## Daily Capital Journal

BY HOPER BROTHERS.

FRIDAY, JUNE 5, 1896.

FARM NEWS.

The newest brooder has a "cluck" that runs by clock works.

The first Mt. Tabor berries of the season came into the Portland market May 27.

The "poultry bit," it is claimed, will stop feather eating.

California is preparing to give a large fruit exhibit in New York City, on a grand scale.

Spokane is to hold a grand fruit fair some time in October. Liberal cash premiums are being offered.

The March imports of foreign wools was 18,000,000 pounds compared with 22,187,000 pounds a year ago.

The amount of corn exported the past ten months is 77,263 bushels a against 18,270,000 bushels a year ago.

The imports of butter from Denmark into the United Kingdom for the year 1895 amounted to 140,230,240 pounds.

A condensed milk factory would be a business on this Pacific coast, there being none west of the Rockies, we are told.

The brutal and senseless method of stuffing a cigar down a chicken throat as a remedy for rupe should be scorned by every sensible poultry man.

The average hen ought, by good care, lay about 150 eggs and a hen that does not come in that range does not properly do her duty.

The fruit trees in this section are absolutely void of fruit. There will not be an overproduction in Yamhill this year.—Telephone Register.

Foreign fassseed finds small lodgment in this country at present, only 9,000 bu. being imported in March compared with 564,000 a year ago.

For diarrhoea in chicks first keep them warm at night then change their diet and feed boiled rice and scalded milk for a few days till cured.

It is a deplorable fact that Oregon dairy cows are not up to the eastern standard. The Oregon dairyman must grade up or there will be no profit in the business.

Most farmer's wives are superior to the their husbands in the poultry business. Many a mortgage has been raised by their especial efforts in the poultry business.

There is no business that requires intelligent advertising as the poultry breeder, and success cannot be obtained unless persistently followed up the year through.

What should constitute a good egg is made up of ten parts shell, sixty parts white, and thirty parts yolk. The white of an egg contains 80 per cent water, the yolk 52 per cent. The average weight of an egg is two ounces.

Experiments in evaporating eggs have been entirely successful. The dried product being reduced to powder and boxed keeps indefinitely. When opened it is soaked in water and then cooked as fresh eggs are, and has the same taste.

U. S. Consul General Maratta reports a decline in the wool clip of Australasia. The decline commenced in 1891, at which time New South Wales had 61,523,416 sheep, while in 1895, the number had fallen to 51,433,332.

There are now 74 experiment stations in the United States, in which 576 trained specialists are employed dealing out wisdom gleaned by experimenting in the fields for which they are especially trained, for the benefit of the farmer.

The average yearly sunshine in England, according to a recent work by Dr. Van Hebbler on meteorology and hygiene, is 1400 hours; in Germany, 1700; in Italy, 2300, and in Spain, 3000. London averages 23 hours of sunshine out of a possible 100, and Madrid 60.

The imports of rice for nine months ended March were scant 68,000,000 lbs. against 101,000,000 lbs. a year earlier, and the amount remaining in bond at the close of March but 17,000,000 lbs. compared with nearly 20,000,000 a year ago.

Unchecked improvements in our foreign trade in horses continues. During March 3,024 were shipped abroad worth almost \$4,000,000, compared with only 1,315 a year ago. The 17,500 exported during nine months were much more than double the business a year ago.

The April shipments of cotton were

361,000 bales, only two-thirds of those of a year ago and exports for ten months 4,249,000 bales, against 6,302,000 bales in '95. This loss in bulk was greatly made up, however, in the higher average prices, respectively 8.2c and 5.7c per lb. for the periods named.

The fact that when bees need most attention the orchards need the least should encourage the apiary in connection, and the bee is of very high importance in fertilization of fruit blossoms, and while the bee is occupied in the blossom no other insect will inhabit them.

Pure water and plenty of it is the principal point for the successful poultryman to observe these hot days. This is too often overlooked where profit is the end and aim of the business and many a weekly chicken is the result.

A number of farmers who had become discouraged in Yakima were on board the Regulator this morning with six wagons and their household effects en route to Willamette valley, where they will engage in wheat raising.—Dallas Times Mountaineer.

