If you want a sure relief for pains in the back, side, chest, or limbs, use an Allcock's Porous Plaster.
BEAR IN MIND—Not one of the host of counterfeits and imitations is as good as the genuine.

EVERYTHING GOES.

The Oregonian is playing into the hands of the Populists right along. It now charges the 1896 legislature with appropriating \$30,000 to pay the Salem Electric Light company. This will be made much of by the Populists all over the state.

The fact is the legislature of 1893 passed a bill that fastened upon the state a contract for ten years by which the Consolidated Electric Light & Power company of Salem, a Portland corporation, gets so much per month per light from the state. The last legislature simply put in the general appropriation bill an item to pay an expense already contracted.

The bill making this contract was engineered by Frank Paxton, of Portland, and the rest of the gang usually sent up from Portland under Harvey Scott's regime in 1893. The state has nothing to do but pay. The legislature of 1896, for the first time in many years was not controlled by this gang in the lower house. It was in the senate. The Oregonian gang of reformers had control of some of the principal committees in the lower house, but there were men enough there to beat them on any proposition when it became necessary.

Of course, the Oregonian will go on lying about the last legislature. It may succeed in turning the state over to the Populists. There is no daily paper at Portland to show up its political rascality and it can go on lying and deceiving the people.

The banquet to be given on the night of Lincoln's birthday, February 22, under the auspices of the Mulford Republican club, of Portland, promises to be a notable affair. Already more than a hundred tickets have been spoken for. Invitations have been sent out to a score of the leading Republicans of the nation and to the governors of the Pacific coast states. Three governors at least will be present—Governor Lord, of Oregon; Governor McGraw, of Washington, and Governor McConnell, of Idaho. A big banquet at the hotel will be held and a grand time had.

Grover learned something when he hauled down the American flag at Hawaii. He learned there was a Monroe doctrine. He learned again when he put the national treasury in the hands of the Morgan gold syndicate. He will issue his next bonds to the Armenian people. Such a president is an expensive luxury, but it is refreshing to know he can learn something.

Thorpe, of the Cottage Grove and Lemah! Leader, has adopted a platform that will bring prosperity to Oregon—red winter apples and Poland China swine. He will do more good for Lane county and Oregon than some men who go to congress.

Sometimes a man suffers for being too progressive. John Holdcock, of Pennsylvania, invented a flying machine, but when he tried it recently the people thought he was a devil and fired rifles at him until they brought him down.

When the Republican elephant has stepped on Harvey Scott and Grover Cleveland there will be nothing left of them. If it doesn't there will be nothing left of it.

The Armenians would not be massacred by the thousands daily if the magic touch of the Monroe doctrine could be extended to them.

Until the people learn to conduct the nominating conventions that select their legislatures they will get no reforms at their hands.

A Republican club at Portland is said to have 96 of its members in office, and the other four are candidates for delegates to the national convention.

Down with John Sherman, is the Oregonian's latest cry. There's nobody good enough but Grover.

DR. BROWN'S CASE.

The examination of Mrs. Davidson is continued to Tuesday. She is held for extorting \$500 out of one Dr. Brown, pastor of the First Congregational church, San Francisco, to silence a Mrs. Baddin about Brown's alleged misconduct with a Miss Overman, a young woman from Benton county, who has for four years been Brown's private stenographer.

It is Brown who is really on trial, and Saturday he called the lawyer who was cross-examining him an "infamous liar." The writer once heard Rev. Brown preach on the miracles of Jesus. We wondered then how so talented a talker could have such a misconception of spiritual things. Like many others who get into pulpits, he is not a spiritually minded man. He is devoid of real culture, refinement of feelings and spiritual elevation that should characterize a Christian gentleman.

Dr. Brown's reputation is great. He has but one ambition—to mount higher and higher, to be a Talmage or Beecher. He has filled the press; he has soared on the pinions of sensationalism to the uttermost parts of the earth. We hope he has not fallen.

HARD TIMES FACTS.

GOOD READING FOR THE FAMILY CIRCLE.

