## A SILVER CONVENTION.

### Successfully Assembled at Salt Lake City.

### AN INVITATION TO THE EAST

### To Come Together On a Reasoning Basis.

SALT LAKE, May 15.—Last night's and this morning's trains brought in a large number of delegates to the silver convention which convenes in the Mormon tabernacle today. Delegates are present from seventeen states and territories. The policy outlined by prominent members of the convention is to make the movement a non-partisan one. The purpose is to encourage men to work silver's cause without asking them to break any party lines. It is to be an unanimous movement for silver, independent of politics. It will not be an assault of the west upon the east, but an invitation for the masses of the eastern people to come together on a reasoning basis and give relief to the west by doing the silver industry justice. A monster procession was formed at the Knutsford hotel, headed by a platoon of police, and passed through the principal streets, reaching the tabernacle about noon. The convention was called to order by Governor Rickards, of Montana, and addresses of welcome were delivered by Governor West and Mayor Baskin.

**A Silver Bolt.**

SAN FRANCISCO, May 15.—Instead of the great results for free coinage aimed at, the visit to California of General A. J. Warner, head of the American bimetallic party, and Congressman Joseph C. Sibley, of Pennsylvania, has produced an opposite effect. The effect is the flat secession of the state silver league from General Warner's national organization. The trouble was caused by the attempt of General Warner and several congressmen, enthusiastic for the remonetization of silver, to make Sibley the presidential candidate of the white metal party in the next campaign. The expressions of antagonism toward General Warner's booming of Mr. Sibley were so many and loud that a meeting of the executive committee was called at Los Angeles Saturday.

The entire matter was submitted to a subcommittee of five to report upon. The report, which has been prepared, characterizes the members of the Sibley caucus as "persons claiming the right to dictate the party nomination for president of the United States," and "seeking a division from the bimetallic party by a wrongful use of party machinery to force endorsements of the said candidate, regardless of wishes of others in the party as to what the issues should be when appealing from the money power to the intelligence of the American people."

It plainly indicates that the Warner-Sibley plan of advocating silver is dishonest, and says Mr. Sibley's adherents are "evading a vital issue."

Suits Everybody.

Good work pays both ways—the man who does it and the man for whom it is done. C. H. Lane, the gentleman's tailor, needs his trade growing so as to require more help and more room, and he has to enlarge. The fact is: Lane's work suits pretty well and the musical methodist draper's establishment is made merry by the profitable hum of industry.

## WHERE DOES THE REFORM COME IN?

One result hoped for from the new deal in Oregon politics was a straightening out and more satisfactory management of the public lands of Oregon. The passage of the Daly bill by the legislature and the appointment of Mr. Tim Davenport as special land commissioner gave further grounds for hope to the people that there might be a breaking up of the old land ring that has fattened off the school lands of Oregon since many years.

The appointment of Mr. Davenport was distasteful to many Republicans but was accepted by THE JOURNAL in the hope that some good might come out of it to the people. We still hope and believe there may. The management of our public lands is a closed book. The biennial legislative committee submits its perfunctory report, which, of course, is expected to be a whitewash. The people would like to know what a sincere reform man like Tim Davenport is accomplishing. THE JOURNAL would be glad to know that at last something was being done to protect the people.