Chas. L. Bailey, commissioner of the Oregon State Board of Horticulture for the second district, is collecting complete and accurate statistics as to the fruit growing industry in his district. He expects to secure the name of every grower, with his acreage in different kinds of fruit, etc.

The American Fruit Growers Union was affected at Chicago May 20. The central headquarters will be located in Chicago. Fruit growers in all parts of the country will be kept posted as to markets. John D. Cullingham, of Georgia was made president and W. Brown, of the Oregon Fruit Union secretary with an executive committee. A vice president was chosen from every state.

### FRUIT IN LAKE COUNTY.

The latest fruit prospectus of the outlook in this vicinity according to the judgment of the most experienced growers is anything but encouraging. It is believed that there will not be more than one-tenth of an apple crop. Of the prune crop, the Italians are all killed; there will be about one-fourth of a crop of French prunes, and one-tenth of a crop of petites. There will be less than one-half of a crop of cherries. There will be about one-sixth of a crop of pears, and the plums are all killed. There will not be over one-half a crop of gooseberries and currants. Strawberries and raspberries are not injured. Grapes are not hurt so far, but are late and may be caught by frosts in the fall before fully matured. Nuts are not much injured, except the almond crop, which has been totally destroyed.

### FEEDING PIGS.

At the Oregon experiment station at Corvallis it has been conclusively proven that sheaf wheat is a very extravagant feed for hogs. The cost of producing a pound of grain, where fed the wheat in the straw, was 4.28 cents, while those fed on a ration of ground feed, a mixture of 3 parts of wheat, 1 part shorts and 1 part ground oats was 1.83 cents. It required 7.44 pounds of grain in the sheaf to make a pound of live weight, while it only required 3.97 pounds of the mixture to make a pound of gain. While 60 pounds of the mixture made 15.11 pounds it only made 8.00 pounds of live weight when fed in the straw. It will be seen that at three cents a pound live weight there would be a difference in favor of the ground feed of 21 cents per bushel. The pigs fed on the sheaf grain did not relish the ration so well and interfeared very much with good results. It was well demonstrated that a pig would not make rapid gain when compelled to work for its food, while those that eat the ground food would go and lie down and the food was perfectly assimilated. A great deal of the grain eaten was found whole in the excreta

### STOO REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.

Don't be Afraid.

When your machines do not wear good do not be afraid of large charges. Geo. C. Will, the old sewing machine man, very seldom charges more than 50 cents and sometimes \$1. d&wtf

"Pinafore" Monday evening, June 8.

# A Croquette

fried in COTTOLENE is a most toothsome morsel to tempt a fickle appetite. Once tried, then all desire for lard-fried things will vanish. Everything fried in COTTOLENE is appetizing, wholesome and healthful—less greasy, tastes better, more digestible.

The Cottoleone trade-marks are "Cottoleone" and "cotto" head in circle—put on every tin.

THE N. K. FAIRBANK CO., St. Louis, Chicago, Montreal, San Francisco, Portland, Oregon.

### WEATHER AND CROPS.

The weather for the week ending June 1, 1896, is summed up as follows: Weather—The past week has been the first week this season without any rainfall, i. e. there was no general rain. On Friday, the 29th of May, good showers fell in Josephine county, resultant from a thunder storm which moved into Eastern Oregon Friday night. Accompanying the absence of rainfall were warm days and nights and plenty of sunshine. The temperature averaged 5 degrees warmer than in the preceding week; the day temperature averaged 72 degrees and the night 51 degrees, both being normal May temperature.

Crop—The weather has been most favorable to farm work and vegetation. The growth of all things has been healthy and rapid. Considerable oats is being sown for hay. Late gardens are now about all planted. The weather conditions were favorable to the drying out of the soil, which in places was needed. Wheat has made an excellent growth. Spring grain has a good stand and is as well rooted as fall wheat. All correspondents note the wonderful growth and improvement in the wheat crop. The same may be said of the oats, except that sown lately, and other grains. Some correspondents report that oat seeding will continue to June 15. Rye that was sown in September is now ready in the southern counties to be cut for hay. Red clover in places is 28 inches high, the rainy weather having been temperate to it. Haying will begin this week, especially in the southern counties. In Jackson and Josephine counties alfalfa will be cut this week for the first crop. The rainy weather has made all hay very heavy in growth.

