

was killed and others injured, among whom were several deputies. The deputies were trying to keep the Hungarians from carrying back the household goods thrown out of the houses in the morning. A big, strong Hun was fighting with several deputies, and Sheriff McCormick came to their assistance. The Hun saw him coming, and tried to shoot. The girl who was killed was the lover of the Hun, and was fighting for him against the deputies. The latter say a pistol went off in the hands of the Hun and killed the girl. Company "C," of the 18th regiment, was quickly brought to the scene, and it is believed had it not been every deputy would have been injured, if not killed. Sheriff McCormick was slightly wounded in the hand by a stray bullet. Evidences will take place at Leith tomorrow, and trouble is feared.

GOT HIS BACK UP.
CHICAGO, April 23.—Mark MacDonald, United States commissioner from California, had a tilt with the fair management this morning, the upshot was MacDonald left for home. The trouble arose over a resolution of the California commission passed April 17th, in favor of separate state display. The world's fair officials object to separate state exhibitions.

SODAVILLE NEWS.
A new business building will be built on Main street within the next 30 days.

There are only one or two cases of grippe in this section, and they are very mild.

Sodaville is fast assuming a shape that will enable her to better provide for her many guests during the summer.

People have already begun to come in to the spring for rest and health. Plenty of room and free water.

Much work has been done on the block in which the spring is situated, during the past few weeks, and more will follow soon.

Sodaville is an incorporated city, and her laws are rigidly enforced. We have no saloons or billiard halls, which are deadfalls for young men.

A Cornet band has just been organized in our village, and the boys will make music for the health and pleasure seekers, during the season.

Messrs. Peery & Terhune are making some important improvements on their lively stable on Main street in the way of a new front and other needed repairs.

A W. C. T. U. was organized in our midst a few nights since, with a membership of fifty, by Mrs. Emily P. Stevens, of California. We wish her success in her good undertaking.

The large, new hotel of W. R. Hardman, which was not finished in time to accommodate all the people, is now occupied in the fullest sense of the word, and ready for the vast numbers that will come.

The Free Methodists will hold their annual campmeeting, for the third district of Oregon at this place, beginning on the 27th of next month. A large crowd is expected to be present, as people will come from many different counties.

Our school is under the management of Louis Barzee, a former Marion County teacher. There is a full attendance and all things going smoothly. A new wing will be built on the building during the coming summer and another teacher hired. Mr. Barzee will serve us another year in the capacity of principal.

Sodaville, Or., April 21, '91.
The popularity which Hood's Sarsaparilla has gained as a spring medicine is wonderful. It possesses such elements of health-giving, blood-purifying and appetite-restoring, which everybody seems to need at this season. Do not continue in a dull, tired, unsatisfactory condition when you may be so much benefited by Hood's Sarsaparilla. It purifies the blood and makes the weak strong.

MAGAZINE EXPLOSION.

ROME, Italy, April 23.—About 7 o'clock this morning a tremendous explosion shook this city to its foundation, spreading terror and dismay on all sides. The cupola of the House of Parliament immediately after the explosion shook violently and then collapsed with a crash which added still further to the feeling of terror. The scenes in the streets and in the houses, after the explosion have possibly never before been equalled during the history of modern Rome. All thoroughfares are strewn with bricks and stones, splinters and other debris, hurled there by the force of the powerful explosion. When something like order was restored the real cause of the explosion became known. It was discovered that the immense powder magazine at Pozzi Pantaleo, four kilometers from here had exploded, and that it had caused enormous damage to a neighboring fort, filled with many soldiers. The officer in command of the fort heard a rumbling sound previous to the final explosion, and hastily ordered the soldiers to leave the fort. He succeeded in avoiding the terrible disaster, as several peasants who were in the vicinity of the scene of the explosion were killed outright, and a number of others more or less injured. All houses within a radius of a kilometer of the scene of the explosion, are seriously damaged. Exact number of killed and wounded is unknown. Two officers are dangerously wounded and fully 125 civilians have been taken to different hospitals. Several famous stained glass windows in the vatican building were shattered. The full amount of the damage is not known at present, but the loss is severe. Another report says: Five more are killed in addition to the large number wounded already mentioned and forty small houses reduced to ruin by explosion. The magazine contained 250 tons of powder. The cause of the explosion is unknown.

LATEST FROM COKE REGION.

