PEOPLE'S PARTY PLATFORM.

Declaration of Principles Adopted by the National Convention.

The People's party assembled in national convention reaffirms its allegiance to the prin-ciples declared by the founders of the Republic. and also to the fundamental principles of just government as enunciated in the platform just government as counciated in the platform of the party in 1892. We recognize that, through the connivance of the preceding administrations, the country has reached a crisis in its national life as predicted in our declaration four years ago and that prompt and particular action is the supreme duty of the hour. We realize that while we have political independence, our financial and industrial independence is yet to be obtained by restoring to pendence is yet to be obtained by restoring to our country the constitutional control and exercise of the functions necessary to a people's government, which functions have been basely surrendered by our public servants to corporate monopolies. The influence of Euro-pean money changers has been more potent in shaping legislation than the voice of the in shaping legislation than the voice of the American people. Executive power and patronage have been used to corrupt our legislatures and defeat the will of the people, and plutocracy has thereby been enthroned upon the ruins of Democracy. To restore the government intended by the fathers and for the welfare and prosperity of this and future generations, we demand the establishment of an economic and financial system which shall make us masters of our own affairs and independent of European control, by the adoption of the following declaration of principles:

First-We demand a national money, safe and sound, issued by the general government only, without the intervention of banks of issue, to be full legal tender for all debts, private and public, a just, equitable and efficient means of distribution direct to the people and throughout the lawful disburse-

ents of the government.
Second—We demand the free and unresecond—we demand the free and unre-stricted coinage of silver and gold at the present legal ratio of 16 to 1, and without waiting for the consent of foreign nations. Third—We demand the volume of circulat-ing medium be speedily increased to an amount sufficient to meet the demands of the

business and the population of this country and to restore the just level of prices of labor and pr duction

rough-We denounce the sale of bonds and the increase of the public interest bearing debt made by the present administration as unnecessary and without authority of law, and we demand that no more bonds be issued

Fifth—We demand such legislation as will prevent the demonetization of the lawful in hey of the United States by private con-

surrendering this option to the holders of government obligation securities.

Seventh—We demand a graduated income tax, to the end that aggregated wealth shall bear its just proportion of taxation, and we regard the recent decision of the supreme court relative to the income tax law as a misinterpretation of the constitution, an invarion of the righful powers of congress over varion of the righful powers of congress over

and to facilitate exchange. TRANSPORTATION.

First—Transportation being a means of exchange and a public necessity, the government should own and operate the railroads in the interest of the people on a non partisan basis, to the end that all may be accorded the same treatment in transportation, and that the

ment should own and operate the railroads in the interest of the people on a non partian basis, to the end that all may be accorded the same treatment in transportation, and that the tyranny and political power now exercised by the great railroad corporations, which result in the impairment, if not the destruction of the political rights and personal liberty of the citizen, may be destroyed. Such ownership is to be accomplished gradually in a manner consistent with sound public policy.

Second.—The interest of the United States in the public highways built with public moneys and the proceeds of extensive grants of the United States on these railroads should a tever have been alienated, mortgaged or sold, but guarded and protected for the general welfare as provided by the laws organising such railroads. The foreclosure of extating lieus of the United States on these railroads should at sone follows the debtor companies, and at the foreclosure sales of said roads the government shall operate said railroads as public highways for the benefit of the whole fourthased at a reasonable price, and the government shall operate said railroads as public highways for the benefit of the whole people and not in the interest of the few, under autiable provisions for protection of life and property, giving to all the transportation interest caula provileges and equal raise for faces and freights.

First.—The true demonstered according to their true innerst and spirit.

Fourth.—The telegraph, like the postoffice system, being a necessity for the transmission of news, should be cowned and operated by the government in the interest of the people.

First.—The true policy demands that the sational and state legislation shall be such as will clitimately enable every prudent and the sational and state legislation shall be such as will clitimately enable every prudent and monopoly, as well as slien ownership, should by railways and other corporations in second as will clitimately enable every prudent and monopoly, as well as slien own

Becond—We condem the frauds by which the land grants to the Pacific railroad companies have, through the countyance of the interior department r bhed multitudes of bona fide settlers of their homes and a iner-s

sult to your intelligence to try to sell you on all public lands is, granted free hooves, as something else. Remember that all on all public lands is, granted free hooves, as provided in the national homestead law, and that no exception be made in the case of indian reservations when op and for a triement, and that all lands not now patented come under this demand,

We favor a system of direct legislation through the initiative and referendum and r proper constitutional safeguards.

GENERAL PROPOSITIONS.

First.—We demand the election of president vice-presidens and United States senutors by

vice-presidens and United States senators by direct vote of the people.

Second—We tender to the patriotic people of Cuba our deepest sympathy in their strug gie for political freedom and independence, and we believe the time has come when the United States, the great republic of the world, should recognize that Cuba is, and of right ought to be, a free and independent

Third.—We favor home rule in the territories and the District of Columbia, and the early admission of the territories as states.

Fourth—All public salaries should be made to correspond to the price of labor and its

products.\*
Fifth.—In times of great industrial depresion, idle labor should be employed on public

works as far as practicable.

Sixth.—The arbitrary course of the courts in assuming to in prison citizens for indirect contempt and ruling them by injunctions should be prevented by proper legislation. Seventh—We favor just pensions for every disabled Union soldier.

Eighth—Believing that the elective fran-chise and untrammled ballot are esssential to a government of, for and by the people, the People's party condemns the wholesale system of disfranchisement adopted in some of the states as un-Republican and un-Democratic, and we declare it to be the duty of the several state legislatures to take such action as will secure a full and free and fair ballot and an

onest count. Ninth—While the foregoing propositions constitute the platform which our party stands upon, and for the vindication of which its organization will be maintained, we recognize that the great and pressing usue of the pend-ing campaign upon which the presidential election will turn is the financial question, and upon this great and specific issue between the parties we cordially invite the aid and co-operation of all organizations and citizens agreeing with us upon this vital question.