Fruits—There can now be no denying the fact that the frosts of the fore part of April and the cool rains have seriously injured most varieties of fruits. Of the prunes, the Italian prunes appear to be the most seriously injured. One correspondent reports that in his 40-acre prune orchard there is not a bushel of fruit. Some orchards will have a fair crop of prunes, while others will have none at all. The current season is one of those phenomenal ones, for it is a very rare occurrence that fruit is injured by the weather in Oregon. The peaches and apricots have been more seriously injured than the prunes. The pears have been injured; in some sections the trees are fairly filled with pears. The apple crop has also been affected, and this is a most unusual thing in Oregon. The cherry crop has been injured in some localities, while in others the trees are fairly well filled. In 1895 cherries were ripening on June 1, and on June 5 ripe Oregon cherries were in the market. All the fruit has been injured by the weather, yet it must not be understood that this means a failure in the crop. The small fruits and berries have not been injured. Grapes have been backward, but they are now growing rapidly. Strawberries are ripening rapidly, and before the close of the current week Oregon strawberries will be plentiful. Raspberries, blackberries and gooseberries are, as usual, most prolific.

### ANNUAL ROSE SHOW

Of the Salem Horticultural Society for 1896.

#### PREMIUM LIST.

1. Best collection of tea roses, not less than 12 varieties, \$5.
2. Best collection of tea roses, 6 varieties, \$3.
3. Best collection of tea roses, 2 varieties, \$1.
4. Best collection of not less than 12 varieties of tea in bud, \$5.
5. Best collection of 6 varieties of buds, teas, \$3.
6. Best collection of hybrids, \$3.
7. Best specimen of rose bush in bloom, pot grown, and introduced in 1895-'96, \$3.
8. Best specimen of rose bush in bloom, pot grown, and introduced in '95-'96, \$1.50.
9. Best collection of moss roses, buds, \$2.
10. Best collection of Polyantha roses, \$1.
11. Best collection of pink roses, not less than 5 varieties, \$2.
12. Best collection of yellow roses, not less than 5 varieties, \$2.
13. Best collection of red roses, not less than 5 varieties, \$2.
14. Best display of Banksian roses, \$1.50.
15. Best single rose of any variety, 1st \$1; 2d 50c.

Special premiums will be offered for the finest display of the following named varieties of roses.

Marchal Neil, Viscountess Folkestone, Papa Gontier, Catherine Mermet, Sunset, Marie Van Houtte, La France, Jacqueminot, Riene Marie, Henriette, Wm. Allen Richardson, Homer Baroness Rothschild, Bride, La Marque, Madame Alfred Carrier, Malmaison-Madame Joseph Schwartz, Docteur Pasteur, Madame Welehe, Isabella Grey, James Sprunt (bush or climbing), Perle des Jardin (bush or climbing), Niphetos (bush or climbing), 50c each.

Finest display of roses from any point in Oregon outside of Marion county, \$5.

Premiums on other flowers than roses:

- 1st. Finest display of pansies, \$2.
- 2d. Finest display of pansies, \$1.50.
- 1st. Finest display of sweet peas, \$1.
- 2d. Finest display of sweet peas, \$1.

Large number of varieties of native Oregon ferns in pots, \$1.50.

Best collection of wild flowers, gathered by a child under 14 years of age, each variety arranged separately, 1st \$2.50; 2d \$2.

Collection of twenty varieties of wild flowers, with correct botanical names, \$1.

Persons not wishing to enter for premiums are invited to display their roses at the fair.