SCOTTSDALE PENNA. Apr. 23.—The latest reports concerning the riot at Adelade plant of the Frick Co. last night, is that none of the persons injured will die. Sheriff McCormick is badly wounded. No trouble is reported from other parts of the region. Shortly after noon today sheriff McCormick being evicted from Leisinger No. 3. While attending to his duties a Hungarian woman named Giasbo, shot at him the ball inflicting a painful flesh wound in his hand. The sheriff grabbed her by her wrist and the revolver from her. The infuriated woman then secured an ax and attacked him with that weapon giving him an ugly cut on the foot. McCormick then shot the woman in the leg. By this time a great crowd of strikers had gathered around and one Hungarian made for the Sheriff. McCormick shot the man in the mouth. Deputies were gathered in a knot by this time and evictions were carried through. It is not believed any one of the three persons shot, were fatally injured.

THE PRESIDENT'S JOURNEY.

LOS ANGELES, April 23.—At no place visited by the president since his departure from Washington was he accorded a heartier or more hospitable welcome than at Los Angeles, at which place his flower-laden car arrived at 3 o'clock yesterday afternoon. As the train rolled into the station, a national salute was fired, people cheered lustily, and all the bells and whistles joined in the acclaim. The city was lavishly decorated in honor of the distinguished visitor. Every available point of vantage was covered with flowers, including the carriage provided for the visitors. Calla lilies seemed to be the favorite flower, and they were seen on every side.

The ceremonies opened with a street parade, in which all the United States troops, militia, G. A. R. post, and civic organizations in this city and vicinity participated. They escorted the president and his party through the street, which was crowded with hundreds of enthusiastic people; hundreds of children lined the sidewalks at one point of the route, and they showed the

SCROFULA

is that impurity of the blood which produces unsightly lumps or swellings on the glands of the neck, causes painful running sores on the arms, legs, or feet; develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "Humors," and fastens upon the lungs, causes consumption, and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can CURED It Be

By taking Hood's Sarsaparilla, which, by its remarkable cures, has accomplished, from when other medicines have failed, has proven itself to be a potent and powerful medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula or impure blood, be sure to try Hood's Sarsaparilla. It is the only medicine that children have been troubled with scrofula, sores breaking out on them in various places. My little boy, three years old, has been a terrible sufferer. Last spring he was one mass of sores from head to foot. I was advised to use Hood's Sarsaparilla, and was cured of the scrofula, my little boy being entirely free from sores, and all four of my children look bright and healthy."

Improve Your Strawberry Stock.

TO STRAWBERRY GROWERS.
A Wonderful New Berry—Originated in Oregon—The Matteson.

There has been originated in the great strawberry region about Turner and Amaville a new seedling variety, propagated by Matteson & Matteson, at their Red Hill Berry Farm. The first berries sent to the CAPITAL JOURNAL office, Salem, last year were of this variety, and they were the most perfect fruit in every respect that was shown in this city. The berry is of a deep red clear through, high flavor, yet sweeter than most kinds. An experience in producing the finer sort of strawberries, leads the editor of this paper to say that he does not know of a SUPERIOR BERRY IN FINENESS OF QUALITY in every respect to

THE MATTESON.

He has secured the sole agency from the originator and now for the first time places a limited supply on the market. Testing the fruit, and a description of its habits, leads the editor of the JOURNAL to conclude that it must be sought after to produce fine berries in Oregon. It is of high color, great sweetness, rich flavor, meaty, firm, not watery, no hard center, and exceedingly palatable.

DISCUSSION.
The originator has placed the sale of this new plant in our hands and orders will be booked at following prices:

1 Dozen plants postpaid by mail, \$1.00.
100 plants by express, \$5.00.
To save express charges plants will be delivered at the JOURNAL office to city purchasers, where orders can be left. Fifty plants will be furnished at hundred rates. Address, E. Hofer, CAPITAL JOURNAL, Salem, Oregon.

LOOK AT THE RECORD OF THE CAPITAL JOURNAL.

During the recent session of the legislature it was the only paper in the state that attacked state policy. It successfully opposed all the measures of the legislature in the interests of political bosses. It advocated the law that passed giving the Oregon railroad commission power to fix just and reasonable rates of freight and to control the construction of the line. It advocated the retention of the territorial commission as best qualified to enforce the law. It favored the most secure title to riparian rights and thus secured the right to free and unobstructed use of the waterways.

ITS PLATFORM.
THE CAPITAL JOURNAL favors a reform in national finance, to the end that the present expensive monopoly of the system of currency be broken up, and a system of currency be established that will be controlled by the people, and not by the legal tender money, with a coin base and a silver base, or are directly responsible to the people, by direct voting of the people. It favors raising all state revenues, both foreign and domestic, by opening all waterways to the sea and abolishing the monopoly of the coastwise trade that the producer should secure the largest and best returns.

It favors retaining all powers granted in the hands of the people and government. It favors the election of the people, direct and indirect, to the office of the president. For terms, see elsewhere.
