One Man and Two to Three Hundred Women.

SAN FRANCISCO, Jan. 13.—Advice by steamer China, from Hong Kong, give an account of the appalling accident at Nizapo, a month ago, resulting in the death of between two and three hundred women and children. The annual theatrical performance, in honor of the Chinese gods, was being given in the temple, and about four hundred people were present. A boy threw a lighted cigarette into a heap of straw. In the rush to escape, a man was trampled to death. Others were killed by jumping from windows. The whole building was soon ablaze. Those unable to escape were burned alive.

#### Another Case.

KANSAS CITY, Jan. 13.—A crowd of 2,000 men collected outside Turner hall to take vengeance on A. P. A. Lecturer J. V. McNamare, "ex-priest of Rome." The speaker appeared on the platform with a rifle and a revolver, stating that there was murder in the air. After the lecture he and his wife, both armed, entered a carriage. Some one threw a stone at McNamare, who fired into the crowd, and a running fight of several blocks ensued, in which many shots were exchanged. They finally reached the hotel in safety.

#### MADE THE WOMEN BLUSH.

Broad Language Used by Editor Stead in Chicago.

CHICAGO, Jan. 13.—Wm. T. Stead made an address at the People's Institute, on the West side, and abused everything Chicago possesses. His object was to show up the seamy side of life in this city, including the rich men who rob right and left and the women who sell their bodies in order to get bread. He took a fling at the city council, denouncing it as being composed in the main of men who came from the lowest elements of the city, and said the fact of such men legislating for such a great city as Chicago was absurd. He intimated that many of the members of the city council were little better than thieves, and he was liberally applauded for the sentiment. The wealthy woman who thinks only of herself and neglects her hungry and destitute sisters, came in for a share of attention. The speaker drew pictures between the woman rolling in

### THE POOL OF POLITICS.

Free Trade in Wool to Go Into Effect at Once.

### CONGRESS ON LABOR-SAVING MACHINES.

Details of Carlisle's Bonding Scheme.

#### THE TARIFF BILL.

WASHINGTON, Jan. 13.—The speaker announced a number of committee appointments and the house went into committee of the whole for consideration of the tariff bill, the pending amendments being those fixing the date on which the free-wool schedules should go into effect. The Payne amendment to make free-wool go into effect October 1, 1895, was lost, and on Johnson, making the free-wool clause effective immediately on the passage of the bill, was carried, 112 to 102. This is the first defeat for the committee.

#### Only one other amendment was acted on today, namely, to allow free entry in bond of machinery as well as matter used in the construction of ships built on foreign account. The rest of the day was spent in discussing the amendment of Mr. Burrows, to substitute the present wool schedule for that proposed by the Wilson bill. At 5:30 the house took a recess, until 8 o'clock.

#### LABOR.

The house committee on labor ordered a favorable report on McCann's resolution authorizing the commissioner of labor to investigate and report upon the effect of the use of machinery upon labor and cost of production, the relative productive power of hand and machine labor, the cost of manufacturing with machine power and its effect on wages, use of machinery operated by women and children. Ten thousand dollars was appropriated to enable the commissioner to carry out the provisions of the resolution.

#### HAWAII.

The state department has received a dispatch dated at San Francisco, from Samuel Parker, ex-primier minister and minister of foreign affairs in ex-queen Liliuokalani's cabinet, refuting the statement that the ex-queen has any intention of claiming damages from the throne of Hawaii.

#### THE BOND ISSUE.

Secretary Carlisle has issued the following circular inviting proposals for five per cent bonds:

"By virtue of the authority contained in an act entitled 'An act to provide for the resumption of specie payment,' approved January 14, 1875, the secretary of the treasury hereby offers for public subscription, an issue of the bonds of the United States to the amount of \$50,000,000, in either registered or coupon form, and in denominations of \$50 and upwards, redeemable in coin at the pleasure of the government after ten years from the date of issue, and bearing interest payable quarterly in coin, at the rate of five per cent. Proposals for the whole or any part of these bonds, will be received at the treasury department until 12 o'clock, noon, on the first day of February, 1894.

Allotments of bonds will be made to the highest bidders therefor, but no proposal will be received at a lower price than \$117.223 which is equivalent to a 5 per cent bond at par, and the right to reject any and all proposals is hereby expressly reserved. The bonds will be dated February 1, 1894."

Mr. Allison, a member of the senate finance committee, said that congress ought to have been called upon by the secretary of the treasury to take up the bond question before the tariff bill, as the former was the more pressing.

The government has informed the foreign residents that it will not accept any liability. The government's stores are being bombarded by the insurgents' storehouses on the Eu Chados Islands.

General Ortiz, who is chief in command of the invading forces, has requested General Antonio Ezeta's assistance in the fight. General Ezeta, who is fully authorized to answer for Salvador, refuses to lend aid to the invaders of Honduras and declares Salvador will maintain a strict neutrality, but would be willing to act the part of a peacemaker, if invited.

#### The Senate Cancels.

DENVER, Col., Jan. 13.—The senate has a majority in the caucus considering the proposition providing for the dismissal of every officer and employee in the senate and followed by an adjournment for one day, every member then to go home and not return. Should the resolution pass it will leave the governor without an official to call the senate to order, or arrest members on a writ of attachment and will be the means of compelling the house to adjourn.

#### WILL THEY BE LEGAL?

Having determined upon an issue of bonds, the question arises, will they be legal? It is probably a question of construing a law of congress that could only be settled by the supreme court of the United States. The question of the propriety of issuing bonds, or the value of such a measure in restoring prosperity is not considered. Secretary Carlisle's decision to issue bonds by virtue of the general authority granted to the secretary of the treasury under the act of 1875, has aroused interest in the question as to the legality of such action. It is well understood that Mr. Carlisle would not resort to this general act except for the purpose of meeting the pressing demands for cash.
