OLD FOLKS' WHIST CLUB.

The club was royally entertained last evening at the residence of Dr. Richardson, all the club and several invited guests being present. The evening was passed in conversation and "drive whist," and the awarding of the prizes for the first and second best players created a round of amusement and laughter. A bounteous lunch was served and about 11 o'clock the club adjourned, after announcements for the evening had been made. It is rumored that with the collection of prizes already bestowed, and others in prospect of delivery at the next and future meetings, a grand museum and menagerie is to be established under the patronage and control of the club. The receipts from admission, etc., to be applied to some charitable purpose. How much truth there may be in the rumor, we are not prepared to say.

The state encampment should be made the most of to advertise our public spirit and patriotism.

A MONSTER MAP.

Ten Thousand Copies of a Lithograph to be Made by the Union Title Abstract Co.

O. M. Smith manager of the Union Title abstract Co., will today and tomorrow conclude his canvass for orders for the mammoth lithograph map of Salem and suburban additions. At noon today he had 8,400 subscribers for it and it will be necessary to get 1,600 more taken before the contract can be let. Mr. Easton, topographer has been at work two months preparing the map from the original records based on a plat of the land entries as they are preserved in the records of the surveyor-general's office. This map is 7 1/2 feet in size and shows 90 subdivisions and plots added to the original city, and all streets, parks, squares, lots, blocks, alleys, etc. Circles will be drawn from the state house for each one half mile radius, showing the relative distances of all suburbs from that center. These circles will be a revelation to many who think they know just how the city lies. The lithographed copies will be supplied at 60 cts, each and no doubt enough more can be taken to ensure the publication.

THE VIADUCT.

Plans Completed and Specifications Nearly Ready for Bidders.

The DAILY JOURNAL for one day had nothing in about the viaduct, but it was simply because the gentlemen who are authorized by the council to go ahead with this important public improvement attend church and did not work on Sundays.

THE PLANS.

Now we have progress to report. The plans are so far materialized that there will be two thirty-foot arches instead of one eighty-foot arch.

THE COST.

Preliminary estimates have been made and show that a stone arch viaduct of rubble work masonry can be built for \$13,000. A viaduct of cut stone arches can be built for \$14,000. This work can be done of the gray Polk county basalt.

STEEL WORK.

Figures on steel work have not been received, but it is known that a steel superstructure for a full street wide viaduct will cost as much as the whole stone viaduct.

TALMAGE SERMONS.

The wonders of the telegraph are astonishing and one of its greatest achievements is to lay before the readers of the live public newspaper the world over Dr. Talmage's Sunday sermons the day after they are delivered. These sermons appear regularly in the CAPITAL JOURNAL, DAILY and WEEKLY and go to an audience of not less than ten thousand readers a week. At times thoughtless persons refer to the "Godless press," but a weekly sermon is a regular feature of all modern progressive newspapers. It is one of the most popular features of THE JOURNAL, appreciated by saint and sinner alike; and the fact that Rev. Kellerman pro-

poses to preach a series of sermons on the Holy Land, will add an additional interest to the Talmage sermons, which contain many allusions to Palestine.