Every reader of THE JOURNAL should look up the list of premiums given absolutely free with this paper. THE WEEKLY JOURNAL at \$1 a year is the cheapest paper on the Pacific coast, yet with it we give yearly subscriptions to any of the following valuable publications, each known to the world as a standard in its field:

- The Toledo Blade,
- The Queen of Fashions,
- Womankind,
- The Farm News,
- The Child Garden.

These valuable publications are each worth a \$1 a year, yet we give you your choice, one year free, for a \$1.50 subscription to THE JOURNAL, either the DAILY for six months or the WEEKLY for eighteen months. See the list, and don't neglect to profit by it.

Don't be deceived into paying for so-called premiums offered with high priced papers at a slight advance. Remember THE JOURNAL is the cheapest newspaper on the Pacific coast, and it gives you high grade premiums without additional charge.

The Republicans of Oregon should sit down equally hard on Grover and Harvey Scott.

Salem's latest fad is a poultry boom. Well, we should cackle!

If arbitration is so potent, why not give the Armenians the benefit of it?

Cleveland and Morgan.

NEW YORK, Jan. 6.—A special to the World from Washington says it is given out by a senator, who has on previous occasions represented the administration, that the president has definitely broken with the Morgan syndicate. Mr. Cleveland, so the senator says, is intensely angry with Morgan, and declares that the syndicate's action in preparing to take a loan was entirely unauthorized, and has greatly embarrassed the government. There will be no bond call, it is said, till congress has a chance to act, and then it will be a public loan, if the president is able to follow his will.

In the Beginning

of a new year, when the winter season of close confinement is only half gone, many find that their health begins to break down, that the least exposure threatens sickness. It is then as well as at all other times, and with people even in good health, that the following facts should be remembered, namely: that Hood's Sarsaparilla leads everything in the way of medicines; that it accomplishes the greatest cures in the world; has the largest sale in the world, and requires the largest building in the world devoted exclusively to the preparation of the proprietary medicine. Does this not conclusively prove, if you are sick, that Hood's Sarsaparilla is the only medicine for you to take?

THE MIGHTY TO BE LAID LOW.

Downfall of England Foreseen by A. T. Gilbert, of Salem.

A Salem banker, of the firm of Gilbert Bros., writes as follows to the Portland Oregonian:

The question is being asked by nearly every one, "Will there be a war with England?" My answer is that there will be; it must come, sooner or later, and I fully believe that it will come soon; in fact, the gauntlet has been thrown down and accepted already. America says plainly "You must." England says she won't, and there the matter rests, awaiting only a favorable time for one or the other to back down.

I am fully convinced that England, like Rome, has reached the height of her glory, and her star, like Napoleon's, is beginning to set, and she must fall as other nations have done. I believe that her strength ranks her weak. History only repeats itself. When a nation reaches a certain point of high-water mark there must come a reaction, and the law is laid down: "Thus far shalt thou go, and no farther," and then comes the fall, and great will be the fall England will take. She will be brought low in the dust, and her strength will be the means of her downfall, and the map of the world will see the greatest change it has ever known.

The signs all point to a great disension in the English government. As soon as the queen dies, it will break out in all its fury. As long as she lives, the throne will be respected; but, should she die, and her death can be looked for at almost any time, will the mass of the English people permit a corrupt and aristocratic government to rule any longer? She is burdened with a train of paid subjects that are draining the country and taxing the people, who are already crying out, "How long, Oh, Lord, how long shall these things be?"

I believe that, should we have war with England, she would have the worst war at home. She has now more of this world than she can take care of. The different countries that are under the English yoke are only biding the time when they, in their weakness can show that they are strong. I do not believe that, in case of the queen's death, the Prince of Wales would ever be allowed to go upon the throne. There would be such a strong protest go up from the people that it would throw the whole government into a bitter war at home, and then Canada, Ireland, India and other countries would show their independence and the yoke would be lifted and their freedom declared.

I cannot believe, (taking the history of the past, from the time of Moses until now) that any nation would be permitted to rule or control the world. Nations in the past have tried it, and have tried it, and have paid the penalty and as sure as the sun rises and sets, England will go the way the rest have gone.

