structures.

Ashland, Or., July 31.—Word has been received of the tragic death of Willie Clark, aged 15, on Pleasant creek, this county. He had left home in the morning at 10 o'clock to go hunting and his body was found in the afternoon, appearances indicating that he had slipped from a rock on which he had stepped and, falling, discharged the gun, the ball entering his abdomen. The shot did not kill him instantly, as eight shots were heard in quick succession, evidently his signal of distress, but when he was found, after several hours' searching, life was extinct.

WHY DID HE GO?

A St. Louis Merchant's Trip to the Postoffice, and the Result.
California's last session is beginning to take hold of St. Louis. J. V. S. Barnett, the commission merchant of 122 and 124 North Commercial Street, was one of the first to test J. V. S. Barnett's reputation in the city. He was such a great office surprise that he went over to the postoffice and told his friend, Thos. F. Culkin, emp't of the registry division, who was worried with headaches. The following letter details his friend's experience also:—
St. Louis, Feb. 20, 1890.
J. V. S. BARNETT, Esq.:
DEAR SIR: You ask me, Did I get your advice? I did, and thank you. For years I have suffered from indigestion and headaches. Taking your advice, I purchased a bottle of J. V. S. Barnett's Headache Remedy. Before I had finished it I could eat almost anything with impunity, and I have been free of my headache since. I give the credit to your advice and J. V. S. Barnett's Headache Remedy.
Yours truly,
THOS. F. CULKIN,
Emp't Registry Station, Postoffice.

OREGON CLIPS.

Eugene had to appoint special police to handle the crowd on circus day.

Astorian: Portland will spend \$2000 entertaining the Oregon editors. They are coming to Astoria, and should meet a hearty reception here.

First Asst. P. M. General Clarkson's write-up of his trip west contains the following reference to Oregon: "Oregon, too, is equally great in its natural wealth and possibilities. It already has one great city in Portland, which is one of the first three great cities of the United States for wealth and capital. It is a solid city in every respect with a future which must prove great if its harbor does not fail it, as it is more than confident it will not. It has the same sort of American spirit that its neighbors have. It is good to see the faith in the country and the pride in the flag."

The census is "out" all around. It controverts its own figures, as is shown by the Dalles Times-Mountaineer: At the last June election The Dalles cast 999 votes, and Albany 1019—twenty more. The publication of the approximate population of Oregon gives Albany 7000 and the Dalles 3000. Why is there such a disparity between the population of these two cities in the enumeration, when there were only twenty votes difference last June? There must have been something wrong somewhere. The population of this city was estimated—from the votes and the number of school children enrolled—at nearly 5000, and the most sanguine expectation of real estate dealers in Albany placed the population at the same figures. The census gives Albany more than double, which is absolutely inexplicable.

Eugene Register: Mr. S. J. Shrum, living ten miles from Acme, was roughly handled by a bear Sunday the 20th. He went blackberrying with his wife, taking his rifle with him because bears were known to be roaming in the berry patches. They had not gone far from the house when he discovered a bear that he shot at and probably killed; and as he fired, another jumped out of the brush between himself and the bear he shot at. This one he followed with his dog for an hour or more, and as Mr. Shrum was passing from one ridge to another he was met by the bear in the thick brush of the ravine. They were within ten feet of each other before either was aware of the situation. Mr. Shrum got a shot, but the bear got him about the same time, biting him through the hand and wrist, and also in the thigh and shoulder. At this point the dog came and grappled with the bear, and both disappeared in the brush, Mr. Shrum wandered home with his lacerated and broken hand, and was conveyed to Acme for treatment. W. G. Carle went to the scene of the encounter Monday and found the gun, and only thirty feet away found the dead bear measuring over six feet in length.

A Card.

The young business men of Salem appreciating the stand taken by the Rev. H. H. Brown, for constitutional liberty in his address at the opera house on Sunday last, proposed to present him with a testimonial. In less than an hour the sum needed was raised, but a small portion of those in sympathy having an opportunity to contribute, and on Tuesday he was presented with a set of resolutions signed by thirty of our business men, and a fine gold headed cane appropriately engraved was presented, which Mr. Brown accepted with thanks.

A Tried Remedy for Biliousness.

Those who suffer from disorder of function of the liver will never get the upper hand of the inveterate constipation, if they use such irrational remedies as blue pills, opium and podophyllum. But from the mild and powerful medicine, Hostetter's Stomach Bitters, they may expect relief with a certainty of obtaining it. The influence of the Bitters upon the great biliary gland is direct, powerful and speedily felt. The relief afforded is not spasmodic, but complete and permanent. The salowness of the skin, turned appearance of the tongue, indigestion, nervousness, headache, nausea, pains through the right side and shoulder, in fact every accompaniment of the obstinate complaint are entirely and promptly removed by a course of this reliable medicine, in behalf of which testimony is constantly emanating from every quarter, and from all classes of society.

A Healthy Sentiment is Growing.

up in some parts of the state against cruelty to animals. Editors can help this as well as any other good cause along, wonderfully. The latest issue of the Corvallis Times says: "Last evening as Chas. Reed started to drive home, one of his horses balked on Main street. Now, there is nothing much more aggravating than a balky horse, but the way Charley pounded the poor dumb brute with a club was very inhuman. He beat it over the head horribly and prodded it with a pitchfork. A warrant was sworn out for his arrest before Justice Carille, for cruelty to animals and he will have to answer before his honor for his cruel treatment."

WHAT IS A TUBULAR WELL?
Be Sure to Read and Get no Other

A genuine Tubular well is constructed by pulling down a three inch iron pipe, with openings except top and bottom. No dirt can get in and only pure water can be got out. This is the only kind of well that works and inside cannot get into, that is absolutely surface water proof, and that is forced through the cement strata to the pure living water. It is positively the only kind of well that is worth having in this country James A. Roberts, owner, residence near fair grounds, makes these wells. Terms reasonable. 10 years experience. 621-1m-dm-w
