"Thick and Glossy."

THE PRODUCTION of an abundant growth of hair, of a silk-like texture and of the original color, often results from the use, by those who have become bald or gray, of Ayer's Hair Vigor:

"I was rapidly becoming gray and bald, but after using two or three bottles of Ayer's Hair Vigor my hair grew thick and glossy and the original color was restored."—M. Aldrich, Cassara Centre, N. H.

"A trial of Ayer's Hair Vigor has convinced me of its merits. Its use has not only caused the hair of my wife and daughter to be abundant and glossy, but it has given my rather stubble mustache a respectable length and appearance."—B. Britton, Oakland, Cal.

"I have used Ayer's Hair Vigor for the past four or five years and find it a most satisfactory dressing for the hair. It is all that I could desire, being harmless, causing the hair to retain its natural color, and requiring but a small quantity to render the hair easy to arrange."—Mrs. M. A. Bailey, 9 Charles st., Haverhill, Mass.

HE HAD ONE FRIEND.

The Murderer Hanged at Cheyenne Yesterday.

HANGED FOR MURDER.

Fate of a Desperate Young Murderer.

NEW YORK, April 23.—An old man, evidently not much experienced in sending telegrams, went into the office of the Western Union Thursday afternoon, and after much labor handed in a dispatch to the receiver, as follows:

"Give these few dollars to Charley, and tell him good-by."

GEORGE HOLZ

"I want to send \$18 with this telegram to Cheyenne," he said. He told the receiver to whom order he wanted the money paid, and then asked anxiously: "The money will go today, won't it? It would be no use unless it did. Looking up my accounts today I found I owed the poor fellow \$18, and I resolved he should have it before he died. It will help to give him a decent burial."

"Why are you so anxious it be paid today?" asked the receiver.

"The boy is to be hanged tomorrow," was the answer, "and I want him to have the money to buy a new suit of clothing to be buried in."

In response to a further question the old man said:

"The boy is Charlie Miller. He was born in New York and is only eighteen years old. His father and mother died some years ago. He was placed in an orphan asylum. He has one brother and two sisters. I was appointed trustee of his estate, which was worth about \$1000, and I learned the printing business, and went West. Two years ago he returned to New York, but soon went West again. He had drawn most of his money, and long before he reached Cheyenne he was penniless and hungry. On the train he fell in with two men who had plenty of cash. He waited until they had gone to sleep. He then took a revolver out of his pocket and killed them both. He stole all their money and jumped off the train. Another man was arrested for the crime, but eventually Charlie gave himself up. Every effort has been made to get the governor to commute his sentence, but without success."

SOME OF THE DAMAGE.

By the Late Earthquake in California.

SACRAMENTO, April 23.—Reports of the Bee who have been at Woodland, Dixon and Davisville state that almost every brick building in the town of Woodland suffered, the walls and plastering being cracked everywhere, but the only thing approaching wreckage was at the Capital hotel, where a portion of the fire wall tumbled down and crashed through the awning, to the dismay of those who had fled to the streets. The next greater damage was to the large schoolhouse on Main street, which was so badly cracked it has been declared unfit for school purposes. At Dixon there does not appear to be much damage on the surface, but many buildings are a great deal worse off than they appear. This is the case with the Dixon Baptist church, erected a few years ago at a cost of \$14,000. The damage appears to be trivial on the outside, and yet the pastor, W. T. Jordan, assured a reporter that a contractor had informed him the cheapest way to repair the damage would be to tear the church down and build a new one. The Masonic hall also must be almost rebuilt by repairs, although the damage does not show outside. Davisville came out luckily, and citizens have little complaint to make. A drive over the country road from Dixon shows many demolished chimneys on farm-houses. Around Davisville similar damage is noticeable.

Incendiaries at San Jose.

SAN JOSE, Cal., April 13.—At 10:45 o'clock Thursday night a cottage on Clay street, in East San Jose, was discovered to be in flames. When the doors were broken down it was found that in each room a fire was burning. Large piles of hay and rags were in every corner of the room, and coal oil had been used. The fire was soon extinguished. In the meantime the barn was found to be in flames. An investigation showed oil had been used there, too. This was also put out before much damage was done. At 12:30 yesterday morning the house was again seen to be on fire, and flames were issuing from the roof. As the water supply was scant, the house soon burned to the ground. The loss on the house is about \$20,000. It was a clear case of incendiaries.

About 12:30 yesterday morning fire was discovered in a large hay barn near Autumn street. By the time the firemen arrived at the scene it was beyond control and they turned their attention to saving the adjoining buildings. The fire originated directly back of R. T. Moorehead's hay barn and is believed to be the work of an incendiary. Twice within the last two months attempts have been made to destroy the barn. Four horses were burned to a crisp, also seventy-five tons of hay. The barn was totally destroyed.

Timothy Hopkins' Share.

SAN FRANCISCO, April 23.—A New York special says it turns out that Timothy Hopkins' demands for a liberal portion of his foster mother's estate were much more liberally acceded to than Edward F. Searles' attorneys would at first have had the public believe. The real settlement, it is now admitted, was at about \$1,000,000 more than the \$3,500,000 which Hopkins was said to have received, and the properties given to Mr. Hopkins are so largely undeveloped that their natural expansion by a little effort will in a few years, it is said make them worth at least \$10,000,000.

More Incendiary Fires.

LOUISVILLE, Ky., April 23.—Seven more incendiary fires occurred last night, fortunately resulting in small damage. The police are at sea as to the perpetrators.

Earthquake in Chili.

SANTIAGO, April 23.—During the past week details have been received here of severe and light earthquakes at Taltava, Serena and several coast towns. The predictions of a German scientist relative to these earthquakes are prominently noticed in the press. The predictions were nearly correct. The next shocks are predicted to occur between April 23 and 26.

It is learned here that in February, 1889, Frank Bell and Alfred Cohen were arrested in Montevideo, on the charge of attempted robbery and shooting a policeman. Bell is a native of Pittsburgh, Pa. He served in the United States marine corps. Cohen is also believed to be an citizen. Bell's wife is a Chilean and resides at Valparaiso. Bell is imprisoned without trial. He claims in his letters to his wife that he applied to United States Minister Munley and Consul Hill, but received no redress.

Will Fight Today.

LONDON, April 23.—The latest reports concerning the prospective duel between Fox and Borrowes growing out of the publication of letters in the Borrowes-Drayton affair, is that the parties have fixed up some place in Belgium as the scene of the combat. It is said the duel will be fought today.

Cholera in India.

CALCUTTA, April 23.—A very violent epidemic of cholera is raging in Benares. Yesterday there was 180 new cases. 135 deaths are reported. The epidemic is the result of an utter disregard of all sanitary precautions.

Hood's Sarsaparilla, which, by its remarkable cures it has accomplished, often when other medicines have failed. It has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula or impure blood, be sure to try Hood's Sarsaparilla.

Every spring my wife and children were troubled with scrofula, sores broke out on them in various places. My ten-year-old son, three years old, has been a terrible sufferer. Last spring he was one mass of sores from head to foot. I was advised to use Hood's Sarsaparilla, and we were cured of the scrofula, my little boy being entirely free from sores, and all four of my children look bright and healthy."—V. B.