### RULES.

The rules, adopted by the society for governing the fair are as follows:

- 1.—The superintendent shall have general charge of the rose show.
- 2.—Judges shall be appointed by the executive committee, and all adjustments not covered by rules or published action of the executive committee shall be referred to that committee.
- 3.—Exhibitors not at the door by 1 p. m. on the first day of the show will be deemed to have withdrawn from competition. Exhibitors will be received from 8 a. m. till 1 p. m.
- 4.—All flowers must be handed to the superintendent or assistants at the door, and subjected to their examination.
- 5.—Receipts for premium flowers will be furnished by the superintendent, but flowers for display may be arranged by the owner.
- 6.—All flowers entered for premiums must be distinctly named, if incorrectly named they will be excluded from premiums.
- 7.—Names of flowers cannot be changed after they are entered.
- 8.—No inferior plant or flower to receive a premium.
- 9.—No entry of any variety in collection of named roses shall consist of less than three specimens, at least one to be full blown.
- 10.—All plants must be owned by the exhibitor and have been in their possession at least three months before the show, and all cut flowers must be grown by the exhibitors.
- 11.—Plants and flowers cannot be removed until the close of the exhibition, except by permission of the superintendent.
- 12.—No flower shall be entered for more than one premium.
- 13.—All flowers must be labeled with name before entering.

### NEW ADVERTISEMENTS.

PUBLIC MEN, POLITICIANS AND BUSINESS MEN can obtain all newspaper information from the press of this state, coast and country from the Press Clipping Bureau, Allen's Union Block, Portland, 12 1/2c.

### JOHN HUGHES,

Dealer in groceries, paints, oils, window glass, varnishes, and the most complete stock of brushes of all kinds in the state. Artists' materials, lime, hair, cement and shingles, and finest quality of grass seeds.

### MISS BALLOU'S SCHOOL

—OPENED IN—

#### CHANNING HALL.

Will receive children from 3 years upward. Special attention to beginners. All desired branches for the older pupils taught, including drawing, modeling, music, piano and artistic needlework. All done on the individual plan, in which each child is advanced according to his own capacity. For terms and particulars apply to Miss O. Balloou, Twentieth and Chemecka sts.

### Salem Steam Laundry

Please notice the cut in prices on the following:

Shirts, plain, 10 cents
Under drawers, 5 to 10 cents
Under shirts, 5 to 10 cents
Socks, per pair, 3 cents
Handkerchiefs, 1 cent
Silk handkerchiefs, 2 cents
Sheets and pillow slips 24 cents per dozen, and other work in proportion.

Flannels and other work intelligently washed by hand.

Col. J. Olmsted Prop.

### A difference of a day.

Go east over the Burlington and you will reach  
Omaha 12 hours sooner  
Kansas City 10 hours sooner  
than the man who takes any other line.

Possibly you doubt this, but it is true just the same.

Get one of our folders, open it—look at the map in it—and you will understand why it is true.

Tickets and time tables at the local ticket office.

A. C. SHELDON, G. A., Portland, Or.

### WAGON & REPAIR SHOP

I am prepared to do all kinds of work in wood and iron. Repairing machinery of any kind or making and repairing stone cutters, tools and edged tools of any kind made and repaired; wagons and buggies repaired, and new ones made to order. Horseshoeing, the best that can be done in town—hand-made shoes. Plates and running shoes carefully attended to. Call at my stand, at 100 Chemecka street, back of New York Kasket store.

R. I. HERSCHBACH.

### PATENTS

ORIGI-NAL, TRADE MARKS, COPYRIGHTS, ETC.

For Information and free Handbook write to MUNN & CO., 311 BROADWAY, New York. Quick letters for securing patents in America. Every patent taken, not by us is brought before the public, and given free of charge in the Scientific American.

### Webster's International Dictionary

The One Great Standard Authority.

Send a Postal for Specimen Pages, etc.

Successor of the "Unabridged."

Standard of the U. S. (Gov't Printing Office), and the British Empire, all the main provisions of the Dictionary and of nearly all the English and American vocabularies.

Warmly Recommended by State Superintendents, and other authorities, without number.

THE BEST FOR EVERYBODY

It is easy to find the word wanted.

It is easy to ascertain the pronunciation.

It is easy to trace the growth of a word.

It is easy to learn what a word means.

The San Francisco Chronicle says— "There is no doubt that the Webster dictionary is the best dictionary in America. It is more complete than any other, and is more easily understood in other English-speaking countries."—Dec. 11, 1895.
