INTERESTING REVIEW.—A writer in the Albany Democrat gives a very readable chapter on the history of that city from which the following gleanings are taken.

DESIRABLE AND BENEFICIAL.

The month of September this year proved a surprise to the oldest inhabitant by its persistent refusal to give a drop of rain to this portion of the valley.

INCognito.

The Albany Herald has this bit of romantic news: A good looking couple of young people presented themselves at County Clerk Payne's office yesterday and wanted a license to marry.

TEMPORARY ABODE.

Henry Schomaker, the wire and lath fence manufacturer and agent for Walter A. Wood's cutting machinery and for all kinds of farming implements handled by Staver & Walker, of Portland, having been compelled to vacate his storeroom on Commercial street to make room for a new brick building, has secured temporary quarters in G. W. Gray's brick building on State street, where the office of the electric street car line used to be.

FOR SALE.

A house, to be moved; inquire of S. E. Howard, 272 Mill street, the houseowner.

CEMENT WALKS.

A Few Facts in Favor of Good Walks.—Cement Walks the Cheapest in the End.

The attention of the JOURNAL was called to the subject of cement walks by some of the business men this morning, asking that a comparison be made between cement and board walks, as to the cost of each.

In consequence of the suggestions a JOURNAL man made some inquiries from those who have had cement walks put in. The cheapest piece of good work was put in for 12 cents a square foot, but it was found the work on State street between Church and High cost 13 cents a square foot, which is the usual price for such work.

To put down the same walk with lumber would require 1000 feet, which would cost \$12.50 at the mill. Allowing \$1.50 for nails and \$10 for a carpenter to put in the walk, would necessitate a cost of \$24, which is a low figure.

Ben Forstner, the bustling merchant down Commercial street, is doing business in Portland to-day and taking in the sights.

Dr. and Mrs. L. S. Skiff took this morning's overland train for a week's visit at Portland, viewing the exposition and other attractive scenes.

NEW CORPORATIONS.

Articles for three new corporations were filed with the secretary of state today. The Christian church of Coquille, Oregon, with J. J. Wilson, A. J. Seed and Elizabeth Front as the first directors; no property on hand at the time of filing articles.

IN PROBATE.

In the matter of the guardian ship of Willie and Charlie Mumpers, minors, E. Mumpers, the guardian, filed his annual account which is allowed by the court.

TO-NIGHT.

Miss Ames makes her appearance to-night in some of her choicest readings at the university chapel. Many will be interested in how she acquires herself.

NEVER DISAPPOINTED.

That is a happy condition of life to be in, and the enterprise and honesty of the men you deal with goes far to establish it. It is the small details of life and expenditure that worries us with disappointments a good deal more than the money it costs.

RELIGIOUS.

The German Lutherans of Salem and vicinity are invited by the German Lutheran minister, Rev. Gust. E. Meyer, of the Missouri synod to attend the service which will be held on Sunday, Oct. 5th, at 2 o'clock p. m., in the Christian church of Salem.

SEWING MACHINE CASTOR.

T. Cook is agent for Sloan's celebrated six wheel sewing machine castor. On exhibition at Brooks & Harrist's. Will be left on trial if desired.

REORGANIZED.

The military company at the University was reorganized yesterday, and their officers for the year were elected.

LUMBER.

Contractors and parties contemplating building, should not fail to call on J. F. Jacobson for estimates on rough and dressed lumber. Yard and office near agricultural works.

Lamp chimneys only five cents at Crissman's 5 and 10 cent store.

SCHOOL FACILITIES.

At a meeting of the board, which closed this afternoon, it was decided to have one room of the Little Central school building fitted for occupancy as a primary room. It is to be ready next Monday, although a teacher has not yet been agreed upon.

OFF THE TRACK.

A flat car laden with rock was run off the track at the S. P. depot, in this city this afternoon, which blocked the side track for a while and left stones scattered promiscuously along the track.

PERSONAL AND LOCAL.

Hon. A. Bush is a business visitor to the metropolis to-day.

Thos. Kay, of the woolen mills, was a passenger to Portland this morning.

J. W. Ewing and A. L. Park-haus, of Portland, were appointed notaries public to-day.

W. A. White the late prison commissary, has purchased the restaurant business of Robt. Thompson.

Ben Forstner, the bustling merchant down Commercial street, is doing business in Portland to-day and taking in the sights.

Dr. and Mrs. L. S. Skiff took this morning's overland train for a week's visit at Portland, viewing the exposition and other attractive scenes.

Major W. H. Manning, of Canyonville, Douglas county, was in this city over night visiting his son I. A., and went to Portland this morning.

Blacking brushes only 15 cents at Crissman's 5 and 10 cent store.

Notice To the public of Salem and vicinity: I hereby most respectfully announce that I have reopened my dyeing and cleaning work in the same place, 183 Commercial street, where I shall be glad to receive your calls.

Yours respectfully, ALFRED WALDEMAR NELSON.

MARRIED.

WARNER-HAHN.—At the residence of George Carter, 500 High street, Salem, October 1, 1899, at 12 m., Mr. Walter B. Warner, of Salem, to Miss Anna Hahn, of Whitesaker, Rev. E. L. Bollinger officiating.

The groom is a printer boy and stands well in his calling as well as in Salem circles where he is best known. His bride is one of Waldo Hills' solid farmers' fairest daughters. The ceremony was not formal, being witnessed by the relatives of the contracting parties and friends. No trip will be taken, but Mr. and Mrs. Warner will settle down sensibly to the real business of life in a cozy home on Front street.

An elegant and substantial dinner was served by the lady of the house, and some beautiful presents were received. It was as nice a wedding as has been celebrated in Salem in many a day, and congratulations were most hearty.

