Equality of talents or of edu- the corporate person created by law as bimetallism. No national party durduced by human institutions. In the blood created by the Almighty. No States has ever declared against it,

"It follows as a necessary conclusion that vicious legislation must be remedied by the people who suffer from the effects of such legislation, and not by those who enjoy its benefits. The Chicago platform has been condemned because it differs from an opinion rendered by the supreme court declaring the income-tax law unconstitutional. Our critics even go so far as to apply the name, anarchist to those who stand upon this plank of the platform. It must be remembered that we expressly recognize the binding forces of that decision so long as it stands as a part of the law of the land. There is in the platform no suggestion of an attempt to dispute the authority of the supreme court. The party is simply pledged to use 'all the constitutional power which remains after that decision, or which may come from this reversal by the court as it may hereafter be constituted. Is there any disloyalty in that pledge? For 100 States has sustained the principle which underlies the income tax. Some 20 years ago, the same court sustained, without a dissenting voice, an income tax law almost identical with the one recently overthrown. Has not a future court as much right to return to the judical precedents of a century as the present court had to possess, and which, if surrendered, will depart from them? When courts

> 'While the money question overshadows all questions in importance, I desire it understood that I shall offer no apology for the income-tax plank of the Chicago platform. The last income-tax law sought to apportion the burdens of the government more equitably among those who enjoy its protection. At present the expenses of the federal government collected through internal revenue and import duties are especially burdensome upon the poorer classes of society. A law which collects from some citizens more than their share of the taxes and collects from other citizens direct means of transferring one man's property to another man, and while the process may be quite satisfactory to the man who escapes just taxation, it can never be satisfactory visions, when considered in connection with methods of taxation in force, was unjust to the possessors of not new, nor is it based upon hostility ascertain, contains an exemption clause. While the collection of an not make it necessary for this nation | August 5 to 12, inclusive, is 631. to adopt the system, yet it ought to moderate the language of those who denounce the income tax as an assault upon the well-to-do. Not only shall I refuse to apologize for the advocacy of an income-tax by the national convention, but I shall also refuse to a fusion on electoral ticket, after the lowed by ice cream and cake and a apologize for the exercise by it of the right to dissent from a decision of the supreme court. In a government like ours every public official is a public servant, whether he holds office by election or by appointment; whether desire for fusion. The plan is to let

Fans, hats and handker. and the fruits of superior industry, which is not able to protect from had the temerity to oppose it. Three economy and virtue, every man is every arm uplifted for his injury, the parties, the Democratic, the Populist humblest citizen who lives beneath and the silver party, not only declared for bimetallism, but have outlined the specific legislation necessary to restore silver to its ancient position by the side of gold. The Republican platform expressly declares that bimetallism is desireable when it pledges the Republican party to aid in securing it as soon as the assistance of certain foreign nations can be obtained.

Those who represented the minority sentiment in the Chicago convention opposed the free coinage of silver by the United States by independent action on the ground that, in their judgment, it 'would retard or entirely prevent the establishment of international bimetallism, to which the efforts of the government should be steadily directed.1