Neither will a corrupt nation be permitted to stand; at least, history says so. The boasted strength of a nation has nothing to do with it; it is the right that will prevail in these great questions. We have only to take as an example the Revolution, and we will see that, so far as power and strength were concerned, they were against us, but right prevailed and a weak nation was made strong. Every battle that was fought in Bible history tells the same story. No matter how strong the enemy or the nation was, if right was on the weaker side it won; Gideon, with only 300 men, routed and defeated the great Philistine army, with its thousands of trained men—utterly routed and defeated them. Goliath comes next boasting of his great strength, backed by a mighty army of the best trained and equipped men of the day. "Come on," said Goliath, "send a man, if you dare, and I will chew him all up, and feed his flesh to the birds of the air; so come on, you cowards and I will fix you." The next thing Goliath

knew he didn't know anything for, that little insignificant David put a stone between Goliath's eyes and laid him out, and the great army that was backing up Goliath took to its heels and was nearly annihilated. They had only to blow the trumpets before Jericho and down she went; and so all along the line. The mighty have been laid low and the weak have been made strong. This is history and all readers will agree with me.

I believe that, with the solid and patriotic front the American people are putting on, we shall be the controlling power in the whole matter, and that England will yet bow to the will of the American people. The gold that has been flowing into her coffers will be returned to the people an hundred-fold, and we shall be the great money center of the world; the finger-board points in that direction. When the war comes, the American people will be as one man. There will be no party lines drawn; there will be no North, no South; the patriotism of the days of George Washington will be the ruling spirit. There will be the greatest rallying around the old flag that this country has ever known, and it will come from every quarter, from Maine to Oregon; from the Great Lakes to the Gulf of Mexico, men will spring to arms as they did in the days of the Revolution. "To arms! To arms!" will be the cry that will go up from the solid American people. The remains of both armies of the Rebellion will come from every point of the compass; they will come in their old age, maimed and just on the brink of the grave; they will hold up to view what they suffered and fought for; the wounds that they will hold up will be to tell their sons to go and do likewise, defend the old flag, even though it be at the cost of a leg or arm, or death, if need be.

Yes, I believe that it will come, and the American people will stand before the world as the greatest nation that ever existed. A. T. GILBERT.

SMALLER THAN USUAL

—Illigation, in fact, are Doctor Pierce's Pleasant Pellets. Dr. R. V. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., was the first to introduce a Little Pill to the American people. For all laxative and cathartic purposes these sugar-coated "Pellets" are superior in a great many ways to all mineral waters, sedative powders, salts, castor oil, fruit syrups, laxative teas, and other purgative compounds. Made of concentrated vegetable ingredients, they act in a mild, natural way. Their secondary effect is to keep the liver active and the bowels regular, not to further constipate, as is the case with other pills. They don't interfere in the least with the diet, habits of occupation, and produce no pain, griping or shock to the system.

Dr. Pierce's Pleasant Pellets cure bile-liousness, sick and bilious headache, dizziness, costiveness, or constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heart-burns," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. These "Pellets" are easily dissolved in the stomach and absorbed into the blood, stimulating a flow of bile from the liver, and arousing to activity all the glandular secretions. Thus they act in nature's own way. In proof of their superior excellence, it can be truthfully said, that they are always adopted as a household remedy after the first trial. Put up in glass vials, therefore always fresh and reliable.

One little "Pellet" is a laxative, two are mildly cathartic. As a "dinner pill," to promote digestion, take one each day after eating. To relieve distress from over-eating, they are unequalled.

They are tiny, sugar-coated granules; any child will readily take them. Once used, always in favor.

Accept no substitute that may be recommended to be "just as good." It may be better for the dealer, because of paying him a better profit, but he is not the one who needs help.

"DR. MILES,
Through His Nerveine Is a Benefactor to Thousands."

A WIDELY known Wisconsin publisher, who resides at Green Bay, writes March 6th, 1896, as follows: "Five years ago I became so nervous that mental work was a burden. I could not rest at night on account of sleeplessness. My attention was called to Dr. Miles' Restorative Nerveine, and I commenced to use it with the very best effect. Since then I have kept a bottle in my house and use it whenever my nerves become unstrung, with always the same good results. My son also takes it for nervousness with like never failing success. I have recommended it to many and it cures them. All who suffer from nerve troubles should try it. It is free from narcotics, perfectly harmless, and yet soothing and strengthening.