THE LUNCH.

This is an institution of great and growing favor. We can hardly pick up a paper that has not a glowing advertisement of a mouth-watering free lunch. An eastern paper before us has a column of fine-print cards, each setting forth the unctuous beauties of some particularly inviting lunch. At one is offered Frankfurt sausage and potato salad; at another chicken corn soup; at a third offers a delicious vegetable soup; sour kroust, tripe and oyster lunch; clam soup, (a thousand miles from any clam bank); mock-turtle, roast beef; ham and country sausages, etc., etc. Sour kroust, potatoes and pork seems to be the most popular combination, as this appeals not only to Americans, but Germans and Irish. It might be called the gustatory tri-logy that catches them all.

The pious or over-moral may not consider this worthy of editorial notice. But it contains important food for thought as well as workmen's stomachs. We do not presume that no coupon-clippers or Fifth avenue style people take in the free lunch, but the laboring masses in our large cities are particularly enticed by these steaming dishes and the big steamer attachment.

The increasing popularity of the free lunch is a good sign in one way, as it is a great improvement upon the strictly American custom of stepping up to a bar and gulping down several treats around of liquor. It means more moderation in drinking customs, and less intoxication results from liquor taken with food. Also the lighter drinks, as beer and wine, alone are consumed with lunches. The bad side of the subject is that it tends to popularize drinking and the moderate use of liquors. It increases the sale and profits of the liquor traffic and tends to multiply its political influence. It forces society to recognize the necessity of coping with the evils of the traffic. The home must guard itself with better culinary attractions. The church must better develop its social influences. For free lunches are becoming a great institution in the land.

Some Suggestive Facts.

The official report from the United States consular officers, received by the state department during the last few months and just published, on the subject of sugar, reveal a state of facts of interest not only to every business man and every consumer in the country, but also and especially to all who are interested in the development of the beet-sugar industry in Nebraska and elsewhere in the northwest. These facts are not less significant as regards the policy of reciprocity, now engaging so notably the attention of the country.

The first striking fact is the astonishing rapidity with which the production of beet sugar has grown in Germany and other European countries during recent years, particularly during the last three or four years. So rapid has been the increase of the output of beet sugar that Cuban cane sugar has been almost totally driven out of the European markets, and the Cuban cane industry has now been reduced to absolute dependence upon the markets of the United States. In 1887 the beet-root product had reached the amount of 2,481,950 tons of sugar, having doubled in ten years. In 1888 it was 2,785,844 tons. In 1889, by the sudden increase in the German beet fields, the total was swelled to 3,600,000 tons. The following table, made up from the official government reports, shows the product for 1889-90.

Table showing sugar production in tons for various countries: Germany 1,300,000, Austria-Hungary 730,000, France 750,000, Russia 480,000, Belgium 200,000, Holland 60,000, Other countries 80,000. Total 3,600,000 tons.

gest, now supplies the entire European consumption. Germany, France and the other producers of beet sugar are exporters to the European countries which either do not produce it at all or not sufficiently to supply their own consumption. This fact has proved utterly revolutionary in business, and could be nothing less.

Hibbard's Rheumatic and Liver Pills. These pills are scientifically compounded and uniform in action. No gripping pain so commonly following the use of pills. They are adapted to both adults and children with perfect safety. We guarantee they have no equal in the cure of rheumatism, constipation, dyspepsia, and biliousness; and, as an appetizer, they excite any other preparation.

Why it is Popular.

Because it has proven its absolute merit over and over again, because it has an unequalled record of cures, because its business is conducted in a thoroughly honest manner, and because it combines economy and strength, being the only medicine of which "100 Doses One Dollar" is true.

Ordinance No. 196.

An ordinance bill providing for the protection of public sewers, by the method of making connection therewith, and for making a record of such connections. Be it ordained by the common council of the city of Salem:

SECTION 1.—It shall be unlawful for any person or persons to obstruct or in any manner interfere with any public sewer within the city of Salem, or to make any connection therewith without the written permission of the city recorder.

SECTION 2.—Any person desiring such connection, before making the same, shall make application in writing to the recorder or for a permit therefor, particularly describing the premises to be drained and the point of junction with said public sewer.

SECTION 3.—The city recorder is hereby authorized to grant permits for such connections, subject to such restrictions as to the size and material of such connecting pipe, the location of traps and the manner of doing the work, as the recorder and committee on streets and public property may deem necessary. And when requested by said committee, he shall require the applicant to furnish a bond or security sufficient in amount to indemnify the city against loss or damage resulting from his carelessness, imperfect work or material, or failure to comply with the terms of the permit or of this ordinance.

SECTION 4.—The person obtaining such permit shall make the connection therein authorized in accordance with its terms, under the supervision of the street commissioner as provided in ordinance 174; he shall cause the portion of the street or alley disturbed by him to be placed in as good condition as to city, the recorder in writing of the completion of the work, that a record may be kept of such connection.

SECTION 5.—The recorder shall make a record, in a suitable book, of all connections made on streets and public property of the city, and such as may be hereafter made under the provisions of this ordinance, showing the location, size and material of the connecting pipe, the point of junction with the public sewer, and the name of the person or persons to whom the permit was granted together with the time when such connection was made and shall make such other record relating thereto as said committee may direct.

SECTION 6.—Any person violating any of the provisions of sections 1 or 4 of this ordinance, shall upon conviction thereof before the recorder, be fined in a sum not exceeding fifty dollars. A true copy. (Attest) L. F. GUNN, Recorder.

Passed the common council August 7th, 1899, and approved by the mayor August 17th, 1899. (Attest) G. W. WILLIAMS, Mayor, Oregon, Sept. 14th, 1899. L. F. GUNN, Recorder.
